DSDC APPROVED PRODUCTS

Age inclusive design and Forbo Flooring

creating better environments
INTRODUCTION TO DSDC
WHO WE ARE, WHAT WE DO

DSDC is an international centre of knowledge and expertise dedicated to improving the lives of people with dementia. We have drawn on research and practice from across the world, for over 25 years, to provide a comprehensive, up-to-date resource on all aspects of dementia.
Dementia Friendly Flooring Selection Guidelines

- Tonal contrast is critical for materials to be seen against each other.
- Contrast can be perceived where there is 15 degrees of LRV or more between adjacent materials.
- Both DSDC and BS8300:2009 recommend a difference of 30 degrees of LRV between critical surfaces such as, floors to walls and doors to walls.
- Adjoining flooring should be tonally similar to reduce the risk of falls.
- Flooring LRVs should be within 10 steps of each other (less is better).
- Transition strips should match the tones of both surfaces with an ideal difference of 3 degrees of LRV step difference.
- Skirtings should contrast with both the wall and the door where possible.
DO’S

• Develop one continuous flooring surface
• Aim to reduce impact sound
• Avoid sensory overload
• Avoid sparkle
• Opt for matt finishes
• Provide good tonal transition between floors
DO – DARK FLOORS
0 – 10 LRV

Safestep Aqua | 2m | 180352 steel
Tessera | 50 x 50 cm | 2122 drench
QTR45 + QAB2 Transition strip | regency
DO – DARK FLOORS
0 – 10 LRV

LRV 43
LRV 77
LRV 97
LRV 10
LRV 10
LRV 10
LRV 15

Allura Flex Stone | s67419 Nero concrete
Sarlon Oak wood | 19dB | 438494 hazelnut
QTR45 + QAB2 Transition strip | peat
DO – MID TONE FLOORS
11 – 40 LRV

Westbond Natural | 50 x 50 cm | w12789U manx
Sarlon Oak XL | 19dB | 2m | 438420 clay
QTR42 + QAB2 Transition strip | fawn
DO – LIGHT FLOORS
41 – 60 LRV

Westbond Natural | 50 x 50 cm | w12797U honiton
Marmoleum Marbled | 2m | 3257 edelweiss
QTR42 + QAB2 Transition strip | ivory
DON’TS

• Don’t use patterned floors (sensory overload)
• Don’t use sparkly floors (perceived as a wet surface / slip risk)
• Don’t use flecked floors (try to pick up spots)
• Don’t use logos or brands (perceived as an obstacle)
• Don’t use any flooring with a high gloss or shiny finish (also perceived as being slippy)
• Don’t use aluminium or brass reflective trims or transitions (could cause a false step)
DON’T WALL AND FLOOR TOO CLOSE

Sarlon Oak Wood | 19dB | 438413 natural
Allura Flex Stone | 1508 white sand
QTR42 + QAB2 Transition strip | peat
DON’T
SHINY TRIM, FLOOR & WALL

LRV 55

Allura wood | w60074 black rustic oak
Allura safety | 74488 white sand
Transition strip | brass
DON’T (WITH ALUMINIUM TRIM)
DO (WITHOUT TRIM)

- LRV 43
- LRV 97
- LRV 97
- LRV 13
- ALUMINIUM
- LRV 13

Westbond natural | w12795U dorset
Allura flex | 9076 chocolate collage
Transition Strip | aluminium
DON’T

Tessera Layout | 2113 nougat
Marmoleum Marbled | 3872 volcanic ash
QTR45 + QAB2 Transition strip | black
SUMMARY – DO’S
SUMMARY – DON’TS
The Dementia Services Development centre at the University of Stirling has undertaken a review of this product and have rated its technical qualities in relation to dementia design principles and its usability within a dementia-inclusive environment. For ease of identification, the suitability of the product is classified by a number with corresponding explanation of use, within the key ratings provided.

The DSDC Accredited product logo is awarded on the merit of the individual product and colourway. This accreditation does not merit the final application. Whilst every endeavour has been made to ensure the ratings are reflective of the product’s suitability and applied use at the time of print, DSDC cannot be held responsible for the application of the final product, its performance or its interface with other products or finishes. For an environment to be considered ‘dementia-inclusive’ or ‘dementia-friendly, careful consideration must be given to the specification of adjoining finishes, their performance specification, for example, light reflectance value (LRV), slip resistance and use of pattern, and their suitability for their intended use.

</thead>
<tbody>
<tr>
<td><strong>Rating</strong></td>
<td><strong>Rating Description</strong></td>
</tr>
</tbody>
</table>
| **Class 1a** | Flooring within this rating is plain and can be used indiscriminately. That said, bear in mind the need to contrast flooring and walls, skirtings, doors / frames, furniture and sanitary ware.  
Contrast is the key word.  
We recommend a minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above. |
| **Class 1b** | Flooring within this rating is semi-plain (minimal texture or fleck / pattern, wood effect with no knots) and in general, can be used throughout.  
Natural patterns such as timber and stone may be used in most areas due to their familiarity but with a degree of caution.  
Bear in mind minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above. |
| **Class 2** | Flooring within this rating has some pattern and needs to be used with caution. The natural patterns such as timber and stone in this range are more figured / patinated and although still familiar they need to be used with more caution than the above range.  
Bear in mind minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above. |

To find Forbo approved DSDC products visit:  
[www.forbo-flooring.co.uk/productfinder](http://www.forbo-flooring.co.uk/productfinder)
Our in-house design team at Forbo can help bring your ideas to life with their free Bespoke Design Service. Whether you are taking inspiration from one particular DSDC approved product which needs to be carried through the plan, or whether you simply need to see your scheme in the flesh, we can create plan boards of your design complete with product samples.

For areas that have specific requirements such as safety flooring or acoustic flooring, our team can offer help and advice on dementia friendly products to meet your needs, all designed to work with your visualisation.

For more information please visit: www.forbo-flooring.co.uk/agedcare
This service independently assesses care setting design for people with dementia. DSDC auditors will visit the building and carry out a detailed audit of all areas used by people with dementia and rate the design of a building against evidence-based research on dementia-friendly design.

The audit award categories are Gold, Silver, Bronze and Highly Commended.

The auditors’ report will provide feedback on areas of design and how they rate. If the building receives a rating of Gold, Silver, Bronze or Highly Commended you will receive a certificate from the University of Stirling, Dementia Services Development Centre that can be displayed for 3 years to recognise accreditation.

For more information please visit www.dementia.stir.ac.uk
Forbo Flooring Systems is part of the Forbo Group, a global leader in flooring and movement systems, and offers a full range of flooring products for commercial and affordable housing and new build markets. High quality linoleum, vinyl, textile, flocked and entrance flooring products combine functionality, colour and design, offering total flooring solutions for any environment.
