

Forbo LEED v4.1 Compliance Sheet

Coral Duo

Product Description: Forbo Coral Duo entrance flooring incorporates alternating strips of scraping Coral Brush yarns and moisture absorbing Coral Classic yarns, which are reinforced with tough resilient monofilament fibers. These yarns are 100% polyamide, with 75% made from Econyl regenerated solution dyed polyamide. The Coral Brush strips are composed of capillary, active scraping, and heavy-duty textured yarns. The Coral Classic strips are composed of thin solution dyed yarns, thick monofilament yarns. The innovative EVERFORT vinyl backing is a solid vinyl, which is flexible, strong, and heavy in weight. It lays flat, making installation easier. It is impervious to water, making it suitable for intensive wet cleaning.

Sustainable Attributes: By stopping up to 95% of walked in dirt and moisture, Coral entrance floors can prolong the life of the whole flooring system as well as greatly reduce cleaning costs and the risk for slipping. 75% of Coral Duo yarn is Regenerated Econyl Nylon. Coral Duo is phthalate free and is manufactured with 100% renewable energy.
