## Tessera collection

### LRV & DSDC product accreditation

Design	Colour number	Colour name	LRV Y (BS8493)	DSDC Rating*	DSDC Comments*
Perspective	3900	sensory	9	2	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway.
	3901	esprit	14	2	
	3902	fantasy	2	2	Rated 2 due to prominent criss-cross pattern created with contrasting lighter tone on dark background. Note: Use with caution due to low LRV which can be perceived as a hole or something to be avoided by some people with dementia. This can cause hesitation which can result in trips & falls. Furthermore, it can be challenging to work with very low LRVs to ensure abutting floor finishes are within 10 LRV. For example, bedroom to ensuite transition or corridor to communal toilet transition.
	3903	illusion	5	2	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway. Note: Use with caution due to low LRV
	3904	mirage	15	2	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway.
	3905	ethereal	16	2	
	3906	lyrical	8	2	
	3907	melodious	11	2	
	3908	vivacious	6	x	Rated unsuitable due to contrasting colour against dark background resulting in a very strong criss-cross pattern which could potentially be visually overstimulating for some people with dementia.
	3909	aura	12	2	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway.
	3910	rhapsody	4	2	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway. Note: Use with caution due to low LRV
	3911	zestful	8	2	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway.
	3912	mystique	4	2	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway. Note: Use with caution due to low LRV
	3913	iridescent	3	2

	<b>2016-074 FORBO FLOORING</b>	
	<b>DSDC RATING KEY</b>	
	<b>NOV-16</b>	
<b>*RATING</b>	<b>*RATING DESCRIPTION</b>	
<b>Class 1a</b>	<p>Flooring within this rating is plain and can be used indiscriminately. That said, bear in mind the need to contrast flooring and walls, skirtings, doors/frames, furniture and sanitary ware.</p> <p>Contrast is the key word.</p> <p>We recommend a minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above.</p>	
<b>Class 1b</b>	<p>Flooring within this rating is semi-plain (minimal texture or fleck/pattern, wood effect with no knots) and in general, can be used throughout.</p> <p>Natural patterns such as timber and stone may be used in most areas due to their familiarity but with a degree of caution.</p> <p>Bear in mind minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above.</p>	
<b>Class 2</b>	<p>Flooring within this rating has some pattern and needs to be used with caution. The natural patterns such as timber and stone in this range are more figured/patinated and although still familiar they need to be used with more caution than the above range.</p> <p>Bear in mind minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above.</p>	

For an environment to be considered 'dementia-inclusive' or 'dementia-friendly', careful consideration must be given to the entire specification, not just the flooring.

As with many design features, individual needs and preferences should also be considered. What is fine for one person, may not be the case for another.

For more information and to download our 'Designing for dementia care' brochure visit [www.forbo-flooring.co.uk/care](http://www.forbo-flooring.co.uk/care)
