

marmoleum® FR

The marmoleum FR collection is available in five different design styles, including linear, solid and marbled patterns. Within each there is a wide array of colourways to choose from.

Fresco

Real

Vivace

Concrete

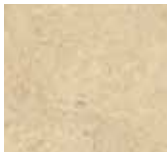

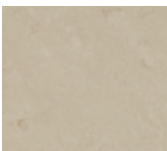

Striato

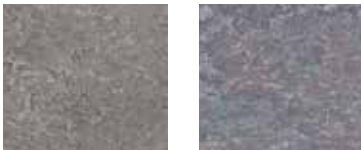

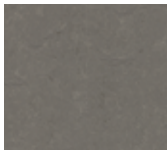

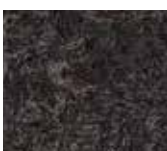

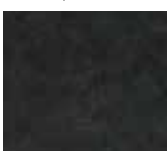

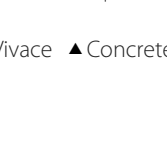

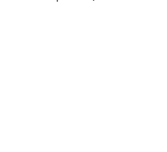

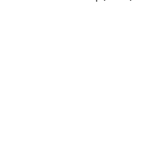

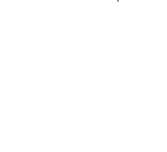

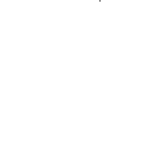

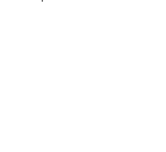

marmoleum® FR

Brights, bolds and more subtle shades. Marble designs combine anything from three to eight different colours that can vary in intensity and contrast. Sometimes they create bold, strong contrasts resembling real marble, sometimes the colours are more subtle like fresco murals.
