1.3 Product Description:

Forbo Heavy Duty Cleaner is a general-purpose cleaner used when a neutral pH cleaner is not removing soil from the floor. It is suitable for floors where high pH cleaners cannot be used, such as preparing a floor for restoration care, such as removing soil for finish application.

1.4 Recommended for Use With:

Marmoleum
Colorex
Eternal
Sphera
Allura

1.5 Physical Characteristics:

Odor ----- Mild Solvent
Color ----- Green
pH ----- 8.0 – 9.0
VOC Content ----- 10.93% by weight
Unit Size ----- 1 quart (0.946 L)
Dilution ----- 4 oz. per gallon
Spread Rate ----- 32 gallons of cleaner
Shelf Life ----- 2 years in unopened container
Storage ----- Keep from Freezing
Disposal ----- Follow all local regulations

2. APPLICATION RECOMMENDATIONS

Forbo Heavy Duty Cleaner should never be used undiluted. Remove all surface debris by dust mopping, sweeping or vacuuming. Dilute Forbo Heavy Duty Cleaner at 4 oz. per gallon of unheated tap water. Apply the cleaning solution to the floor and allow 5 – 10 minutes of dwell time. Scrub the floor with either a 175 RPM floor machine or automatic scrubber using either a 3M Cleaning Pad #5100 or equivalent. For heavier soil loads or to remove adhesive residue, use a 3M Topline Pad #5000 or equivalent, but this pad is NOT to be used regularly in place of the 3M Cleaning Pad #5100. Additional dwell time may be necessary for heavily soiled floors. It is recommended to double scrub heavily soiled floors when using an automatic scrubber. Pick up the cleaning solution with a wet/dry vacuum or an automatic scrubber. Rinse the entire surface with a clean mop using clean, cool water. Pick up the rinse water with a wet/dry vacuum or an automatic scrubber. Allow the floor to dry completely before allowing traffic.

3. ADDITIONAL INFORMATION

See Forbo's Floor Care Guidelines specifically created for each Forbo product for more detailed recommendations when using Forbo Heavy Duty Cleaner.
