

Just imagine a floor covering that is made from natural materials, from plants and trees that grow and renew, often in a period of just 12 months...
With Marmoleum, this is exactly what happens.

Linseed oil from the seeds of the flax plant, fibres from jute stems, rosin from pine trees and upcycled wood residues from controlled sustainable forestry as well as limestone and pigments, are the key materials from which Marmoleum is created.

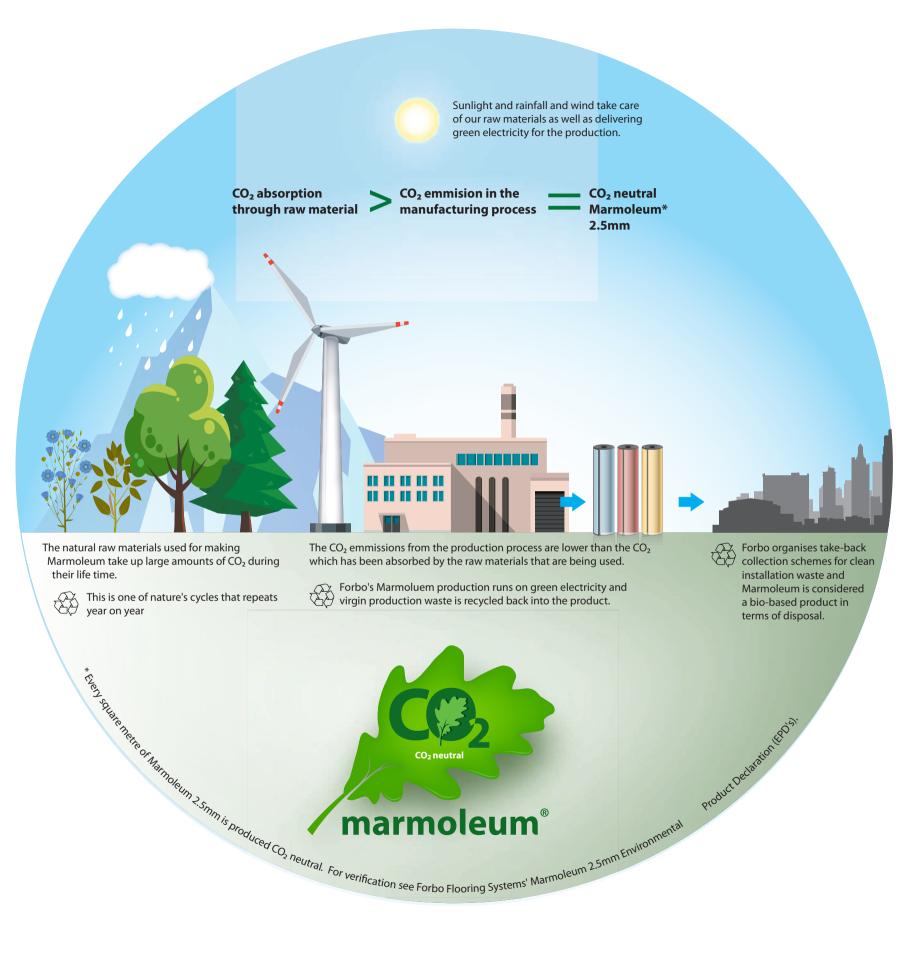

The result is a natural floor covering that is also strong, durable and sustainable.

Marmoleum is a unique offering in the world of resilient floor coverings.

In addition to being a natural product, our Marmoleum 2.5mm collection is the first Forbo product that can be truly described as being CO₂ neutral to produce. In simple terms, the CO₂ produced in the extraction, transportation and manufacturing processes of 2.5mm Marmoleum is balanced by the removal of CO₂ through the growing of natural ingredients such as flax, jute and pine trees.

All our other Marmoleum ranges benefit from the sustainable raw materials that make up Marmoleum and as a result, Marmoleum 2.0mm has seen its global warming potential in the production phase of its lifecycle reduce by 25% since 2012.

Our claims can be verified in the Marmoleum (2.0 and 2.5 mm sheet) Environmental Product Declarations (EPD's) which are third party verified.

A special environmental bonus.....

At Forbo we care about creating better environments. Our aim is to deliver products that are good for your health and good for people in all respects.

We create safe, hygienic and beautiful floors that complement the quality and comfort of your indoor environment.

This Marmoleum
Marbled sample book
represents a walk
through nature. Each
page reflects a range
of colour blends and
textures that are
present in our natural
environment. They
evoke moods and
visual landscapes
that share the colours
and structures of
Marmoleum.

RIVERS AND CLIMB MOUNTAINS.

Inspired by the great outdoors in autumn. Rich natural hues with exciting combinations.

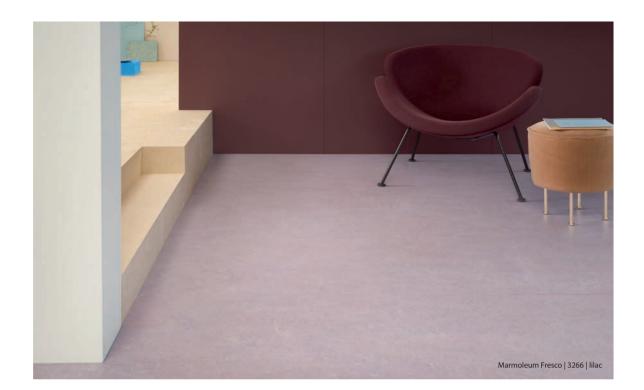

FOLLOWA ROCKY SHORE LINE...

Cool, calming blues and intriguing greys, influenced by the sea in all its moods.

WANDER THROUGH WARM SCENTED FIELDS...

Take time out and find serenity with these rich, warm and relaxed tones.

A DENSE FOREST...

In touch with nature, beautifully fresh, lush and full of life.

SUN DRENCHED VALLEY...

Colours to excite and transport you to a rich landscape of warmth and texture.

SEARCHFOR WILD SUMMER FRUITS...

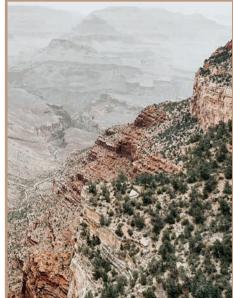

Marmoleum Splash | 3432 | fruit punch

Sumptuous and ripe, colours that are just asking to be picked.

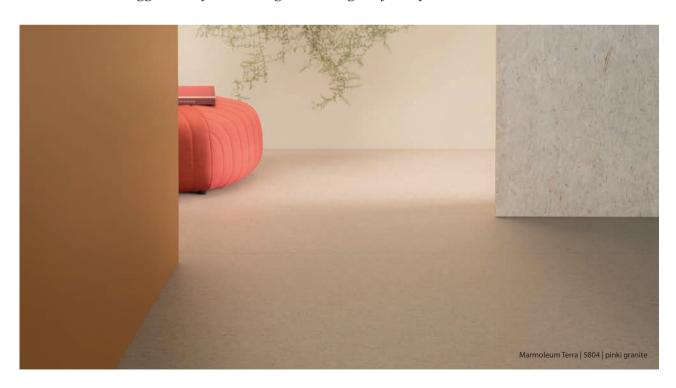

SCRAMBLE UP A RUGGED HILLSIDE

Rugged earthy tones, designed to bring out your spirit of adventure.

Feel-good colours that bring light and softness, like a breath of fresh air.

PICNIC IN A FIELD OF WHEAT...

Defining Pure Spaces

Marmoleum Solid is a contemporary collection that fits perfectly with the desire for more solid visuals and raw tactility. With its variety of plain to semi-plain aesthetics, it provides a large choice of honest designs that give the collection a strong and modern identity. Solid has been designed to combine beautifully with other natural materials such as wood, glass and metal. For more deatails visit: www.forbo-flooring.co.uk/marmoleumsolid

Cocoa

The Reddot and iF Design Award winning Marmoleum Cocoa collection embraces our ethos of sustainable design and is a truly environment-friendly addition to the Solid collection. By adding upcycled cocoa shells to the traditional Marmoleum ingredients, we have created an innovation in texture, aesthetics and circular design. The result is an exciting surface texture that is both natural looking and contemporary in feel.

Slate

Inspired by the natural texture of stone, Marmoleum Slate introduces a unique embossed surface that adds a new dimension to our Marmoleum flooring. The result is a surface that has the timeless aesthetic of stone with the warmth and purity of linoleum.

Our Marmoleum Linear sheet range presents exciting linear floor designs in both warm neutrals and outspoken bright colours. The organic linear pattern gives your floor a natural, homely feel. Visit our website for more details: www.forbo-flooring.co.uk/marmoleumlinear

The Linear Striato Textura designs add a new tactile dimension to Marmoleum. The close-to-nature embossing found on Striato Textura creates a vibrant floor that plays with the subtle shadows of ambient light, emphasising the natural surface of Marmoleum.

marmoleum® modular

Marmoleum Modular

Create your own floor! Our Marmoleum Modular collection presents sustainable linoleum tiles in various sizes and designs that allow you to create stunning floors according to your taste and space. Our Marmoleum Modular tiles and planks combine modern design with outstanding functionality. A distinctively contemporary flooring solution, even for high traffic areas. As with sheet Marmoleum, these tiles and planks offer a healthy indoor climate and a responsible use of the planet's natural resources.

The colours are available in patterns of wood, concrete, stone and marble. They incorporate three vibrant embossed designs that change subtly when viewed from different angles. For more details, please visit

www.forbo-flooring.co.uk/marmoleummodular

furniture linoleum

Furniture Linoleum

Furniture Linoleum is a unique surfacing material for furniture such as desks, stools, cabinets, doors and display units. It is renowned for its elegance and durability and, being made of natural ingredients, it is a sustainable surface choice.

The unique aesthetic and tactile properties ensure that every object develops its own character. The combination of a matt surface and a warm, soft texture guarantees interior furniture with a truly distinctive, individual look & feel. For more details, please visit www.forbo-flooring.co.uk/furniturelinoleum

bulletin board®

Pinboard Linoleum

Our Bulletin Board linoleum offers a practical, simple solution for collecting and exchanging thoughts and ideas - wherever people plan, create and meet. Bulletin Board is an all-natural material that can be applied in framed or mounted pin boards or directly to the wall. Its surface is tactile and colourful, creating a decorative element in your space. For more details, please visit www.forbo-flooring.co.uk/bulletinboard

Designing with marmoleum

Aquajet

Are you looking for something unique? Our Aquajet technique allows us to cut the most detailed and beautiful design inlays into your floor. You can have your own branding, or any other design of your choice created specifically for your installation. Explore the wide range of possibilities on our website at www.forbo-flooring.co.uk/designingwithmarmoleum

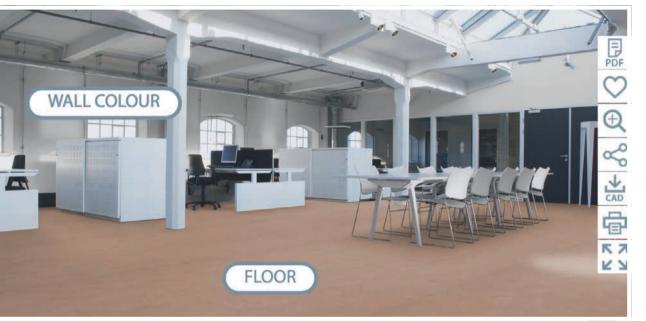

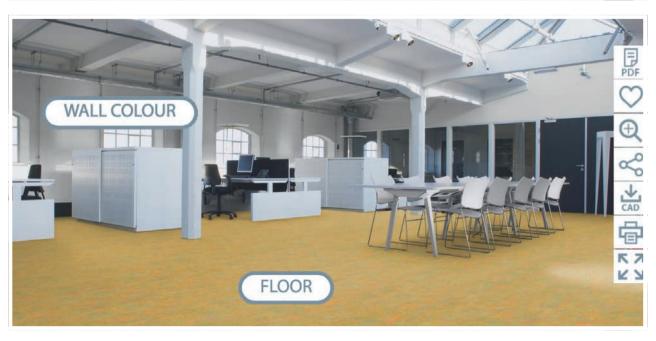

Forbo Room Planner

One of the most popular areas on our website is our Room Planner. It allows you to view how your chosen floor covering might look in a variety of environments, for example an office, school, hotel or residential setting. Mix and match different floor colours in different interiors to get an impression of what your floor will look like in situ. To explore and create please visit www.forbo-flooring.co.uk/roomplanner.

- There are matching welding rods available for every Marmoleum design. The best matching welding rod has been selected in either uni (UNI) or multi coloured (MC) structure.
- Matching wall skirting or coving solutions are available for all Marmoleum colours.
- A 2.0 mm natural Corkment underlay can be used with regular 2.5 mm Marmoleum to reduce impact sound by 14 dB.
- All Marmoleum colours are available in reaction to fire classification Bfl-s1, G, CS. This Marmoleum FR variant is available on request and minimum order quantities and lead times apply. Please contact your local sales manager for more information.
- Pre-cuts sized 61 x 61 cm of all Marmoleum colours can be made for raised floor manufacturers. These are available on request and minimum order quantities and lead times apply. Please contact your local sales manager for more information.
