

TESSERA IN-TOUCH

FLOWING, FLEXIBLE FLOOR DESIGNS

Tessera In-touch carpet tile planks offer a beautiful hand-woven/craft aesthetic with rich luxurious texture.

The colour concept is composed of five 'pairs' giving ten references in total with each reference offering colour hues that diffuse along the width of the plank. In each 'pair', three of the yarn colours are common and the fourth differs. This relationship of colour and design ensures the paired colours flow easily into each other when they are installed together, and also work equally as well when used on their own.

This concept enables a tonal or contrasting colour flow across the floor and can help you create stunning and relaxing interior spaces without the need for elaborate and complicated space planning.

Below are just some examples of the variety of floor designs that can be created with Tessera In-touch but as it's so flexible, we're sure you'll be able to design a few more.

3300 | watercolour + 3301 | fresco

herringbone

Tessera In-touch 3304 | collage + 3302 | scribe

herringbone

Tessera In-touch 3304 | collage + 3305 | origami

half drop

Tessera In-touch 3302 | scribe + 3303 | calligraphy + Tessera Layout 2112 | frosting

half drop
