THIS IS OUR WORLD

An impressive and functioning interior starts from the floor up

At Forbo, we're passionate about Flooring. We produce the largest range of sustainable floor coverings in the world and supply total solutions for every area in every type of building.

This single source solution overcomes the need for multiple supplier visits and ensures total accountability across the project, giving you peace of mind. Also, as Forbo Flooring Systems has been awarded a place on a Crown Commercial Services framework agreement for floor coverings, you can be confident that we can also save you valuable time and money.

We like to think that the floor coverings we create provide an inspirational basis for interior design. We aim at helping to build brands and create lasting impressions. With Forbo you get more than a floor.

In the development of our Allura collections we continuously work to increase the sustainability of our portfolio. And through it all, we use life cycle assessments (LCAs) to guide our journey, ensuring we make the right decisions continuously on our products and contribute to a circular economy. And we always make sure that our Environmental Product Declarations (EPDs) are third-party certified – that way we can ensure full transparency.

THE PILLARS OF OUR AMBITION

TRANSPARENCY

Transparency is the foundation for making the right circular choices. With life cycle assessments as our constant guide in doing right, we continue to lead the industry towards new environmental standards.

CIRCULARITY

True circularity is to go all the way around. We think circular in everything we do. We work on creating products that keep the end in mind – and do this throughout our design process and choice of materials.

RENEWABILITY

Renewable materials are an important part of a fully circular future. We want to be the trusted partner for fully circular flooring solutions made with renewable raw materials. We know that the recycling of flooring is important. And we know that it is crucial to achieve carbon neutrality.

GOING ROUND, MOVING FORWARD

Sustainable solutions

Many of the flooring systems and building materials used today have an impact on the planet. The right flooring can help lower emissions and reduce waste – that's why we want to contribute with more sustainable solutions.

1. PRODUCT DEVELOPMENT AND DESIGN

Product design with circularity and users in mind

We develop and design flooring solutions to create value during use and after, keeping both the environment and users in mind. Our focus is on designing flooring with renewable and recycled materials. This enables us to deliver products that help take care of both the environment and you. We aim to create easy-removal solutions that are eco- and human-safe in all product categories while contributing to recycling schemes worldwide. That means you get products that are easy to install and remove - enabling a smooth recycling process.

MOST FLOORING ONLY HAS ONE LIFETIME - OURS HAS A FEW MORE

2. SOURCING AND RAW MATERIALS

Maximizing the use of sustainable & renewable flooring materials

To make sure our products are completely sustainable, we set ourselves the highest standards when it comes to sourcing and materials. Our products are third-party verified with environmental declarations such as LCAs, EPDs and HPDs. We aim to only use 100% harmless and traceable raw materials and increase the amount of fully bio-based products sold. That means you get products that are completely toxin- and phthalate-free and sourced from natural raw materials to work with, not against, the environment.

GOING ROUND WITH TRANSPARENCY FROM CRADLE TO CRADLE STARTS WITH DECLARING OUR ENVIRONMENTAL AND HEALTH IMPACT

3. PRODUCTION & DISTRIBUTION

Carbon-neutral and zero-waste production

We don't just aim to only use sustainable materials for our products. We also aim to make our products as sustainable as possible. That's why we are working towards a zero-waste production cycle and products made using as much recycled material as possible. We make flooring solutions that are as green as possible from design to end-of-life and are produced using 100% green energy, where available. This is how we produce products that are truly CO2 neutral without the need for offsetting.

TOO MANY FLOORS COME WITH A CARBON FOOTPRINT - WE AIM TO MAKE FLOORS WITHOUT LEAVING A TRACE

4. LONG LASTING & EASY TO MAINTAIN

Highly durable and fit-for-purpose solutions

Sustainability and longevity go hand in hand - the less energy we spend creating, installing, removing, repairing and recycling products, the less energy we use overall. That is why our flooring solutions are made to withstand stressful environments in addition to being easy to clean, thereby significantly reducing your cleaning costs. We also offer short-term solutions that can be used over and over again.

TO TRULY GO ROUND, WE OFFER A WIDE CHOICE OF FLOORS THAT ARE DESIGNED WITH A PURPOSE

5. RECYCLING & END OF LIFE

Recreating value at the end

To become truly sustainable, we need to close the loop. We do that by continuously improving our modular offerings and finding ways to recycle them at their end of life and working with local recycling schemes. We also design floors that are made of recycled materials, so your old floors can be repurposed today - and tomorrow. We aim to ensure flooring materials are fully recyclable and help drive the implementation of economically viable take-back schemes since not all materials can be infinitely recycled. That means you get products with up to 25% recycled from sources such as fishnets and post-consumer waste.

TO LAY THE FOUNDATION FOR A BETTER FUTURE - WE NEED TO DESIGN RECYCLED MATERIALS INTO OUR FLOORS

For more information please visit www.forbo-flooring.com/sustainability

RELIABLE LOGISTICS ACROSS THE WORLD

Our logistics

In our world we are recognised as a trusted partner. Our global logistics network and co-operation with flooring installers all over the world ensures your job gets done when you ask for it, on time, quickly and to your satisfaction.

ENTRANCE FLOORING SYSTEMS

nuway®

A collection of rigid entrance systems for entrances with very heavy or intense traffic.

coral®

A collection of textile clean-off products for entrances with heavy traffic.

CARPET TILES

tessera®

Tessera offers stylish, sustainable and hardwearing carpet tiles in various pile constructions, shapes and textures, delivering specific performance and aesthetic benefits.

PORTFOLIO

Designer collections and bespoke design

We offer bespoke design across our portfolio to create a truly unique focal point in addition to unique designer collections.

RESILIENT FLOORING

marmoleum®

Forbo's linoleum brand – natural, sustainable, durable, high quality and innovative in colour and design. Available in sheet, tile and plank format.

Project vinyl

A vinyl portfolio offering flooring solutions that encompass general purpose, safety, acoustic, static control, LVT design tiles and wetroom solutions.

FLOCKED FLOORING

flotex®

A flocked floor covering that looks and feels like a carpet without any of the drawbacks of a textile floor covering.

ANYWHERE, ANY PLACE

Our products

We pride ourselves on offering a truly comprehensive product portfolio with leading edge products specifically designed to cater for each area of a project, from the entrance through circulation and communal zones, to each individual space in a building. The following pages showcase our offer.

PRIMARY BARRIER MATTING SOLUTIONS

MAKE AN ENTRANCE WITH NUWAY

Nuway primary barrier mats are Forbo's most robust entrance flooring solution, with products suitable for environments that welcome up to 100,000 visitors per day.

With products suitable for external and internal entrances, heavy load environments and also a sustainable Bamboo option, we have a solution for every entrance requirement.

NUWAY COLLECTION AT A GLANCE

Choose the right Nuway Primary Barrier Matting for your building

To help identify which of our Nuway products is most suitable for your project, we have broken down our full collection into an easy, two page guide.

What makes Nuway Tuftiguard products so unique?

As market leader for over 40 years, Nuway Tuftiguard is a name synonymous with quality and customer satisfaction. Here we explain what makes Nuway Tuftiguard the leader of the pack.

Nuway Internal Products

There are 7 different Nuway products suitable for internal application, each offering their own unique benefits.

Nuway External Products

With 4 different Nuway products suitable for external application, there is sure to be a solution for your entrance requirements.

CHOOSE THE RIGHT NUWAY PRIMARY BARRIER MATTING FOR YOUR BUILDING

This guide helps to give you an understanding of the differences between our Nuway products and where they can be used.

FOR EXTERNAL ENTRANCES

nuway® tuftguard external

- For best in class exterior performance**
- **Single or double sided:** Double
 - **Guarantee:** 10 years
 - **Scraper bar:** Aluminium, black, gold, sand and bronze scraper bars
 - **Available with open or closed construction:** Both
 - **Inserts:** Plain unbuffered rubber
 - **Suitable for:** Busy office, retail, healthcare or education environments

nuway® tuftguard heavy duty external

- For the busiest and most tested of environments**
- **Single or double sided:** Double
 - **Guarantee:** 10 years
 - **Scraper bar:** Aluminium
 - **Available with open or closed construction:** Closed
 - **Inserts:** Plain unbuffered rubber
 - **Suitable for:** Extremely high footfall and extreme load environments such as stadiums, airports or car showrooms

nuway® grid external

- The ideal solution for heavy traffic areas where aesthetics are still important**
- **Single or double sided:** Single
 - **Guarantee:** 5 years
 - **Scraper bar:** Low lustre aluminium
 - **Available with open or closed construction:** Closed
 - **Inserts:** Ultragrip rubber insert
 - **Suitable for:** Office, retail, healthcare and education environments or smaller entrances

nuway® connect external

- A single sided mat with customisable inserts**
- **Single or double sided:** Single
 - **Guarantee:** 5 years
 - **Scraper bar:** Low lustre aluminium
 - **Available with open or closed construction:** Both
 - **Inserts:** Ultragrip rubber or 4-row bristle inserts individually or combined
 - **Suitable for:** Office, retail, healthcare and education environments or smaller entrances

FOR INTERNAL ENTRANCES

nuway® tuftguard

- The market leading primary barrier mat for over 40 years**
- **Single or double sided:** Double
 - **Guarantee:** 10 years
 - **Scraper bar:** Aluminium
 - **Available with open or closed construction:** Both
 - **Inserts:** Available with the choice of grey, charcoal or plain rubber inserts
 - **Suitable for:** Busy office, retail, healthcare or education environments

nuway® tuftguard anodised colours

- Where design meets quality**
- **Single or double sided:** Double
 - **Guarantee:** 10 years
 - **Scraper bar:** Available with black, gold, sand and bronze scraper bars
 - **Available with open or closed construction:** Both
 - **Inserts:** Available with the choice of grey, charcoal or plain rubber inserts
 - **Suitable for:** Busy office, retail, healthcare or education environments

nuway® tuftguard bamboo

- The sustainable primary barrier matting solution**
- **Single or double sided:** Double
 - **Guarantee:** 5 years
 - **Scraper bar:** Bamboo
 - **Available with open or closed construction:** Closed
 - **Inserts:** Available with the choice of grey, charcoal or plain rubber inserts
 - **Suitable for:** Busy office, retail, healthcare or education environments
 - **Suitable for use in dementia friendly design**

nuway® tuftguard heavy duty

- The best protection against intense footfall and heavy duty loads**
- **Single or double sided:** Double
 - **Guarantee:** 10 years
 - **Scraper bar:** Aluminium
 - **Available with open or closed construction:** Closed
 - **Inserts:** Available with the choice of grey, charcoal or plain rubber inserts
 - **Suitable for:** Extremely high footfall and extreme load environments such as stadiums, airports or car showrooms

nuway® grid

- The contemporary alternative to Tuftguard**
- **Single or double sided:** Single
 - **Guarantee:** 5 years
 - **Scraper bar:** Low lustre aluminium
 - **Available with open or closed construction:** Closed
 - **Inserts:** Available with a choice of Burford or 5 Coral Classic and 5 Coral Brush inserts in a selection of colours

- Stylish. Affordable. Design.**
- **Single or double sided:** Single
 - **Guarantee:** 5 years
 - **Scraper bar:** Low lustre aluminium / Black anodised aluminium
 - **Available in closed construction:** Closed
 - **Inserts:** Available in 4 Coral Classic inserts
 - **Suitable for:** Office, retail, healthcare and education environments or smaller entrances

WHAT MAKES NUWAY PRODUCTS SO UNIQUE?

Having been a market leader in the primary barrier matting solutions market for over 40 years, Nuway is a product synonymous with quality and customer satisfaction.

But what is it that makes Nuway products so unique and so effective?

SUSTAINABILITY

Sustainable options

With sustainability being on the tip of everyone's tongue, Nuway Tuftiguard adapted to include a sustainable primary barrier matting solution in the form of Nuway Tuftiguard Bamboo.

Constructed using the same steel linkages and high quality rubber inserts as other Tuftiguard products, Nuway Tuftiguard Bamboo offers high quality performance with sustainable credentials.

MANUFACTURING

Handmade in the UK

All Nuway products are handmade at our UK factory in Telford, using the highest standard of materials. This means that quality is assured with any Nuway product.

MADE IN THE
UK

5 or 7 Days Manufacturing

For orders 20m² or less, the majority of our Nuway products can be manufactured within 5 working days. Certain products or constructions are manufactured within 7 working days.

5 DAYS
MANUFACTURING

CONSTRUCTION

High tensile steel linkages

Nuway Tuftiguard products are constructed using high tensile steel linkages which provide them with outstanding construction integrity. When we talk about a product being 'made to last', these steel linkages are at the core of what allows Tuftiguard mats to remain effective, even after 15 years of heavy use.

Double sided

All Nuway Tuftiguard mats are double sided, which means that throughout their lifecycle and as part of a regular cleaning regime, they can be removed from their matwell and turned over.

By essentially getting two mats for the price of one, it's easy to see how when cleaned correctly, Nuway Tuftiguard mats can still look as good as new after 10-15 years of use.

Heavy Duty option

The Nuway Tuftiguard Heavy Duty range's patented design delivers load bearing capacity up to 900kg/cm² together with a level surface that makes it ideal for heavy wheeled traffic.

DOUBLE
DOUBLE

Nuway tuftiguard HD

NUWAY INTERNAL PRIMARY BARRIER MATTING SOLUTIONS

Nuway Tuftiguard internal

nuway® tuftiguard

Tuftiguard combines a classic aesthetic with leading performance by offering anodised aluminium scraper bars.

24

nuway® tuftiguard anodised colours

Our collection of anodised coloured aluminium scraper bars allows for unique designs to be created.

26

NUWAY INTERNAL COLLECTION AT A GLANCE

nuway® tuftiguard bamboo

Tuftiguard Bamboo provides the same leading performance attributes as Tuftiguard, yet with much more sustainable credentials.

28

nuway® tuftiguard heavy duty

The ideal matting solution for entrances with heavy duty loads and intense pedestrian and/or wheeled traffic.

30

nuway® grid

Nuway Grid offers a contemporary and cost effective alternative to Nuway Tuftiguard.

32

nuway® connect

Nuway Connect is a very versatile, roll-up, single sided entrance system that's easy to shape on site which makes it ideal for smaller, more awkward sized entrances.

34

**nuway® connect plus
black anodised | chevron**

Nuway Connect Plus offers the same construction and product benefits as Nuway Connect, but with a wider textile insert and reduced aluminum aesthetic.

36

	Double Sided	Scrapper bar options	Number of inserts available
			3

The market leading primary barrier mat for over 40 years.

- Tuftiguard combines a **classic aesthetic with leading performance by offering** anodised aluminium scraper bars
- Tuftiguard mats can sit in a matwell or can be used with ramp systems
- High tensile steel linkages give Nuway Tuftiguard **construction integrity**
- **Suitable for busy office, retail, healthcare or education environments**
- Tuftiguard is double sided and available in **open or closed construction** to suit the location of the mat and preferred cleaning regime
- Tuftiguard is available with **single wiper strips** or **double wiper strips** where extra moisture absorption is required or where the entrance is less than 3 metres deep
- Tuftiguard is available in a choice of depths to match most matwells

CONSIDERATIONS

BS8300-2:2018 Section 14.2 states that both natural and artificial sources of lighting should be designed to avoid creating glare, pools of bright light and strong shadows.

As with all aluminium matting systems of this type, in very brightly lit or illuminated areas, the strong contrast between light coloured aluminium scraper bars and dark wiper strips can sometimes create a strong visual contrast (and in extreme situations, a strobe effect) which should be prevented. To avoid disorientating pedestrians affected by this type of visual disturbance, consider using Bamboo or coloured anodised scraper bars with a less contrasting wiper strip.

NUWAY TUFTIGUARD IS AVAILABLE IN THE FOLLOWING CONSTRUCTIONS:

Open construction:

- ✓ Ideal for entrances which are susceptible to increased moisture
- ✓ Dirt and moisture will fall through to the matwell below and the mat can be removed for cleaning of both the mat and matwell intermittently

Closed construction:

- ✓ Ideal for internal applications
- ✓ Dirt and moisture will remain on the mat ready to be removed through regular cleaning
- ✓ This is the most common construction for Nuway entrance mats

Nuway Tuftiguard is available with an aluminium scraper bar and the following inserts:

Classic – Buffed Grey

Design – Charcoal

Plain rubber

PLEASE NOTE: Depending on your preference, Nuway Tuftiguard is available with single or double wiper strip inserts. This can be specified when placing your order.

Suitable for:	Busy office, retail, healthcare or education environments

Please note: Digital representations may vary from the actual product.

	Double Sided	Scrapper bar options	Number of inserts available
			3

The best protection against intense footfall and heavy duty loads.

- The ideal matting solution for entrances with **heavy duty loads and intense pedestrian and/or wheeled traffic**
- Patented aluminium scraper bar ensures it's the **strongest type of matting in the Nuway range**
- **Suitable for extremely high footfall and extreme load environments such as stadiums, airports or car showrooms**
- Tests have confirmed that **Tuftguard HD can withstand static loads of up to 900kg/cm²** compared with the maximum load of 200kg/cm² for standard Tuftguard mats
- Aluminium scraper bars have **special ridges which effectively remove dirt** while also being smooth enough for wheeled traffic to move easily

NUWAY TUFTGUARD HEAVY DUTY IS ONLY AVAILABLE IN A CLOSED CONSTRUCTION:

Closed construction:

- ✓ Ideal for internal applications
- ✓ Dirt and moisture will remain on the mat ready to be removed through regular cleaning
- ✓ This is the most common construction for Nuway entrance mats

Nuway Tuftguard Heavy Duty is available with the following inserts:

Inserts:	Classic buffed grey / Design option charcoal / Plain rubber
Suitable for:	Extremely high footfall and extreme load environments such as stadiums, airports or car showrooms

Please note: Digital representations may vary from the actual product.

	Single Sided	Scraper bar options 	Number of inserts available 12
---	---------------------	---	--

The contemporary alternative to Nuway Tuftguard.

- Nuway Grid offers a **contemporary and cost effective alternative** to Nuway Tuftguard
- Nuway Grid is an ideal solution for **heavy traffic entrance areas** where aesthetics are also important
- **Suitable for office, retail, healthcare and education environments or smaller entrances**
- Coral carrier sections can **allow colour co-ordinated entrance areas** to be created with primary and secondary entrance matting products
- Inserts include strips of textile inserts (for internal use only) in **11 different colourways** drawn from the Coral Classic, Coral Brush and Burford ranges

CONSIDERATIONS

BS8300-2:2018 Section 14.2 states that both natural and artificial sources of lighting should be designed to avoid creating glare, pools of bright light and strong shadows.

As with all aluminium matting systems of this type, in very brightly lit or illuminated areas, the strong contrast between light coloured aluminium scraper bars and dark wiper strips can sometimes create a strong visual contrast (and in extreme situations, a strobe effect) which should be prevented. To avoid disorientating pedestrians affected by this type of visual disturbance, consider using Bamboo or coloured anodised scraper bars with a less contrasting wiper strip.

NUWAY GRID IS ONLY AVAILABLE IN A CLOSED CONSTRUCTION:

Closed construction:

- ✓ Ideal for internal applications
- ✓ Dirt and moisture will remain on the mat ready to be removed through regular cleaning
- ✓ This is the most common construction for Nuway entrance mats

Nuway Grid is available with the following wiper strip inserts:

Coral Classic: The ultimate moisture absorber

Coral Brush: A good all-rounder that keeps out dirt and moisture

Ultragrip rubber: Offers improved underfoot comfort and moisture removal.

Burford textile: Standard textile insert for reduced traffic areas.

PLEASE NOTE: Ultragrip rubber can be used both internally and externally, depending on customer preference, however, all other inserts are intended for internal use only.

Nuway Grid product specification

Product name:	Nuway Grid
Single or double sided:	Single sided
Guarantee:	5 years

Suitable for:	Office, retail, healthcare and education environments or smaller entrances

Please note: Digital representations may vary from the actual product.

	Single Sided	Scraper bar options	Number of inserts available
			6

A highly versatile, roll-up, single sided mat with multiple inserts available.

- Nuway Connect is a very versatile, roll-up, single sided entrance system that's **easy to shape on site** which makes it **ideal for smaller, more awkward sized entrances**
- A choice of **5 Coral Classic** inserts allows colour co-ordination with matching Coral Classic used in the secondary matting zone
- **Suitable for office, retail, healthcare and education environments or smaller/awkward entrances**
- For areas where increased **dirt and moisture retention** is required, Ultragrip rubber and Bristle inserts are also available
- All three elements, Coral, Bristle and Ultragrip rubber, **can be mixed and matched** to create the precise entrance system to meet your needs

NUWAY CONNECT IS AVAILABLE IN THE FOLLOWING CONSTRUCTIONS:

Open construction:

- ✓ Ideal for entrances which are susceptible to increased moisture
- ✓ Dirt and moisture will fall through to the matwell below and the mat can be removed for cleaning of both the mat and matwell intermittently

Closed construction:

- ✓ Ideal for internal applications
- ✓ Dirt and moisture will remain on the mat ready to be removed through regular cleaning
- ✓ This is the most common construction for Nuway entrance mats

Nuway Connect is available with the following wiper strip inserts:

Coral Classic: The ultimate moisture absorber

4701 | anthracite 4730 | raven black 4794 | taupe 4740 | warm black

Ultragrip rubber: Offers improved underfoot comfort and moisture removal

Bristle: For removal of coarse dirt

PLEASE NOTE: Ultragrip rubber and Bristle can be used both internally and externally, depending on customer preference, however, Coral Classic inserts are intended for internal use only.

COMBINE MULTIPLE INSERTS TO SUIT YOUR NEEDS

Nuway Connect is the **only product within our Nuway collection** where you can **combine and alternate multiple inserts.**

For example, if an entrance was prone to both increased dirt and moisture, combining Ultragrip rubber and Bristle inserts would remove dirt and absorb moisture, whilst providing an enhanced underfoot comfort.

If you would like to combine multiple inserts in your Nuway Connect order, please specify this at the ordering stage.

Coral Classic

- For picking up moisture and fine dirt
- For interior use only (colours are shown above)

4-row bristle

- For removal of coarse dirt
- Can be used internally
- Suitable for exterior use when alternated with Ultragrip Rubber (see next stage)

Ultragrip rubber

- Ideal for multi-directional entrances
- Proven low slip risk
- For exterior and interior use

Nuway Connect product specification

nuway® connect plus nuway® connect plus black anodised

	Single Sided	Scrapper bar options 	Number of inserts available 4
---	---------------------	--	---

Stylish. Affordable. Design.

- Nuway Connect Plus offers the same construction and product benefits as Nuway Connect, but with a wider textile insert and reduced aluminium aesthetic
- A choice of 4 Coral Classic inserts allows colour co-ordination with matching Coral Classic used in the secondary matting zone
- **Suitable for office, retail, healthcare and education environments or smaller entrances**
- Thanks to the large textile insert and reduced aluminium aesthetic, Nuway Connect Plus lends itself to bespoke, logo mats
- Nuway Connect Plus is also available in a standard Chevron construction, with profiles cut to a 45 degree angle

NUWAY CONNECT PLUS IS ONLY AVAILABLE IN A CLOSED CONSTRUCTION:

Closed construction:

- ✓ Ideal for internal applications
- ✓ Dirt and moisture will remain on the mat ready to be removed through regular cleaning
- ✓ This is the most common construction for Nuway entrance mats

Nuway Connect Plus is available with the following wiper strips with either aluminium or black anodised profiles:

4701 | anthracite

4730 | raven black

4794 | taupe

4740 | warm black

nuway® connect plus chevron

Chevron mats offer the ultimate design aesthetic and can turn any entrance into a design statement.

With the growing demand for Chevron mats, we have made Nuway Connect Plus Chevron a standard design option at a fixed price.

It offers the same 4 Coral Classic inserts and aluminium options as Nuway Connect Plus, but with the profiles cut to a 45 degree angle.

Nuway Connect Plus product specification

Product name:	Nuway Connect Plus / Nuway Connect Plus Chevron
Single or double sided:	Single sided
Guarantee:	5 years

Suitable for:	Office, retail, healthcare and education environments or smaller entrances

Please note: Digital representations may vary from the actual product.

NUWAY EXTERNAL PRIMARY BARRIER MATTING SOLUTIONS

Nuway Tuftiguard external

NUWAY EXTERNAL COLLECTION AT A GLANCE

nuway® tuftiguard external

Tuftiguard External combines a classic aesthetic with leading performance.

nuway® tuftiguard heavy duty external

The ideal matting solution for entrances with heavy duty loads and intense pedestrian and/or wheeled traffic.

nuway® grid external

Nuway Grid external offers a contemporary and cost effective alternative to Nuway Tuftiguard external.

nuway® connect external

Nuway Connect is a very versatile rollup, single sided entrance system that's easy to shape on site which makes it ideal for smaller, more awkward sized entrances.

	Double Sided	 Scrapper bar options	 Number of inserts available 1
---	---------------------	--	--

For best in class exterior performance.

- Tuftguard External contains plain rubber wiper strips which provide enhanced underfoot comfort and dirt and moisture removal
- High tensile steel linkages give Tuftguard External increased **construction integrity**
- Tuftguard External is available in **open or closed construction** to suit the location of the mat and preferred cleaning regime
- **Suitable for busy office, retail, healthcare or education environments**
- Tuftguard is double sided and available with **single wiper strips** or **double wiper strips** where extra moisture absorption is required or where the entrance is less than 3 metres deep
- Tuftguard External mats can sit in a matwell or can be used with ramp systems
- **Please note:** To maintain a pristine visual appearance, some anodised coloured scrapper bars may require increased cleaning when exposed to increased dirt and moisture, that is common with external installations

NUWAY TUFTGUARD EXTERNAL IS AVAILABLE IN THE FOLLOWING CONSTRUCTIONS:

Open construction:

- ✓ Ideal for external entrances or areas which are susceptible to increased moisture
- ✓ Dirt and moisture will fall through to the matwell below and the mat can be removed for cleaning of both the mat and matwell intermittently

Closed construction:

- ✓ Dirt and moisture will remain on the mat ready to be removed through regular cleaning
- ✓ This is the most common construction for Nuway entrance mats

For the busiest and most tested of environments.

- The ideal matting solution for entrances with **heavy duty loads and intense pedestrian and/or wheeled traffic**
- Patented aluminium scraper bar ensures it's the **strongest type of matting in the Nuway range**
- **Suitable for extremely high footfall and extreme load environments such as stadiums, airports or car showrooms**
- Tests have confirmed that **Tuftguard HD can withstand static loads of up to 900kg/cm²** compared with the maximum load of 200kg/cm² for standard Tuftguard mats
- Aluminium scraper bars have **special ridges which effectively remove dirt** while also being smooth enough for wheeled traffic to move easily

Nuway Tuftguard Heavy Duty External

NUWAY TUFTGUARD HEAVY DUTY EXTERNAL IS ONLY AVAILABLE IN THE FOLLOWING COMBINATION:

Nuway Tuftguard Heavy Duty External with a double plain rubber wiper strip

- ✓ Offering ultimate performance with a traditional aesthetic.

Stop **dirt** in its tracks with Coral

When people enter your building, they carry unwanted guests on their shoes – muck and damp. But Coral entrance flooring stops them in their tracks. For example, over a 6 metre stretch of Coral flooring, up to 95% of walked in dirt and moisture is removed. Reduce your cleaning costs and keep your building looking good, let Coral stop those filthy gate crashers.

Only a well designed entrance flooring system can keep dirt in its tracks

That's why Coral:

 Moisture absorption scale: More blue means better moisture absorption

 Dirt scraping scale: More brown means better dirt scraping capabilities

1 **2** **3**
Suitable for which zone

 Available as sheet

 Available as tiles

 Available as matt

REDUCE YOUR FLOOR CLEANING COSTS BY 65%

A coral entrance system with a 3-step clean-off zone will cut your future maintenance costs by stopping up to 95% of walked in dirt and moisture from reaching your building floors. This reduces your building's floor cleaning costs by up to 65% and prolongs the life of your floors. The average maintenance cost of commercial floors is 86% of the total life cycle cost.

CORAL COLLECTION AT A GLANCE

coral® classic

Coral Classic will maintain its performance and appearance for years to come thanks to the use of solution dyed yarns that guarantee its appearance throughout its lifespan.

coral® grip

The robust and ultimate dirt and grit remover.

coral® brush

Coral Brush is suitable for all types of entrance areas, absorbing moisture and removing dry soiling as the weather demands.

coral® click

The first steps in protecting your building.

coral® duo

With its ribbed construction, Coral Duo is not only functional, but also gives an aesthetically pleasing look to any entrance. In larger entrances, Coral Duo combines well with our Coral Brush and Classic collections.

coral® logo

Make a lasting impression by creating your logo or bespoke design as an integral part of your entrance zone.

See Coral logo on page 342.

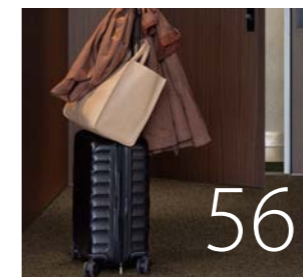

coral® luxe

With its luxurious appearance and rich pile height Coral Luxe is a highly efficient clean-off solution for light to medium traffic areas where aesthetic appeal is a top priority

coral® bright

If your budget is not unlimited and you still want a good entrance product, Coral Bright is a great solution for you! The bright and fresh colours of this nice collection will add some fun to your entrance.

coral[®] classic

The ultimate moisture absorber.

Research shows that taking just two steps on Coral Classic's moisture absorbing yarns is enough to absorb half of the foot-borne moisture that would otherwise be carried inside on the soles of people's shoes.

- Maximum moisture absorption and scrapes off dirt
- Made with ECONYL[®] 100% regenerated yarns
- Choice of attractive contemporary colours
- Maximum colour fastness
- Complies with the highest fire class standard: B_{fl}-s1
- Suitable for the heaviest commercial and light industrial use
- Ideal for inside entrance and circulation areas
- Produced with phthalate free technology

THE CORAL CLASSIC RANGE IS ALSO AVAILABLE IN TILE FORMAT FOR INCREASED FLEXIBILITY.

coral[®] grip

The robust dirt and grit remover

Want to know the secret to keeping your interior clean even when it looks like a hopeless cause? Don't start your entrance floor protection inside, start outside – by scraping off the largest soil particles before your visitors even cross the threshold. Coral Grip is a versatile, non-woven clean off barrier mat for outdoor and indoor use that comes in medium-duty (MD) and heavy-duty (HD) formats. Standard Coral Grip has an open, non-backed, pervious structure, though it can also be manufactured with an Everfort vinyl backing to make it impervious. And when the going is really tough, there's Coral Grip HD, whose patented embossed design and durable, pliable vinyl filaments ensure a highly effective dirt-scraping action.

- Contains granulates for maximum non-slip performance
- Cleans off the worst dirt before it can get inside
- Helps protect an inviting interior design street-side
- Suitable for the heaviest commercial use
- Ideal for outside and inside entrance
- Coral Grip with backing: complies with the highest fire class standard: B_{fl}-s1

“CORAL GRIP: SCRAPE OFF THE TOUGHEST DIRT BEFORE IT EVER ENTERS YOUR BUILDING.”

coral® click

The first steps in protecting your building.

Coral Click is an exceptionally versatile 'off the shelf' modular matting system that can be assembled on site. Coral Click can be used on its own or in conjunction with our Coral clean-off textile ranges to provide an integrated entrance system.

This versatile PVC tile with Coral textile inserts can be used in all types of buildings and, because it contains no metal components, Coral Click entrance products are particularly suitable for installation in retail environments as they do not interfere with electronic-tagging systems.

- 'Off the shelf' modular matting system
- Exceptionally easy to fit, handle and store
- Available in 12mm & 17mm depths
- Textile inserts from the award winning Coral Brush collection
- Coral Brush insert is produced using 100% Econyl® regenerated yarn
- Coral Entrance flooring systems removes up to 95% of dirt and moisture from shoes and wheeled traffic
- 5 year guarantee

marmoleum®

FORBO'S LINOLEUM BRAND

The Marmoleum collections provide the largest colour bank in resilient flooring, a beautiful array of structures and designs that connects the colors of the indoor space. Made from natural raw materials Marmoleum is the most sustainable resilient floor around.

Sheet Marmoleum

Forbo's sheet Marmoleum comprises 3 collections – Solid, Linear and Marbled.

marmoleum® solid

The four individual finishes provide the foundation for creating pure, distinctive and modern spaces. The Solid collection combines contemporary styling with a versatility that enables designers to design an elegant, natural backdrop to any interior.

marmoleum® linear

This Linear collection offers a relevant, functional and desirable range that allows you to create comfortable spaces with a natural touch where you truly feel at home. The directional Linear pattern can be used to create a floor that guides people from one space to another, and to indicate an area within a larger space.

marmoleum® marbled

Taking inspiration from the natural world, and offering a spectrum of over 90 colours across the Fresco, Real, Terra, Vivace and Splash ranges, the Marmoleum Marbled collection combines both subtle and striking marbled effects to create a range that provides the perfect backdrop for any commercial interior.

marmoleum®

ohmex | acoustic | decibel

(special acoustic and static dissipative varieties)

In addition to our standard ranges, we also offer a number of linoleum floor coverings developed to meet specific technical or comfort requirements, including static control and sound reduction.

marmoleum® sport

Floor coverings in sports and multipurpose halls have extensive requirements to meet. A sports floor with Marmoleum Sport as a top layer diminishes the risk of injuries, reduces the risk on muscle fatigue and overstraining. The top layer guarantees optimal performance in terms of anti-slip and glide.

marmoleum® modular

The Marmoleum Modular flooring collection is designed with creative freedom in mind. You can mix and match colours, textures and patterns for a personalised look. Whether you are looking for a bold statement or a subtle design, these natural linoleum design tiles and planks offer the perfect foundation for a beautiful and sustainable interior.

marmoleum® click

Our Marmoleum Click panels are very durable and simple to care for. The smooth surface is easy to clean while its beautiful colours won't fade over time. Marmoleum Click is available in 23 colours and 3 panel sizes, which offers great design opportunities to create your own unique floor.

furniture linoleum

Furniture Linoleum is a decorative surfacing material that can be applied to vertical, horizontal and curved surfaces, providing interior furniture with a truly distinctive and individual look.

bulletin board®

Pinboard linoleum, or Bulletin Board, offers a practical, simple solution to collect and exchange thoughts and ideas wherever people plan, create and meet. Simply share your thoughts by pinning your idea onto the wall.

STEP INTO MODERN NATURE

What happens when nature and technology merge and make each other stronger? Then Modern Nature arises. This is our answer to a more healthy, sustainable future.

We help to create better environments that add to the well-being of everyone and everything.

Marmoleum reconnects you with nature.
An endless source of inspiration and innovation.

Together with nature, we've designed floors that form the foundation of healthy spaces, where people can happily move, work, learn, heal, play and relax.

We invite you to create sustainable spaces that have a positive impact on everyone and everything.

marmoleum®

marmoleum®
climate positive
CRADLE TO GATE

marmoleum® WELL-BEING STARTS HERE

In a world where we spend on average 85% of our time indoors, it only feels natural to give full focus on improving the quality of our indoor environment. Every square meter of our schools, healthcare institutions, workplaces, leisure centres and living spaces creates an opportunity to bring the best from nature to our indoor surroundings. Our floors lie at the base of so many prominent places. Therefore, we made it our mission to design and offer products that contribute in a positive way to the health and comfort of the individual

by bringing nature in. Creating a seamless connection between our living spaces and the natural world.

Marmoleum contributes to each and everyone's well-being on many levels. From the natural materials we use to the colours we offer. Its tactility and beautiful colours influence all your senses. Marmoleum brings a touch of nature in our daily lives and reinforces our connection to the environment.

marmoleum® MADE FROM NATURAL RAW MATERIALS

WOOD FLOUR

After we add finely ground upcycled wood (wood flour) such as the branches, trunks, and roots of the trees harvested in the certified forestry industry.

LINSEED OIL

Linseed oil is pressed from the seeds of the flax plant, we use.

UPCYCLED MARMOLEUM

Upcycle of our Marmoleum as we take back old floors and grind them to new raw materials for new Marmoleum floors.

JUTE

The fibers from the jute plant are used for the jute mesh carrier on which linoleum is calandered.

PINE ROSIN

Rosin from pine trees which, together with the linseed oil, is heated and creates a linoleum paste.

COCOA HUSKS

We upcycle waste of the cocoa industry by adding cocoa husks to our marmoleum in the cocoa collection.

PIGMENTS

Pigments and natural iron oxide take care of the colouration of the granules.

LIMESTONE

The next element to be added to a linoleum paste mix is limestone to create linoleum granules.

Marmoleum is plastic free and does not contain any harmful ingredients. Already boasting best in class quality, but with up to 98% use of natural raw materials of which 70% rapidly renewable it is a true natural beauty. It is climate positive - cradle to gate, without compensation.

We are fully focused in closing the loop and making sure that our responsibility for our products doesn't stop the moment the material leaves the factory. Therefore we developed our back-to-the-floor program. It contains reusing factory waste, taking back installation waste and even taking back old floors. Join us in this program and contact your local sales contact for all details.

LINOLEUM

Circular ready

With the planet's resources vanishing quickly, it is of ever-growing importance to ensure a circular economy, where products are developed and manufactured to be recycled and reused for a new life and at the same time prevent and sequester carbon emissions.

Marmoleum is the perfect choice for those looking for a flooring option that is both beautiful and environmentally friendly.

Circular ready, reducing carbon footprint and increasing the use of post consumer recycled content, it can be used over and over again.

Long Lasting and highly durable thanks to the Topshield pro surface finish, the longer the floor can be used, the more circular it is.

Climate positive cradle to gate without offsetting. Produced with 100% green electricity.

DEALING WITH A FLOOR IN REAL LIFE

Marmoleum with Topshield pro is the ultimate flooring in many ways. The improved surface finish, developed with the latest technologies and based on our years of experience, keeps the appearance for longer and makes it smoother for easier cleaning. We can proudly say that Marmoleum is the best natural floor.

WHAT MAKES MARMOLEUM WITH TOPSHIELD PRO 3X BETTER

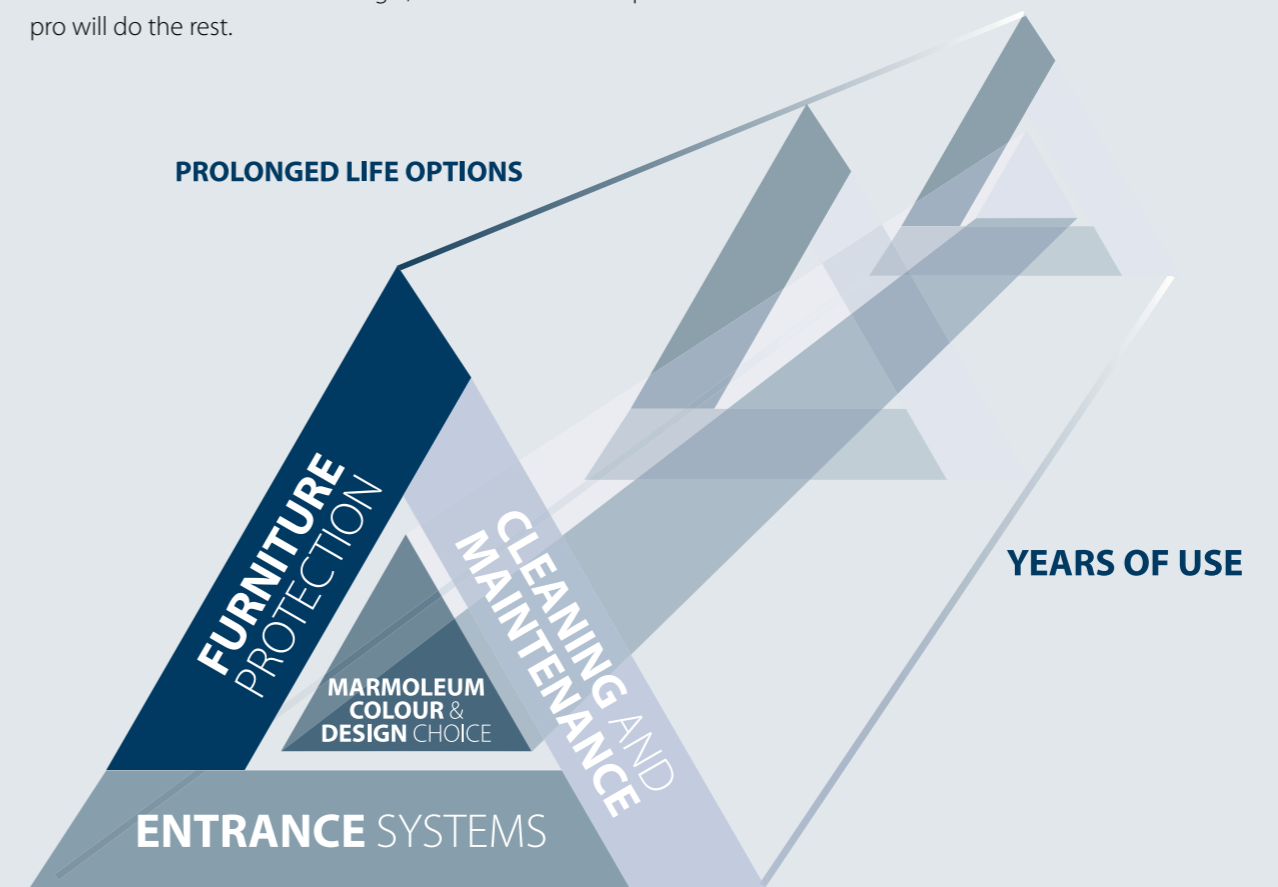

BETTER LASTING WEAR PERFORMANCE

BETTER STAIN RESISTANCE

BETTER CLEANING AND MAINTENANCE

BEAUTY KEPT FOR LONGER

While Marmoleum with Topshield pro is designed to keep its appearance, it's important to follow some simple guidelines that will help keep the beauty of your floor for longer. When you can consider all elements of the triangle, Marmoleum with Topshield pro will do the rest.

FURNITURE PROTECTION

ENTRANCE SYSTEMS

CLEANING AND MAINTENANCE

marmoleum® solid

walton

Presenting the pure character of linoleum. The solid identity of Marmoleum Walton with its smooth surface and minimal, unpretentious material expression makes it the ultimate & pure representative of our linoleum flooring. Its plain visual makes Walton easy adaptable to the context it is used in, and the subtle texture gives it a soft and natural look. The contemporary color palette presents both cool grey tones, warm earthy shades and rich classic shades.

marmoleum® solid

cocoa

Marmoleum Cocoa, innovation that comes naturally. Circularity and beauty are united in Marmoleum cocoa. The contemporary design, refined aesthetics and modern selection of colours make it a timeless floor that fits every where. It combines the liveliness of cocoa husks with the calmness of mineral tones. Marmoleum cocoa in total contains 43% combined recycled content derived from installation waste and uplifted flooring, but also internal recycling of production waste and other industry recycled materials like wood flour and cocoa husks. In this range, we aim to maximize the % of end-of-life recycled Marmoleum floors specifically.

marmoleum® solid concrete

The looks of a modern concrete floor with the warmth and naturalness of Marmoleum. The Marmoleum concrete design differentiates itself from the classic Marmoleum flooring with its subtle concrete structure. Adaptive and versatile to the latest trends while staying true to its nature. The collection contains four neutral concretes with a flash of colour that shimmers through the surface, ideal to make a matching combination with either a painted wall or a highlighting floor colour.

marmoleum® solid concrete

marmoleum® solid

concrete

These four special colours in the concrete range have colours popping out. This makes that they can be combined very well with other items out of the Marmoleum collection, especially from the colourbank of our Marbled range.

Marmoleum Fresco 3251 | lemon zest
Marmoleum Concrete 3733 | yellow shimmer

3733 | yellow shimmer LRV 42

3736 | green shimmer LRV 32

3763 | blue shimmer LRV 29

Marmoleum Concrete 3763 | blue shimmer

marmoleum® solid

piano

Piano is the Italian word for gently, plain, smooth or soft. In our Marmoleum Piano design a subtle soft fiber feel is combined with a plain background creating a semi-plain design. A tone in tone scattered design which, when installed, resembles a uni colour, but with incremental overtime visual retention.

marmoleum® linear

striato

Marmoleum Linear is designed to create a contemporary, comfortable environment with a warm and welcoming feel for informal, natural settings with a homely atmosphere. A setting where we will recover faster, feel encouraged to work, share ideas, and to learn. With an intuitive reference to nature, the Linear collection allows you to create various atmospheres within a space, adjusting to changing needs. The neutral, rich colours have the ability to easily adapt and come to life when combined with each other and other materials. With Linear, the floor can act as a canvas offering endless possibilities.

marmoleum® marbled

fresco | real | terra | vivace | splash

Fresco: a strong palette of tone in tone colors creating a fresh, delicate and balanced aesthetic with a soft contrast and a refined marbled structure.

Real: the 'royal' classic blend of carefully selected colors, developed to create choice and mixes of color ranging from warm neutrals to calm greys as well as exiting brights and fashion shades.

Terra: a new design with a close and highly contrasting structure inspired by ingenious rock types. It creates a sophisticated small scale marble with great soil hiding properties in an authentic color mix.

Vivace: Marmoleums' most liveliest and most outspoken blend made with six to eight colors to create a chameleon floor that adapts well to a multitude of interiors.

Splash: a modern playful design which from a distance appears a contemporary light grey solid floor with a slight nuance in tone, yet from up close surprising colors are peeking through, offering great combinations of interior elements.

It is the composition of ingredients that makes Marmoleum Sport so unique. It meets all the requirements of an ecologically superior product construction and combines a wealth of positive performance characteristics, the end result of the material composition as such.

Linseed oil obtained from the seeds of the flax plant is the main component of Marmoleum Sport. Together with natural rosin, limestone and wood flour the linoleum substrate is created, which is coloured by adding natural or nature-based colour pigments.

High level sports flooring performance

- Flexible and elastic
- Multi-purpose (in combination with the appropriate subfloor system)
- Slip resistant
- Durable
- Insensitive to friction heat
- Warm to touch
- Flame retardant
- Suitable for underfloor heating
- Cigarette burn resistant

MARMOLEUM MODULAR COLLECTION AT A GLANCE

marmoleum® modular | linear

Marmoleum Modular Linear planks feature a random linear visual and are designed to create a contemporary and comfortable environment with a warm and welcoming feel for informal, natural settings. The 100 x 25 cm plank size allows for surprising and creative floor patterns. The colour palette of 6 neutral, rich colours with an intuitive reference to nature is designed to blend effortlessly with various environments.

marmoleum® modular | neutral

The Marmoleum Modular Neutral flooring collection offers a selection of 15 basic, neutral colours ranging from cool grey shades to soft beiges and warm greys. The 50 x 50 cm natural linoleum design tiles can be used to create either a strong monolithic look or a dynamic light-dark contrast.

marmoleum® modular | accent

Designed around current colour trends, the Marmoleum Modular Accent flooring collection includes 9 vibrant, contemporary hues that can be used to define zones, highlight focal areas or add playful contrast. With colour gradients and tone-on-tone options, this range of 50 x 50 cm natural linoleum design tiles enhances design freedom and encourages mix-and-match creativity.

marmoleum® click

Our Marmoleum Click panels are very durable and simple to care for. The smooth surface is easy to clean while its beautiful colours won't fade over time. Marmoleum Click is available in 23 colours and 3 panel sizes, which offers great design opportunities to create your own unique floor.

PROJECT VINYL

Forbo Flooring Systems has been producing floor coverings for over 100 years and our project vinyl brands are well established in the world of flooring.

Our complete vinyl portfolio offers flooring solutions that encompass general purpose (both heterogeneous and homogeneous), safety, acoustic, adhesive free, static control, design tiles and wetroom solutions.

Produced and designed in Europe, Forbo's project vinyl ranges offer eye-catching designs with exceptional performance and a low maintenance, stain resistant finish.

allura®

Luxury vinyl tiles

Produced and designed in Europe, Allura is a versatile luxury vinyl tile (LVT) collection with products that suit a wide range of applications and functionalities including loose lay, click and safety options.

sphera®

General purpose homogeneous vinyl

Sphera is Forbo's homogeneous vinyl collection. Styled by our European design team and using the latest production technology. The Sphera collection also contains ESD options.

eternal®

Heterogeneous vinyl

Forbo's Eternal general purpose vinyl collection offers a superb combination of state-of-the-art designs in a strong, durable, fit-for-purpose range; suitable for any commercial interior. Create your own, truly individual floor with Forbo's bespoke digital printed vinyl.

modul'up® | sarlon®

Acoustic vinyl

Acoustic floors have an important contribution when it comes to reducing noise in buildings. Forbo Flooring is a specialist in acoustic floors with more than 30 years of experience. Our acoustic vinyl collection is available as Modul'up loose lay and Sarlon glued down with both 19dB and 15dB solutions.

PROJECT VINYL COLLECTION AT A GLANCE

step®

Safety vinyl

The Step collection combines highly differentiated aesthetics with outstanding slip resistant properties (with ratings from R10 to R12). In addition, our Surestep Decibel range offers a selection of 12 items with 17dB impact sound reduction, while the new Surestep Digital Print option takes safety flooring to the next dimension.

step® onyx+

Wetroom vinyl

Our Wetroom collection offers a variety of options suitable for use in barefoot and wetroom application areas, along with our Onyx+ range of complementary wall coverings.

colorex®

Static control flooring

For areas that require a more specialised type of flooring, such as electro static discharge (ESD) protected facilities and ISO standard Cleanrooms, Forbo has a range of Colorex products that meet the very highest standards. Colorex is the ideal static control flooring system for sectors such as electronics, pharmaceuticals, health, data centres and server rooms.

LUXURY VINYL TILES

allura® for life

Life is a play with many acts. And every act has its floor to perform on. Which is when the new Allura Luxury Vinyl Tiles collection shows off its ability to meet your creative demands and inspire. A flooring system that suits any scene imaginable. Allura is carefully designed to be flexible, easy to apply, durable and – vitally - give you the design freedom to bring any interior to life.

ALLURA COLLECTION AT A GLANCE

allura® dryback

Allura Dryback offers the largest choice in design, color, size and shape. From classic wood planks to modern concrete and terrazzo tiles. Combine maximum performance from a glued down LVT with great design possibilities with our Dryback ranges Allura Wood & Allura Material.

allura® decibel

Allura decibel combines excellent acoustic performance with outstanding design. It reduces impact sound by up to 19dB while maintaining an exceptionally low indentation - a unique combination for acoustic flooring.

allura® flex

Forbo Allura Flex LVT solves many of today's challenges through its tacked installation. Allura Flex offers a selection of natural wood designs, Allura Flex Wood, and a range of robust concretes and modern stones: Allura Flex Material.

enduro®

The contemporary wood and stone designs of Forbo's Enduro LVT collection offer numerous options for creating a homely atmosphere.

allura® click pro

Our new Allura Click LVT collection provides a clickable design solution for any area up to 1000 m². The 20 natural wood and stone designs allow for beautiful floor designs.

allura® puzzle

Our Allura Puzzle loose lay vinyl tiles have a unique puzzle shaped size of 96x96 cm and are specially designed for loose lay installation. The 12 wood and concrete designs form a well balanced palette that suit a wide range of applications.

allura[®]

for life

Life is a play with many acts. And every act has its floor to perform on. Which is when the new Allura Luxury Vinyl Tiles collection shows off its ability to meet your creative demands and inspire. A flooring system that suits any scene imaginable. Allura is carefully designed to be flexible, easy to apply, durable and – vitally - give you the design freedom to bring any interior to life.

This book is designed to inspire you. To make daring combinations. To conceive plans that have your signature. And to surprise you with strong and durable application solutions. The possibilities, with Allura, are endless.

All the designs here are available in Allura Dryback 0.70 and 0.55 and most as Allura Flex 1.0. A wide selection of designs is also available as Dryback 0.40, Allura Flex 0.55, Allura Click Pro and Allura Puzzle. This offers you the best choice - including circular economy requirements - all in one Allura concept.

Before diving into the designs, here's a quick overview of the application solutions we have to offer:

allura[®] dryback

FULLY ADHERED

- Total design freedom with the largest choice of shapes and sizes
- Most durable and reliable for applications of any size
- Maximum certainty and performance with a glued down product

allura[®] flex II

LOOSE LAY

- Easy and quick
- No need for any adhesive, up to 150 m²
- Tackified loose lay for larger applications
- The stable yet flexible solution for demanding applications of any size
- Special backing for extra comfort and improved acoustics

allura[®] click pro

CLICK CONNECTED

- Clickable solution for any area up to 1000 m²
- Suitable for uneven subfloors and 100% adhesive-free
- Balanced high quality product that will continue to perform, year after year

allura[®] puzzle

PUZZLE CONNECTED LOOSE LAY

- Highest traffic solution with a long-lasting durable performance and stunning look
- Minimal subfloor preparation, quick to install and ready to use immediately
- Strong and stable puzzle connection between the large tile format, in woods and materials

In addition to all these products there is **Allura Decibel**, our silent hero. The best solution for 19dB acoustic requirements in combination with Allura looks and performance.

Okay, it's showtime!

ENDLESS CHOICE FOR YOUR ULTIMATE ALLURA FLOOR!

Under each design/colour in this samplebook we indicate which constructions it is available in:

DR **FL** **CL** **PZ**

The project requirements dictate which product is most suitable.

DR7 – allura dryback wear layer 0.70 mm
DR5 – allura dryback wear layer 0.55 mm
DR4 – allura dryback wear layer 0.40 mm
FL1 – allura flex wear layer 1.00 mm
FL5 – allura flex wear layer 0.55 mm
CL5 – allura click pro wear layer 0.55 mm
PZ7 – allura puzzle wear layer 0.70 mm

The colourway numbers are mentioned below the sample. Add the code above as a suffix after the colourway number to get the right format of the product. Items with multiple executions (size or shape) each have a different colourway number. Please note that not all designs are available from stock in every product construction.

THE SYMBOLS AND ABBREVIATIONS UNDER THE SAMPLES EXPLAINED:

2 or 4 sides bevelled

in register embossing

natural colour variation

Trapezoid shape. Two of the trapezoids together form a 50 x 50 square.

allura® decibel

THE SYMBOLS AND ABBREVIATIONS UNDER THE SAMPLES EXPLAINED:

4 sides bevelled

All items have 4 bevelled edges.

The symbols and abbreviations under the samples explained:

The coloured codes alongside each colourway number show the availability per construction.

AD | allura decibel (0.35/0.8)
AD3 | 0.35 AD8 | 0.8

Only available in AD8 | 0.8

Example:

To order the weathered serene oak with wear layer thickness 0.8 mm. Take the colourway number of weathered serene oak 5513 and add AD8 to the number.

This is how you would specify this example order:

5513 AD8
colourway number construction type

Large size or Herringbone size:

To order the large size or the herringbone size of the weathered serene oak with wear layer thickness 0.8 mm. Take the colourway number 5513 and add for the large size L or for the herringbone H and add AD8, behind the number.

This is how you would specify this example order:

5513L AD8
colourway number construction type

Allura decibel b+:

All items are available on a made to order basis in the Allura decibel b+ biomass version. To order this version just add a B at the end of the item number. For example 5513AD8B.

ENHANCED SUSTAINABLE OPTION WITH **ALLURA DECIBEL B+**

We continuously work to reduce the environmental impact of our products. Allura decibel is already designed for a circular future: it can be installed with a tackifier for easier reuse or recycling, is produced using 100% renewable electricity, and meets the highest standards for low VOC emissions.

Going further with Allura decibel b+

For projects seeking an even more sustainable choice, there is an on demand option which includes bio-based PVC, plus a plasticizer from recycled origin. We call this Allura decibel b+.

Circular and renewable raw materials

Allura decibel b+ contains 31% recycled material. Part of the recycled content comes from recycled post production and installation waste of PVC flooring and filler from a recycled source. The additional use of recycled plasticizer (made from, e.g. recycled PET bottles) is unique for Allura decibel b+. Additionally, a bio-based PVC is used instead of a tradition fossil-based PVC. This increases the amount of renewable materials and reduces the impact on the environment even further. For both the recycled plasticizer and the bio-based PVC, a mass balance approach is used.

How does it work?

Bio-based materials originate from renewable, natural raw materials. When these materials are used in our production process, the product looks and performs exactly the same, the only difference is the origin of the raw materials. In mass-balance manufacturing, traditional PVC and bio-based PVC are not kept separate. Instead, they enter the same production stream. By purchasing the b+ version, you increase the share of bio-based content allocated within this production proces. The same methodology is used for the recycled plasticizer.

This means:

- The more b+ products our customers choose,
- the more bio-based and recycled raw materials we can introduce,
- leading to a continued reduction of fossil resources in our supply chain.

A smart choice for people and planet

By choosing Allura decibel b+, you actively support the transition to renewable materials and help to reduce the use of fossil resources and the impact of CO₂-emissions on the planet. Together, we can move towards healthier buildings, lower emissions, and a more circular flooring industry.

Forbo Enduro is an LVT offer that creates many possibilities. All the items in the range are available in a Dryback with a 0.30 wear layer and semi-rigid Click with an 0.55 wear layer and an integrated acoustic underlay. This Click product offers flexibility and high acoustic performance and is quick to install through this integrated underlay. Enduro offers you the possibility to use the right material for the job at hand.

HOMOGENEOUS PROJECT VINYL

Sphera is Forbo's premium, homogeneous vinyl collection, styled by our European design team and produced in an advanced purpose-built plant using the latest manufacturing technology.

Versatile and colourful

Sphera homogeneous vinyl floor coverings add character and style to floors across numerous applications. Whether in demanding, hygienic healthcare environments, in flexible, multi-purpose modern public buildings or in education facilities and offices where durability and colour are key, Sphera will never disappoint.

Sphera Element 50096 | azul 50103 | barite

Forbo Sphera has very low emissions of <math><10\mu\text{g}/\text{m}^2</math> after 28 days, is phthalate free and also offers colourways with high light reflectance values ensuring that it can contribute to a healthy indoor environment. Its SMART-top PUR surface treatment resists stains and is easy to clean ensuring safe and hygienic floors.

SPHERA COLLECTION AT A GLANCE

sphera® element

Sphera Element is recognized to offer the most complete colour proposition in the market. With a wide range of subtle neutrals and contemporary tones, Element is ideal for use in areas where the floor is required to blend with the environment.

144

sphera® energetic

The Sphera Energetic collection brings joy and vitality to any space with its vibrant colours, dynamic patterns and coordinated palette designed for creativity and functionality. This inspiring homogeneous vinyl flooring range combines style, durability and sustainability and fits beautifully in healthcare, education and contemporary interiors

146

sphera® elite b+

The most sustainable Sphera collection. Elevates environmental performance to a higher level thanks to a high share of certified bio-circular raw materials.

148

sphera® essence

The visual of Sphera Essence is developed with a new variation of recipe and process settings. This has resulted in a unique visual that refers to a granite-stone look with transparent particles for depth and contrast. The colour range of 18 items exists of neutral and natural tones supported by fresh accent colours.

150

sphera® SD | EC

Sphera SD | EC is Forbo's homogeneous vinyl collection with conductive properties in sheet format. The collection is specifically designed to control static discharges and particles in the most sensitive environments, such as pharmaceutical, life sciences and healthcare facilities.

152

Homogeneous vinyl redefined

Sphera sets a new benchmark in premium homogeneous vinyl flooring. With its outstanding performance, inspiring design, and redefinition of sustainability standards, Sphera delivers functionality and style in equal measure. Designed for modern commercial spaces, it performs beautifully, day after day.

Lasting performance

- The evenly applied SMART-top finish ensures the highest resistance to chemicals, scratches and stains.
- Hygienic, non-porous surface for easy cleaning.
- Long-term durability with excellent dimensional stability.
- Sphera Element is approved by the Fraunhofer Institute for cleanroom use up to ISO class 5.

Inspiring design

- Modern visuals redefining the aesthetic standards of homogeneous vinyl.
- Unlimited design freedom with coordinated colours available.
- A colour palette supporting neurodiverse needs.
- Flexible layouts with non-directional designs.
- Refined matte finish for timeless aesthetics.

Innovative sustainability

- Recycled content between 34% - 43% depending on the collection.
- Healthier indoor air thanks to low-emission, phthalate-free materials.
- Circular, zero-waste manufacturing.
- Reduced footprint through low energy and water use.
- Sphera Elite b+ contains certified bio-circular raw materials.

Most extensive colour palette

Sphera Element is recognized to offer the most complete colour proposition in the market. With a wide range of subtle neutrals and contemporary tones, Element is ideal for use in areas where the floor is required to blend with the environment.

The Forbo Sphera SD | EC sheet collection offers a trustworthy solution delivering consistently high quality for the most demanding of controlled environments. Our technical flooring system will perform regardless of the conditions of the area.

Forbo's new purpose-built European manufacturing plant means that all the latest insights and technology have been used to create 'smart' and innovative solutions resulting in a premium collection.

The benefits of Sphera SD | EC

- Innovative product development and carefully controlled production processes ensure a solution with permanent conductive properties, which comply with all ESD standards.
- Sphera SD | EC will retain its optimal performance throughout the product's lifetime, regardless of the conditions of the environment, such as humidity levels.
- Low emissions and phthalate free manufacturing ensures Sphera SD | EC can contribute to a healthy indoor environment
- The unique SMART control top makes Sphera SD | EC resistant to stains and scratches, for a durable and hygienic solution.
- Thanks to the conductive backing, there is no need for conductive adhesive underneath the full sheet, only to affix the copper strip. This reduces installation costs and risks of installation errors.
- Sphera SD | EC is produced in a zero waste environment, ensuring efficient and sustainable manufacturing.

Forbo's homogeneous conductive sheet vinyl

SMART control top resists stains and scratches

Permanent dissipative properties which comply with all ESD standards

No need for conductive adhesive underneath the full sheet, only to affix the copper strip

Extremely low emissions and outgassing

Performs regardless of the humidity level of the area

Sheet format requires less welding, ensuring the highest hygienic properties

GENERAL PURPOSE PROJECT VINYL

The Eternal collection offers a broad choice in commercial vinyl flooring, including realistic wood effects, stone and abstract designs, a broad palette of colours and some imaginative digitally printed visuals created to inspire.

It meets all the functional and practical requirements demanded in a variety of application areas in Health and Aged Care, Education, Office, Retail and Leisure & Hospitality environments.

Going Round Moving Forward

- Eternal NEXT is an innovative floorcovering designed for adhesive free installation, making no compromise on the known quality of Eternal. Supporting circularity, Eternal NEXT can be easily uplifted for reuse or recycling at the end of its life.
- Maximized use of recycled content in all Eternal products. Our general purpose vinyl ranges contain at least 20% recycled content. Improving this further is a continuous process, the latest status can be obtained from the product specific EPD or the Forbo Flooring Systems website.
- We produce all our vinyl in Europe where it meets the highest possible current and future REACH compliance standards for chemical content.
- 100% of our electricity comes from renewable sources and our vinyl production sites are part of an effective environmental management system, achieving ISO 14001 certification.
- We use smart material constructions and durable finishes on our vinyl. A micro-embossing technology reduces the need for chemical cleaning and increases the floor's lifespan.
- Through our Back to the Floor scheme, we can collect installation off-cuts from our vinyl floorcoverings for recycling into new floors.

ETERNAL COLLECTION AT A GLANCE

eternal® wood

The Eternal Wood collection contains a large variety of realistic wood designs and plank sizes, including some multi-width plank designs.

eternal® material

A collection of concretes, cement and other contemporary stone types, creating an elegant base for any interior.

eternal® colour

Eternal Colour offers a calm and a more daring design. Both with high colour intensity and optimal light fastness.

eternal® NEXT

Eternal Next is an innovative floorcovering designed for adhesive free installation, dramatically reducing installation time and minimising disruption. Making no compromise on the known quality of Eternal.

eternal® original

Eternal Original is offering you many possibilities for use in many different applications. The quality of Eternal Original will never disappoint you, it has a very good performance and long lifetime, guaranteed by the proven technology of our PUR protection.

eternal® de luxe

Eternal de Luxe is a great example of Forbo's unique design capabilities. The range features fresh wood and stone designs, enhanced by authentic embossing structures that add even more realism to the floors. Eternal de Luxe is available in a comfort and a compact version.

eternal®

Expertise and heritage in design vinyl sheet flooring

Experience the unparalleled quality of wood and material design flooring, crafted to look as good as or even better than their natural counterparts. Our enduring designs add a timeless appeal to any interior, whilst the proven surface finish ensures durability and exceptional protection against scuffs and scratches, keeping your space looking great for years to come.

Choose Eternal Design Vinyl for outstanding quality and thoughtful design, elevating any space with unmatched beauty and durability.

EXPERTISE IN DESIGN

- Crafted to offer timeless, stylish aesthetics for any project.
- State of the art designs, including extensive possibilities to make combinations within the collection.
- Realistic wood and stone designs, expertly designed to rival the beauty of their natural counterparts.
- Co-ordinated design offer with Modul'up loose lay, Step safety flooring and other Forbo Flooring ranges.
- Multiple finishes tailored for varied effects, all delivering exceptional performance:
 - PUR Pearl: A consistent, natural look with easiest cleaning properties.
 - PUR Satin: An extra matte finish.
 - PUR Wood: An authentic wood-like appearance.

EXPERTISE IN PERFORMANCE

- The ultimate worry-free flooring solution, delivering high quality performance for decades.
- Market-leading minimal residual indentation, thanks to balanced product construction.
- Exceptional protection against scuffs and scratches with Forbo's advanced PUR Pearl lacquering and embossing techniques.
- Easy to handle during installation and remains stable and flat, thanks to Eternal's proven high tech product construction.
- Introducing the innovative Eternal Next construction, leveraging Forbo's expertise in adhesive free solutions for quick and easy installation, reuse, and recycling.

EXPERTISE IN SUSTAINABILITY

- Contains at least 20% recycled content, with all production waste repurposed.
- 100% phthalate-free and designed with the lowest possible emission levels.
- Produced using 100% renewable green electricity, meeting all relevant quality and environmental standards.
- Micro-embossing technology minimises the need for chemical cleaning, extending the floor's lifespan.
- Pairing Eternal with Coral and Nuway entrance systems, the lifetime of the floor will increase substantially.

The Eternal Wood collection contains a large variety of realistic wood designs and plank sizes, including some multi-width plank designs.

ACOUSTIC SHEET VINYL

Sound can have adverse effects on the human body such as sleeping disorders, stress and headaches. Acoustic floors have an important contribution when it comes to reducing noise in buildings. Forbo Flooring is a specialist in acoustic floors with more than 30 years of experience.

MODUL'UP | SARLON PRODUCT INFO

modul'up®

With a reputation built on years of innovation and confirmed by users worldwide, Modul'up offers the best-in-class solution for all flooring needs. Its unique adhesive-free installation process ensures minimal disruption, allowing operations to continue seamlessly—saving both time and costs while promoting sustainability through circular solutions.

sarlon®

The best acoustic high traffic product in the market. Highest acoustic sound reduction of 19dB combines the best residual indentation for a 19dB acoustic product. The best compromise on acoustic and heavy load requirements is the 15dB version of Sarlon.

sarlon® primeo | sarlon® primeo compact

The Sarlon primeo collection is a range with many possibilities, the various designs are very suitable for use in schools, entrance halls of public buildings or even common areas of housing.

sarlon® complete step

Sarlon Complete Step is an acoustic PVC floor covering that is specially made for installation on staircases. Thanks to the foam backing, Sarlon Complete Step ensures a good sound insulation of 17 dB. The colours are matching with the Modul'up | Sarlon collection.

modul'up® | sarlon®

Modul'Up: Expertise and Innovation in Loose lay Flooring **Sarlon: Expertise and Heritage in Acoustic Flooring**

The perfect blend of style and functionality that is our Modul'up and Sarlon flooring. Advanced acoustic technology ensures Sarlon's optimal sound absorption. Engineered for low indentation it withstands heavy traffic in the building while maintaining its pristine appearance.

When it comes to loose lay flooring, Modul'up stands unrivaled. Years of innovation and experience, brings the best-in-class solution, trusted and tested worldwide. With its adhesive-free installation it allows continuous operation, ensuring cost savings and a sustainable, circular solution.

Elevate the aesthetic of any space with the extensive range of attractive designs all available in both Modul'up and Sarlon. Trust the experts of Forbo to deliver flooring that meets the highest standards in an extensive design collection that caters for every taste and style.

In these collections you will find the full range of items that are available in no less than 4 different high performance constructions. The diversity in constructions all come with their own benefits and advantages, all available in this wide range of designs and colours as shown in this book.

Modul'up products are part of the circular economy product design concept and do not require any glue or adhesive tape.

All 4 products have 20% or more recycled content, very low emissions, are phthalate free and made with green energy and meet all relevant environmental and quality standards.

All products have the extremely high performance Xtrem PUR protection with:

- Best possible chemical resistance, blocking even the toughest stains for an easy maintenance
- Durable resistance against scuff, scratch and other appearance disturbances
- Easy to clean surface, giving no room for bacteria to grow, and perfectly hygienic
- Natural matt appearance to enhance the design and R10 slip resistance rating

modul'up® 19dB

THE BEST FULLY LOOSE LAID SHEET ACOUSTIC SOLUTION

- Quick installation, no downtime, immediate use possible
- Long term benefit of very quick replacement and removal, saving money over time
- Offering all benefits of the best performing acoustic in one product

modul'up® compact

THE BEST FULLY LOOSE LAID SHEET COMPACT SOLUTION

- Speed of installation and renewal reduces downtime, the floor is immediately ready for use
- Compact and strong solution for heavy traffic and intense use
- Installation over existing flooring is in many cases possible but also on new, not fully dried concrete floors, there is no risk since no adhesive is used

sarlon® 19dB

THE BEST ACOUSTIC HIGH TRAFFIC PRODUCT IN THE MARKET

- Highest acoustic sound reduction of 19dB
- Best residual indentation for a 19dB acoustic product
- High performance characteristics on all relevant aspects

sarlon® 15dB

THE BEST COMPROMISE ON ACOUSTIC AND HEAVY TRAFFIC REQUIREMENTS

- Lowest residual indentation for acoustic product, suitable for heavy loads
- 15dB acoustic performance for additional comfort at high performance
- A unique product proposition in the market

Modul'up 19 dB

The best **fully loose laid** acoustic sheet solution. Quick installation (no downtime), immediate use possible. Long term benefit of very quick replacement and removal, saving money over time. Offering all benefits of the **best performing acoustic** with less overall material.

Modul'up compact

The best **fully loose laid** compact sheet solution. Speed of installation and renewal reduces downtime and is immediately **ready for use** after installation. Compact and strong **solution for heavy traffic** and intense use. Possibility to use over existing flooring, no need to remove on many occasions.

Sarlon 19 dB

The best acoustic **high traffic** product in the market. Highest acoustic sound reduction of 19 dB. **Best residual indentation** for a 19 dB acoustic product. High performance characteristics in all other areas.

Sarlon 15 dB

The best compromise on acoustic and high load requirements. **Low residual indentation**, suitable for heavy loads. 15 dB acoustic performance for additional comfort at **high performance**. A **unique** product proposition in the market.

FAST FLOORING

Quick, easy and economical. FastFlooring is Forbo's overarching name for genuinely adhesive free floor coverings including entrance flooring and interior flooring ranges in sheet, tile and plank format for maximum flexibility. Our Modul'up is one of our first ranges that completely complies to this category and stands at the forefront of Forbo Fast Flooring.

THE ADVANTAGES OF FAST FLOORING AT A GLANCE:

Quick: Modul'up can be fitted over different types of existing flooring and as they doesn't need to be installed with adhesive, they can reduce installation time by up to 50%

Economical: a reduction in downtime will mean substantial savings for the user of the building including a potential saving on installation costs.

Easy: no adhesive required and really easy to install. There are no adhesive odours, less disruption and dust, and floors can be walked on immediately after installation.

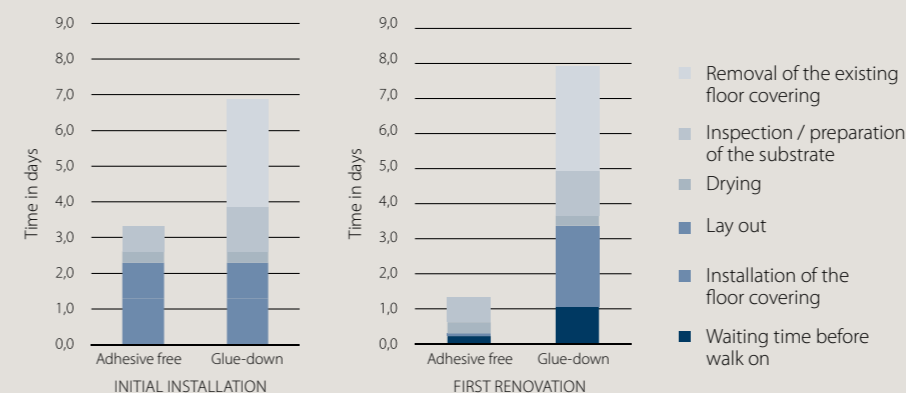

The savings are even greater when an existing Fast Flooring product like Modul'up is replaced with another Fast Flooring product: the existing product comes off the floor quickly and easily with no damage to the subfloor and is ready for circular use.

NEW BUILD

- Shorter installation times
- Reduced maintenance and service costs
- Same supplied & fitted price as a glue-down floor covering (initial installation)

RENOVATION

- Installation while premises are in use without any disruption (noise, dust, adhesive odours etc.)
- Instantly ready for use after installation
- Possibility of covering most existing compact floors and acoustic vinyl (with Modul'up compact)

INSTALLATION AND COMPLEMENTARY PRODUCTS

Modul'up single-sided tape

Modul'up tape is part of the Modul'up system. To get all the benefits of a complete adhesive free installation, Forbo Flooring recommends the use of the Modul'up tape.

Welding

Matching welding rods have been developed for all items in this collection. With certain designs and in certain projects an invisible weld gives the best visual effect, we offer the alternative use of our Forbo coldweld for these occasions.

0857 | dusty blue uni, 4612 | fog urban concrete, complete step 631799 | slate blue

Sarlon Complete Step

An acoustic PVC floor covering that is specially made for installation on staircases. Thanks to the foam backing, Sarlon Complete Step ensures a good sound insulation of 17 dB. The stair nosing is integrated in the structure and has a different colour allowing a visible contrast. The colour palette can be combined with Modul'up and Sarlon but also Eternal and Step flooring.

Coral Classic 4730 | raven black

Entrance Flooring

Entrance flooring is fundamental to modern building design. A well designed entrance flooring system will prevent dirt and moisture from being tracked in and thereby prolongs the life of interior flooring, reduces cleaning & maintenance costs and the potential for slip injuries. With both textile (Coral) and rigid (Nuway) Entrance Systems in our portfolio, we can offer an entrance solution for every situation.

Modul'up TE

The solution for damp sub floors. Installation of flooring on damp sub floors is a general issue in the market. Current solutions mostly contain a combination of products requiring a long, complex and costly installation process. Modul'up TE is an easy, economic and hassle-free solution for installation on damp subfloors. It can be installed in heavy traffic areas and it offers the benefits of loose lay installation.

Technical specifications

Modul'up Compact meet the requirements of EN 10582

Modul'up 19 dB, Sarlon 19 dB and Sarlon 15 dB meet the requirements of EN 651 and ISO 11638

How to order

Each item in these collections is available in all 4 constructions; **Modul'up 19dB, Modul'up compact, Sarlon 19dB and Sarlon 15dB.** Underneath each sample you only find the colour number. To order the right construction, please add the following codes as suffix to the colour number.

Example:

When you want the item blond chill oak in Sarlon 19dB, you take colour number 8513 and add T4319 at the end.

This is how you would specify this example order:

sarlon® primeo sarlon® primeo compact

A RANGE OF POSSIBILITIES

- 30 different designs including wood, concrete, plains and graphics
- All 30 references are available in an acoustic and compact version
- An offer both for demanding high-traffic areas in compact and those with 19dB acoustic requirements

RELIABILITY & COMFORT

- Best-in-class compromise between acoustics and 0.10 mm residual indentation for the 19dB acoustic product
- Enhanced durability and performance for the compact product with residual indentation of only 0.03 mm
- Both products protected by proven PUR lacquering made by Forbo Flooring

HEALTH & ENVIRONMENT

- A+ indoor air quality, European manufacturing and design with traceability of raw materials including recycled content
- Guaranteed phthalate-free
- 100% recyclable and reusable with the Back to the floor program

sarlon® complete step

Accessibility, a matter of safety

A staircase in general areas of a public building must be accessible safely by disabled people (visually impaired or blind). The safety of people must be ensured by measures or tools that help to identify obstacles or stairs.

The design of stairs must provide for:

- Non-slip stair nosing that visually contrasts with the rest of the staircase
- First and last steps with a visually contrasting indentation
- A floor covering or accessory that raises caution at the top of the stairs

Sarlon complete step, with its step nose integrated into the structure and visually contrasting, is available in a palette of colors easy to coordinate with our Modul'up, Sarlon, Sarlon primeo and Eternal collections.

Podotactile tiles to make people aware of the presence of a staircase.

sarlon® complete step

Dimensions	Roll width 1.01m Roll length 20m	
Total thickness	EN ISO 24346	3.35mm
Thickness wear layer	EN ISO 24340	0.85mm

Podotactile flooring solutions

Glued podotactile tiles

The tactile slab is positioned in front of a risk zone (stairs, open space) to alert anyone of the danger of falling. Its 3D geometry alerts touching feet about possible danger. It is glued in front of the danger zone.

- Simple and quick installation: adhesive
- Resistance to intensive use
- No breakage or wear due to its superior quality
- Prevention reinforced by better visual contrast in relation to the ground (choice of colours)
- Complies with standard NF P98-352
- Non-slip

Size: 1.350 x 420 mm (box of 4 tiles)

Available colours:

Tactile studs to seal

The podotactile studs are positioned before and parallel to a risk area (stairs, open space, dangerous crossing) to alert of the danger of falling. Its 3D geometry allows makes sure that the feet alerts the person for a possible dangerous situation.

- Suitable for heavy traffic
- Exceptionally durable thanks to sealing in the ground
- Increased prevention by better visual contrast with the ground
- Easy installation (template provided)

Kit of 200 studs with installation template included

Accessories

650 Eurostar fastcol sceller

Ref.: 650
Cond.: 7,5 kg drum
Use: Contact glue, technique GREEN (EC1+).
 High performance.
 Heat reactivatable.

840 Eurotape doubletack

Ref.: 840
Width: 50 / 90 / 240 mm
Roll length: 25 m
 Double-sided adhesive tape with elastic and non-deformable woven reinforcement, coated on both sides with modified and ecological acrylic glue, guaranteeing very strong initial and final adhesion.

SAFETY VINYL

Safety.Design.Confidence

Forbo's Step safety flooring collection provides a complete range of products designed to meet safety demands across a wide range of applications, from general areas to more extreme areas such as commercial kitchens, wetroom (barefoot) areas and industrial applications.

The Step range meets all HSE and European safety norms and delivers safety with minimal compromise in terms of cleaning and maintenance due to the PUR Pearl finish.

All Step safety vinyl flooring has a guaranteed slip resistant performance throughout the life of the product. The ranges are designed to be easy to combine with other ranges like Sphera and Eternal; but especially with our wall covering range Onyx+.

Slips are amongst the most frequent accidents in the indoor environment. In our effort to make a positive contribution to the quality of indoor spaces our Step collection offers a wide variety of genuine safety flooring solutions. Many offer natural visuals such as wood and natural stone allowing customers to have the functionality of a true safety floor combined with the feeling of well-being which can be achieved through natural designs avoiding a 'cold' and institutional look and feel. Our Step ranges are also phthalate free for improved indoor air quality.

STEP COLLECTION AT A GLANCE

surestep® original

R10

Surestep Original offers a fresh alternative to conventional safety flooring with an unique aesthetic. 6 items are also available in Fast Fit construction.

surestep® wood

R10

Realistic natural designs provide a warm ambience to all areas. The Surestep Wood palette of 13 colourways contains our most popular bestselling colours alongside new abstract woods and all-over designs. 3 items are also available in Fast Fit construction.

surestep® star

R10

Innovative, muted and sophisticated. The 8 contemporary tones offer hints of grey and a clean aesthetic. Surestep Star offers a brighter visual with holographic particles colour matched to the terazzo or natural base colour of each item.

surestep® stone

R10

A concise mix of stone, textured and mineral structures add depth and refinement to the collection. 3 items are also available in Fast Fit construction.

surestep® balance

R10

Surestep Balance is a minimalist design featuring a matte finish, specifically tailored for dementia friendly spaces. It perfectly embodies our 'designed for purpose' philosophy.

surestep® laguna

R10

This product combines barefoot and footwear slip resistance, for areas where both are likely and frequently will take place. Complying with the relevant norms for the application, Laguna is suitable for use in transition areas such as changing rooms and circulation areas.

safestep® R11 & R12

R11 R12

Available in 11 colours and designed specifically to match the areas where a high level of slip resistance is needed such as professional kitchens. Safestep R12 is a high slip resistant R12 rated floor which ensures slip resistance under even most extreme conditions.

surestep® aqua

R10

This modern, organic design with a unique embossing shape is designed for barefoot and soft soled shoes areas. A flexible product, available across 6 colours coordinated with Surestep Laguna, Safestep Aqua can easily be installed to meet the specific requirements of wetrooms.

surestep® Fast Fit

R10

A genuine safety vinyl suitable for an adhesive free installation, with an impact sound a reduction of 14 dB.

onyx+ wallcovering

A wall covering complementing our well established safety flooring options for wetroom applications. Onyx+ offers neutral colours and designs as well as more stylish options.

SAFETY VINYL

Slip resistance classification

Ramp testing indicates the performance of slip resistant flooring in situations where contamination with water & soap or oil can occur. All possible classifications are covered in the Step safety vinyl collection.

HSE Compliance – Wet Pendulum Test ≥ 36

All Step floors are tested using the TRRL Pendulum test, the preferred test method of the HSE which is used to assess the slip resistance of a floor surface. Floors can be tested with different rubber sliders to assess either footwear or barefoot use. Using this test, a Pendulum test value (PTV) of ≥ 36 or higher is considered to offer a low slip risk.

Surestep, Safestep R11 and R12 products offer wet Pendulum test values of ≥ 36 to ≥ 50 for footwear applications. In addition, Surestep Laguna and Safestep Aqua offer wet Pendulum test values of ≥ 36 for barefoot use areas.

≥ 36 Wet Pendulum	≥ 40 Wet Pendulum	≥ 50 Wet Pendulum
---------------------------	---------------------------	---------------------------

Creating better environments

- Our Step range contains an average of 24% recycled content in its manufacturing process.
- Many of the products in the Step range contain Step Crystals which offer a clear and light aesthetic and also reduced soiling. As Step crystals are made from recycled material, they also enhance the environmental performance.
- Of all the electricity we buy, 100% comes from renewable sources. This means our vinyl production sites are part of an effective environmental management system and achieve ISO14001 certification.
- We use smart material constructions and durable finishes on our vinyl, to reduce the need for chemical cleaning and increases the floor's lifespan.
- All ranges in our Step collection are produced in Europe, REACH compliant and phthalate free.

APPLICATIONS – STEP COLLECTION

surestep® R10

General and spillage areas with increased (a higher) slip risk

- High traffic areas, ramps or corridors
- Tea and coffee points
- General workrooms
- Service areas
- Kitchens, dining rooms to food servery areas
- Washroom areas

204

safestep® R11 & R12

Areas with increased slip risk due to continuous contamination

- Professional kitchens
- Florist shops
- Laundrettes

208

Intensive use and high contamination areas

- Light industrial food production areas
- Woodworking rooms and other workshops

Wetroom solutions

Continuously wet areas, where water flows frequently.

- Changing rooms
- Bathrooms
- Locker rooms
- Walk-in showers
- Hydrotherapy areas
- Indoor swimming pool areas

212

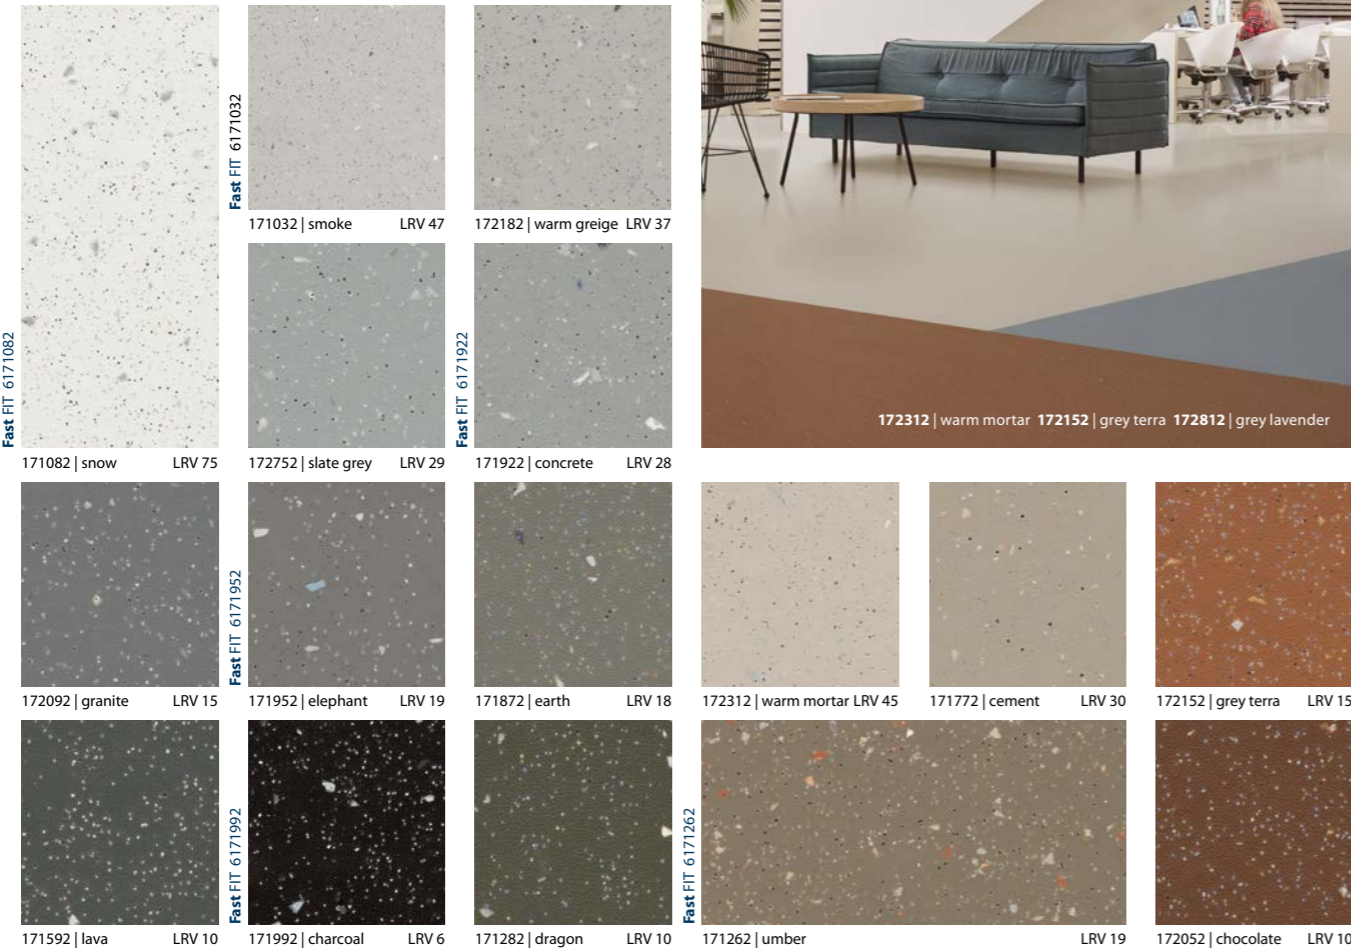

surestep® original

Surestep Original offers a fresh alternative to conventional safety flooring with an improved unique aesthetic. A palette of 33 colours combines gradations of hue and lightness.

Specifications: R10, ESf, TRRL ≥ 36 , Rz ≥ 20

FORBO'S WETROOM SOLUTIONS

The popularity of the wetroom (watertight walk-in shower room) is growing and not just in hospitals and care homes, but also in student accommodation, sports centres and hotels. The continuously sealed floor and wall system stops moisture ingress and therefore prevents bacterial growth.

Easy to access, even for wheelchair users, hygienic and quick to clean (with no sharp corners or crevices for dirt and bacteria to collect), it's not surprising that this type of facility, which originated in Scandinavia, is becoming so popular.

Co-ordinated wall and safety floor surfaces

Our Safestep Aqua and Surestep Laguna ranges are perfect for wetroom applications. They were specifically developed for use in continuously wet areas, where water flows frequently and barefoot traffic is the standard; or where there is a combination of barefoot and footwear traffic.

To complement these well established safety flooring options, we have introduced Onyx+, a range of stylishly co-ordinated vinyl wall coverings.

For installation, cleaning and maintenance advice, including which accessories to use when installing wetroom products, please visit www.forbo-flooring.com

WETROOM COLLECTION AT A GLANCE

surestep® laguna

This product combines barefoot and footwear slip resistance, for areas where both are likely and frequently will take place. Complying with the relevant norms for the application, Laguna is suitable for use in transition areas such as changing rooms and circulation areas.

Wetroom areas

- Continuously wet areas, mainly barefoot but also footwear
- Changing rooms in combination with footwear
- Bathrooms in combination with footwear

214

safestep® aqua

This modern, organic design with a new and unique embossing shape is designed for barefoot (and soft soled shoes) areas.

A flexible product, available across 6 colours, can easily be installed to meet the specific requirements of the wetroom sector.

Showers, swimming pool areas

- Continuously wet areas, barefoot and soft shoes
- Walk in showers
- Hydrotherapy areas
- Indoor swimming pools

215

onyx +

To complement our well established safety flooring options for wetroom applications, we have introduced Onyx+, a range of stylishly co-ordinated vinyl wall coverings.

Showers, swimming pool areas

- Available in 2m wide rolls
- Suited to commercial applications in health centres, hospitals and care homes
- Can be installed horizontally where required

216

surestep® laguna

This product combines barefoot and footwear slip resistance, for areas where both are likely and frequently will take place. Complying with the relevant norms for this application, Laguna is suitable for use in transition areas such as changing rooms and circulation areas. Suitable for wheelchair use. The subtle design is available in 11 colourways and 3 items with decorative and soil hiding accent chips.

PROTECTING YOUR TECHNOLOGY

Colorex is an advanced technical flooring system specifically designed to control static discharge in sensitive areas such as cleanrooms, operating theatres and the electronics industry. Not only does Colorex provide an advanced technical solution, it is also aesthetically pleasing, enhancing any commercial interior from industrial to healthcare establishments.

Providing peace of mind

Forbo Flooring Systems is an international market leader with a wealth of experience in providing ESD and cleanroom flooring through one of the most trusted brands on the market - Colorex. You can have peace of mind that Colorex complies to every standard and norm that is required today and likely to be required tomorrow.

Environmental credentials

We constantly strive to produce sustainable flooring solutions that create better environments across all application areas. At the same time we help take care of the natural environment through our commitment to sustainable development, responsible raw material procurement and manufacturing processes.

Areas with high traffic needing daily intensive cleaning. Suitable when downtime, damp floors or poor sub floors are an issue.</p>

The benefits of Colorex

1. The technology assures a permanently conductive product guaranteeing optimal performance throughout the life of the product. Colorex® fully complies with all ESD standards.
2. The surface of Colorex® can be fully repaired extending the useful life of the product.
3. The low plasticizer content in Colorex® tile creates a unique dimensional stability and prevents shrinkage. The tiles can be perforated for air flow systems.
4. The low plasticizer content also ensures extremely low emissions and outgassing making Colorex® the right choice for cleanrooms. Colorex fully complies with all cleanroom standards including the Fraunhofer Institute.
5. The dense construction of Colorex® provides excellent resistance to heavy loads making it an ideal solution for commercial and industrial environments.
6. Colorex® is available in tile format, a prerequisite for raised access floors found in many commercial environments such as data centres and server rooms.
7. Option to add safety signs and guiding with Colorex signal and Colorex signal glow.

COLOREX COLLECTION AT A GLANCE

colorex® SD

Our Colorex SD tiles enable safe electrostatic discharge through the entire surface and mass of the tile. The conductive carbon black forms a dense network of tiny black veins. Colorex SD is permanently static dissipative.

colorex® EC

Colorex EC is an Ideal floor covering for laboratories, IT-rooms and cleanrooms. Colorex EC satisfies the strictest requirements for particle release behaviour, helping to reduce any threat of contamination. Reducing the generation of electrostatic charges is the main purpose of control measures in ESD protected areas (EPA).

colorex® plus EC

Colorex plus EC is Ideal for quick installation and renovation of sensitive areas such as laboratories, IT-rooms and cleanrooms. Colorex plus EC satisfies the strictest requirements for particle release behaviour, helping to reduce any threat of contamination.

colorex® plus R10

Colorex plus R10 is a heavy duty loose lay floor system with a textured surface for enhanced slip resistance (R10). The surface structure improves safety when there is a risk of contamination of the floor for example through powder or water spillage.

colorex® basic plus

Colorex Basic Plus is a loose lay floor system with Colorex on top without conductive properties. This ensures all the benefits of Colorex like high density, easy repair and stain resistance. But also combines the benefits of a heavy duty loose lay tile.

Hygiene and safety for sensitive healthcare areas

In sensitive healthcare areas such as operating theatres, intensive care units and diagnostic imaging facilities, flooring presents its own unique challenges. Not only must it comply with stringent hygiene regulations to help prevent hospital acquired infections, it must also demonstrate that it meets any necessary safety requirements. Most importantly, it must prevent any electrostatic discharges as these can cause malfunctions, or even failures, in highly sensitive medical equipment and devices and may endanger the health of patients and personnel.

SD 150265 | blue ridge SD 150222 | niagara

ESD flooring that is future proof

The right floor makes the difference Reducing the generation of electrostatic charges is the main purpose of control measures in ESD protected areas (EPA). In such areas such as electronics assembly, mechatronics and data centres the right floor covering plays a crucial role. Not only does it drain electrostatic charges from personnel and equipment, but it also reduces the generation of charges where they occur at the interface between the soles of shoes and the floor.

Industrial flooring for heavy duty areas

Suitable for the most demanding applications Industrial environments present their own flooring problems, particularly in areas with high wear and tear. Our Colorex high performance floor covering systems are designed for all industrial areas, including the most demanding of applications. Cut from a homogeneous, solid block of highly compressed material with a high vinyl content and a well balanced volume of mineral filler for optimum performance.

SD 150206 | moonstone SD 150263 | massif

Cleanroom flooring for the highest standards

In cleanroom environments in the pharmaceutical, life sciences and manufacturing industries, airborne particles can be a major source of contamination. Not only can they cause yield loss, the particles can also lead to corrosion and product degradation. Colorex EC satisfies the strictest requirements for particle release behavior and outgassing, helping to reduce any threat of contamination.

Surface can be fully repaired

Dense construction provides excellent resistance to heavy loads

Complies with all cleanroom standards

Unique dimensional stability and no shrinkage

Suitable for Raised Access Flooring and perforated air flow systems

Has permanent conductive properties which comply with all ESD standards

The low plasticizer content ensures extremely low emissions and outgassing.

colorex® signal

Colorex signal can be used as an additional, permanent safety measure to indicate emergency exits, to mark escape routes or indeed other spaces.

Colorex signal glow

The luminous quality of Colorex signal glow is determined by the length of exposure to, and the strength of, the light source. The effect is strongest in the first few minutes and remains visible up to 4 hours

after being exposed to light. Testing according to DIN 67510-1 2009-11 confirmed class A.

Colorex signal

The bright yellow, green and red colours of Colorex signal have been specifically chosen to aid in high-lighting potential danger or drawing attention to specific areas within a floor plan.

All Forbo Flooring Systems' sales organisations worldwide have a certified Quality Management System in accordance with ISO 9001. All Forbo Flooring Systems' manufacturing operations have a certified Environmental Management System in accordance with ISO 14001. The Life Cycle Assessment (LCA) of Forbo Flooring Systems' products is documented in individual Environmental Product Declarations (EPDs) which can be found on all of our websites.

Creative freedom and flexibility

Tessera ranges allow you to find solutions for any space, installation size, design requirement, budget and time scale. All ranges in the portfolio will cleverly work together supporting creative freedom and giving ultimate project flexibility, according to the way spaces are to be used in your scheme.

4903 | pebble tangent

To easily find the perfect carpet design, the Tessera carpet tile portfolio is divided into collection groups:

Colour

Plain and striped ranges of neutrals, muted tones and accent highlights designed for broad and varying project requirements, whether this be budget, sustainability, service, quality or colour, all in hard-wearing, level loop constructions.

Basis Pro | Basis Pro Phase | Layout & Outline | Chroma | Create Space 1

227

Design

Contemporary design styling in multi pile height and cut and loop pile constructions. With linking or complementing colours, the Design ranges allow the easy creation of flexible schemes suited for today's workspace.

Accord | Harmony | Infused | Cloudscape | Inline | Diffusion | Topology | Contour | Perspective | Twine | Tranquillity

236

Microtuft

A minimalist, timeless and hard-wearing style; the low profile microtuft construction creates the look and feel of flat-woven flooring, but offers all the practical benefits of a carpet tile.

Struktur 1 | Struktur 2

251

evolve+

The ranges from the standard Tessera collections with further improved sustainability criteria come together in the evolve+ series. All ranges in the evolve+ series can be easily identified as having over 75% recycled content and low embodied carbon of less than 2.0 kg CO₂ e/m².

Create Space 1 | Topology | Twine | Chroma | Tranquillity

Tessera Chroma 3631 | bramble

tessera® COLOUR COLLECTIONS

Plain and striped ranges of neutrals, muted tones and accent highlights designed for broad and varying project requirements, whether this be budget, sustainability, service, quality or colour. Tessera Colour ranges are available in a standard loop pile construction, designed to maintain their appearance in the most demanding heavy traffic installations.

tessera® basis pro

With colourways covering a wide spectrum of shades at an entry-level price point, Basis Pro is designed in a durable level loop construction for demanding commercial and education installations.

228

tessera® basis pro phase

A contemporary transition stripe design, Tessera Basis Pro Phase, with its link to the Basis Pro tile range, brings both versatility and creativity through its tonal and transitional design.

230

tessera® layout | outline

A comprehensive choice of modern neutrals and directional highlights, Layout is a contemporary, sophisticated loop pile product. Layout can be colour-matched with Outline, a subtly striped loop pile in the same construction, creating a myriad of fitting combinations.

232

tessera® chroma^{e+}

A textured loop pile carpet tile featuring sophisticated and trend led colours, representing contemporary aesthetics, Chroma is the language we use when we communicate colour; and then use it to curate balance and versatility to any space.

234

tessera® create space 1^{e+}

A low profile loop pile, constructed using 100% regenerated solution dyed ECONYL® nylon, yielding an exceptionally high recycled content. Create Space 1 is available in a warm Scandinavian influenced colour palette. Create Space 1 is part of the evolve+ series – product evolution for enhanced sustainability.

235

tessera® basis pro

Basis Pro is the universally selected flooring for a wide range of commercial applications where a reliable, hardwearing textile floor covering is required. Selected for its practical colour choice, availability and durability, Basis Pro is constructed with 100% solution dyed yarn, and is the trusted choice for installations in education, office and other commercial sectors.

tessera® layout & outline

Create a harmonious balanced and purposeful flow with Tessera Layout & Outline. An essential collection, this pairing easily integrates with any interior space, whether you're defining calm, connected zones or introducing visual cohesion across workplace and educational areas. With a modern, versatile and coordinated colour palette, Tessera Layout & Outline gives you the creative freedom to craft schemes that are modern, intuitively engaging and easy to navigate.

tessera® DESIGN COLLECTIONS

Contemporary design styling with linking or complementing colours, the Design ranges allow the easy creation of flexible schemes suited for today's workspace. Tessera Design ranges are either multi-height loop pile carpet which have distinctive pattern and texture, or cut & loop construction, a hybrid construction that offers all the robustness of a conventional loop pile product, but with superior aesthetics for more luxurious feel.

tessera® twine^{e+}

A softly striated loop, inspired by the natural organic elements of bark and leaves, Twine is a beautifully balanced pattern with a naturally influenced colour palette.

tessera® tranquillity^{e+}

Inspired by the patterns created by the soothing ebb and flow of water or natural rock formations, Tranquillity is a refreshing take on organic design.

tessera® topology^{e+}

A combination of geometric elements and organic structure, together with a naturally inspired palette, Topology offers both design and flexibility, enhancing any installation.

tessera® accord

A harmonious, contemporary geometric, Tessera Accord comprises of naturally intersecting lines which collaborate to create one, universally appealing all over design with a 'broadloom' style appearance.

tessera® harmony

A soft and balanced design, giving a sense of agreement and control, Tessera Harmony, in an organic small format patterning, promotes a calming, more productive workspace or education environment.

tessera® infused

A unique fusion of naturally inspired elements, Infused combines soft organic patterning with natural structures designed to encourage collaboration and well-being in any scheme.

tessera® cloudscape

Gentle organic styling, the Cloudscape range's tonal colourways are inspired from the skies above us, bringing the outside into the built environment.

tessera® inline

A geometric structure with intermittent linearity in subtle contemporary shades. Inline coordinates perfectly with other Tessera ranges, especially with Layout & Outline carpet tiles.

tessera® diffusion

Diffusion is a flowing geometric design in a multi-height loop pile construction, reflecting an evolution towards softer, more organic geometry. The fractal shapes fade in and out, creating appealing floor spaces.

tessera® contour

Contour takes influence from lines in architecture which are relieved by softer, more natural cut pile elements. This cut & loop range offers a geometric framework in a palette of naturally inspired colours.

tessera® perspective

Perspective uses cut & loop design technology creating a blend of surface textures across an etched design, giving an opulent feel and creating a rich all-over visual which subtly changes from differing perspectives within any interior.

tessera® twine^{e+}

Twine celebrates our bond with nature, symbolising the threads that tie us together and the connections we weave within the environment in which we live. A softly striated loop, inspired by the natural organic elements of bark and leaves, Twine is a beautifully balanced pattern with a naturally influenced colour palette.

Tessera Twine is part of the evolve+ series, featuring Tessera ranges with over 75% recycled content and low embodied carbon (A1–A3).

tessera[®] accord

A natural intersecting striated design, Accord is available in 12 colourways, each designed to blend tonally with each other, as well as match closely with other ranges from the Tessera portfolio.

Accord joins Infused and Harmony as part of the Union collection; a series designed to help address the needs of modern commercial design. Each range in the Union Collection shares linking yarn colours, tones and usable design styles to expand creative possibilities; forming balanced, calming and more productive workspace environments.

tessera® cloudscape

Tessera Cloudscape loop pile carpet tiles offer a tonal progression of colours ranging from dark to very pale, ideal for a wide range of applications and LRV requirements. In today's crowded urban environment we often risk losing touch with nature. Our only connection being the sky above us. Tessera Cloudscape is inspired by the constantly changing vista of cloud formations and the rich spectrum of light and colour, which provide a bridge to the outside, helping us to reconnect. Cloudscape can be fitted non-directional or monolithic

tessera[®] MICROTUFT COLLECTIONS

A minimalist, timeless and hard-wearing style; the low profile microtuft construction creates the look and feel of flat-woven flooring, but offers all the practical, durable and environmental benefits of a carpet tile.

tessera[®] struktur 1

Struktur 1 is a plain microtuft range, available in beautiful neutrals and complemented by warm accent tones, allowing elements of colour to be woven into flooring schemes.

tessera[®] struktur 2 linear

Struktur 2 Linear is a tonal stripe in a low profile microtuft construction. Available in a range of neutral stripe options and sharing colours from the Struktur 1 range, this contemporary and subtle linear design can be used on its own or in combination to create elegant, pared back schemes.

The low profile of Microtuft carpet tiles does mean that visible edges are a characteristic of this style of carpet tile construction. Extra care should be taken during installation to ensure an optimal finish and to minimise the appearance of visible edges.

tessera® struktur 1

Every so often we need to pause, reflect, take a moment to focus on the important things. We need to find time to re-establish our balance and appreciate the value and integrity of a simpler, less cluttered existence. In Tessera Struktur 1, we find a familiar sense of wellbeing and equilibrium.

tessera® struktur 2 linear

Struktur brings a sense of wellbeing and equilibrium, a solid foundation but also a platform for growth. As circumstances change there can be a need to recalibrate, take a fresh view adding flexibility and interest whilst still holding true to our shared values. A subtly textured, tonal stripe, Struktur 2 Linear creates warmth and interest to flooring schemes. Available in 6 neutral stripe options, Struktur 2 Linear can be used on its own, or in combination with Struktur 1 to create subtle design highlights, interest and understated elegance. Use together with other Forbo flooring products to create beautiful installations suitable for any scheme.

Tessera twine 5008 | khaki-knot

tessera® twine^{e+}

Twine celebrates our bond with nature, symbolising the threads that tie us together and the connections we weave within the environment in which we live. A softly striated loop, inspired by the natural organic elements of bark and leaves, Twine is a beautifully balanced pattern with a naturally influenced colour palette.

238

tessera® tranquillity^{e+}

Inspired by the patterns created by the soothing ebb and flow of water or natural rock formations, Tranquillity is a refreshing take on organic design.

239

tessera® topology^{e+}

A combination of geometric elements and organic structure, together with a naturally inspired palette, Topology offers both design and flexibility, enhancing any installation.

241

tessera® chroma^{e+}

An opulent loop pile, giving an attractive, highly textured broadloom appearance. The modern colourways and broadloom texture link beautifully with the Tessera Design ranges, creating increased design flexibility and freedom.

234

tessera® create space 1^{e+}

A low profile loop pile, constructed using 100% regenerated solution dyed ECONYL® nylon, yielding an exceptionally high recycled content. Create Space 1 is available in a warm Scandinavian influenced colour palette.

235

needlefelt

Ultimate functionality

The high quality of Forbo Flooring Needlefelt is based on over 40 years' experience in the manufacture and supply of this hard-wearing flooring. It is available in 3 qualities designed to meet different requirements.

Benefits of Forbo Needlefelt:

Extremely robust

- Hard-wearing performance approved in class 33 in accordance with EN 1307.
- GUT seal of approval for "contaminant-tested textile floor coverings."
- Withstands heavy use such as castor chairs in offices or rolling suitcases in airports.

Sustainable

- Our needlefelt backing consists of 100% recycled polyester.
- The high production quality ensures a long lifespan and therefore do not need regular replacement.
- Our high quality polyamide fibres are designed to provide extra protection from dirt and soiling, saving on cleaning costs and contributes to a sustainable building.

Acoustic

- Noise reduction levels between 20dB and 22dB which means reduced ambient noise, ideal for use in places which require a tranquil atmosphere, such as offices.

Electrical resistance

- Enhanced electrical dissipative properties ($\leq 10^7$ Ohm (Ω)) as standard on Forte Sheet and Markant Sheet, giving options suitable for areas sensitive to static electricity such as computer and server rooms.

NEEDLEFELT COLLECTION AT A GLANCE

akzent

The introduction needlefelt sheet quality, Akzent is available in a blend of 80% polyamide and 20% polypropylene fibres, and is designed as a practical, value solution for hard wearing commercial flooring.

markant

A high-quality, coarse-texture needlefelt flooring made of 100% polyamide fibres, equipped with all the characteristics required for hard-wearing performance in frequently used places.

markant graphic city

A modern print "box" design using Markant Sheet as the basis, Markant Graphic City provides an easy and affordable solution to adding design interest to commercial spaces.

forte tile

Combining the ease of handling, optimized installation and maintenance benefits of modular flooring, with all of the durability and economic benefits of a needlefelt floor, Forte Tile is available as standard in a select range of 12 colour options.

forte

Our premium needlefelt flooring range, offering the maximum feeling of comfort in our heaviest weight. The very dense texture, with more than 3 million needle punches per m², guarantees a combination of attractive looks and hard-wearing performance for use in highly-frequented areas. Forte Sheet is available in all 25 colours, a palette of commercial neutral colours and trend led highlights.

akzent

The introduction needlefelt sheet quality, Akzent is available in a blend of 80% polyamide and 20% polypropylene fibres, and is designed as a practical, value solution for hard wearing commercial flooring.

FLOCKED FLOORING IN SHEET, TILE AND PLANK

Flotex represents the next generation of flooring — an innovative flocked technology combining the durability and cleanability of resilient floors with the softness and warmth offered by carpet. It has a smooth, velour like surface that is comfortable to walk on and warm underfoot, with excellent slip resistant and acoustic properties.

flotex® colour

Choice is about possibilities, and choice in design starts with colour. Colour can communicate a message without words, it evokes emotions, creates associations and has the power to effect the whole mood and feel of an environment. Colour is personal and conveys our feelings and values, it is a fundamental part of our freedom to choose. All flotex colour items are available as sheet and tile.

flotex® advance

The Flotex Advance collection features 2 new designs, Latitude and Code, both designed specifically to create a contemporary feel within any space. These designs offer a versatile blend of aesthetics and functionality. All Flotex advance items are available as sheet and tile.

flotex® naturals

This special range of digitally printed Flotex delivers the appearance of a real wood floor but with improved acoustics and reduced maintenance costs. All Flotex naturals items are available as sheet.

FLOTEX SHEET, TILE AND PLANKS COLLECTIONS

flotex® planks

The performance attributes of Flotex along with the design versatility of the Plank collection, make these modular floor coverings ideal for use in workspaces as well as high traffic areas such as call centres, hotels and transport hubs.

flotex® created by

We have been very privileged to team up with some amazing designers. Many have found inspiration from our advanced production methods which in many cases, allow high definition digital printing, enabling the designers to achieve an exact translation of their design vision. All Flotex naturals items are available as sheet.

Flotex, more than any of our products, fulfils our ambition to contribute to creating better indoor environments by committing to the health and well-being of all individuals living and working in indoor spaces. Flotex achieves this through excellent hygiene and sound absorbing qualities, phthalate-free products, the certification by Allergy UK for the positive effects it has on allergy sufferers, and a wide range of stimulating designs and sympathetic colours which can create inspiring interiors.

RELEASED THAN CARPET**

CARPET

Loop and cut pile carpets have a structure that makes removing allergens and fine dust very difficult in comparison to the smooth, straight and almost upright fibres in Flotex flocked flooring.

**STRAIGHT
NYLON 6.6
FIBRES (FLOCK)**

capture fine dust and
allergens which are
easily released when
vacuumed

**PHTHALATE
FREE**

**LOW ROLL
RESISTANCE**

**Up to
80 million
fibres per m²
ensures high
durability**

**up to ≤ 21,8%
(sheet) ≤ 59%
(tiles and planks)
recycled
content**

Flotex sheet

Flotex tile and plank

- 1 Nylon 6.6 pile
- 2 Flock adhesive
- 3 Nonwoven fibreglass
- 4 Closed cell PVC foam
- 5 Fibreglass net reinforcement
- 6 Closed cell PVC foam
- 7 Compact PVC layer
- 8 Compact PVC layer
- 9 Recycled PVC Backing

**Safe and
ultra low
emissions**

**Vacuuming removes
almost DOUBLE the
ALLERGENS compared to
conventional carpet**

FLOTEX SHEET COLLECTION AT A GLANCE

flotex® colour

metro | penang | calgary

Three versatile and fresh designs make up the Flotex Colour collection: Metro, Calgary and Penang. Together they offer a range of 61 unique colourways. All are available in sheet and tile.

flotex® advance

latitude | code

The Flotex Advance collection features 2 designs, Latitude and Code, both designed specifically to create a contemporary feel within any space. These designs offer a versatile blend of aesthetics and functionality. All Flotex advance items are available as sheet and tile. The Flotex advance sheet items have a Flotex Next backing which means it can be installed as loose lay.

flotex® naturals

This special range of digitally printed Flotex delivers the appearance of a real wood floor but with improved acoustics and reduced maintenance costs. Available in sheet.

FLOTEX NEXT LOOSE LAY SOLUTION

Fast flooring solution

The Flotex Next adhesive free flocked flooring combines the incredible performance of Flotex with the benefits of a loose lay installed floor. Not having to use installation adhesive makes Flotex Next very suitable for busy areas: installation time is reduced and there is minimal disruption or lingering adhesive odours. Flotex Next can be walked on immediately after installation.

With Flotex Next only a very short time is needed to prepare the substrate and the installation itself requires a limited number of operations. Only minimal preparation of the subfloor is required and the application of the adhesive and the drying time of the glue do not have to be taken into account. A new floor can be installed with minimal downtime or even without closing the premises.

Product construction

- adhesive free flocked flooring solution
- rapid installation with minimal downtime and disturbance
- can be walked on immediately after installation
- long term benefit of quick removal, replacement and recycling or reuse possibilities

1: nylon 6.6 pile | 2: pile adhesive | 3: fibreglass #1 | 4: fibreglass scrim | 5: compact layer | 6: fibreglass #2 | 7: closed cell PVC backing

Flotex Next - how to order

The Flotex Next construction is available for our Flotex Naturals, Hospitality & Leisure and Created by sheet collections and for all Flotex sheet items in the Vision library.

Each Flotex item has a colourway number. Add the code NX as a suffix behind the colourway number to specify your required Next construction. The minimum order quantity is 50m².

The Flotex Advance sheet items come standard with Flotex next backing so no minimum order quantity and no addition of a suffix. The Flotex next backing can also be glued if required.

Flotex Advance sheet with innovative Next backing for loose-lay or glued installation.
Thanks to its Next backing, the Flotex Advance sheet can be effortlessly installed without the need for adhesive, making it a time and cost-saving solution for both new construction and renovation projects.

Flotex Advance sheet is also suitable for glued installation.

RECOLOURATION OPTIONS

We already created some additional colour possibilities for you to choose from for the Flotex Code design in sheet, so you can order a sample.

Flotex offers the flexibility to recolour Flotex Code and Flotex Latitude with your own colour, in both sheet and tiles.

1. Contact your local customer service to check minimum order quantity
2. Choose your colour reference in Pantone, NCS, RAL or material samples
3. You receive a sample for approval
4. After your approval your custom floor will be produced.

IF YOU WANT A CUSTOM COLOUR FOR YOUR FLOORING, FLOTEX OFFERS FLEXIBILITY IN MEETING THOSE NEEDS

Code s203084 | mineral, s203018 | nickel

Our renewed Flotex Vision Naturals range enables you to create the aesthetic of a real wood or ceramics floor, whilst maintaining the warmth, acoustics and comfort that a carpet offers.

Our state of the art digital printing technique achieves high quality, true to life visuals of wood and ceramic textures.

flotex® planks

seagrass

Organic but linear, with a design ethos rooted in biomimicry. It is naturally inspired and beautifully textured. A classic pattern with natural colours that work well together in a variety of installation methods.

sierra

A fusion of natural textures and undulating bands that mimic the flow of mineral deposits and create a pattern that suggests depth with its layers of natural asymmetry. Strong visual contrast allowing items to be used individually or together to create existing design possibilities.

wood

Inspired by natural wood, this familiar aesthetic takes on a new versatile guise, offering a traditional look in an untraditional format in a range of familiar easy to use tones that can be readily combined to create parquetry effects.

travertine

An organic pattern with a timeless elegance formed from soft ripple-like layers. Its textures and delicate striations give depth and life while veins of detail reinforce its natural origins. A warm palette of colours with subtle tonal shifts give a classic and contemporary feel.

concrete | neo concrete

Highlights of colour and geometric patterning bring new life to this classic, offering a refreshing change to the normal by mixing fun with tradition allowing transitional effects and zoning.

ombré | montage

Strongly textile, subtly textured and shading from dark to light. Ombré colours can easily be combined to make beautiful designs or used with their coordinating Montage colourways to differentiate between areas.

FLOTEX PLANKS COLLECTION AT A GLANCE

converge | converge plain

Areas of woven style pattern combine, joining at angles, creating different facets which contrast in shade or colour, forming abstract shapes and forms at random. Each colourway complemented within a range of all over colours can be used to visually and functionally separate areas within a space helping to define purpose, guide movement, and enhance aesthetics without physical barriers.

intersect

A balance of form and texture, this design weaves intersecting geometric bands into a tactile tapestry with crisp angles and soft faded areas that feel both engineered and organic at the same time.

serif

Inspired by typographic forms this design is created through the layering of characters abstracted into geometric shapes. The resulting pattern gives the impression of a typed layering with overlapping glyphs and letter fragments creating depth and shade.

panama

A richly woven mosaic of colour and character, this design draws from the tactile heritage of tweed. Coloured details intertwine giving the impression of a refined textile texture that evokes natural charm and urban sophistication in equal measure.

calico

Creating the impression of a woven surface, strands of texture intertwine to form a pattern that feels crafted and dimensional. Each thread-like detail creates a grid of warmth and structure, giving the feeling of tactility.

Flotex fulfils our ambition to contribute to creating better indoor environments by committing to the health and well-being of all individuals living and working in indoor spaces. Flotex achieves this through excellent hygiene and sound absorbing qualities, phthalate-free products, the certification by Allergy UK for the positive effects it has on allergy sufferers, and a wide range of stimulating designs and sympathetic colours which can create inspiring interiors.

FLOORCOVERINGS CREATED BY

Forbo Flooring has been very privileged to team up with some amazing designers. Many have found inspiration from our advanced production methods which in many cases, allow high definition digital printing, enabling the designers to achieve an exact translation of their design vision.

flotex® BY STARCK®

Forbo Flooring Systems collaborated with visionary creator Philippe Starck in designing a highly innovative collection of floor covering systems: Flotex by Starck.

flotex® tibor

Forbo Flooring Systems has teamed up with Tibor Ltd. Tibor Reich, the creator of Tibor, was a man ahead of his time. Although these striking patterns date from the 1950's, they could have been designed yesterday.

flotex® sottsass

This exclusive design collaboration between Forbo and Sottsass Association was borne out of the desire to work with an innovative flooring technology and its precision HD printing brings to life the avant-gard designs that clearly carry the Sottsass signature.

mbstudio

Floorcoverings created by José Medina Galeote

José Medina Galeote is a Spanish artist who uses painting and other techniques to reflect on the creative process. By bringing his works of art right under our feet, José Médina Galeote explores new perspectives on various textures, such as textile and vinyl flooring.

Mac Stopa

by MAC STOPA

This collection is based on the idea of architectural modularity and the desire to organize the space around us in an architectural way. This is realised through the use of repetitive geometric forms, such as hexagons, trapezoids or braided structures which form the base of the collection.

flotex® BY STARCK®

Forbo Flooring Systems collaborated with visionary creator Philippe Starck in designing a highly innovative collection of floor covering systems: Flotex by Starck.

Philippe Starck created a collection of 3 systems, named **Vortex**, **Artist** and **Twilight**. Each of them comes in four separate parts that can be freely arranged to create patterns for your project that adapts to your needs and preferences. Using a high definition digital printing technique with the dense fibre surface of Flotex flocked flooring, Starck's collection features unique patterns. By playing on scale and transition, each of the three systems challenges tradition and creates a new language in the perception of interior spaces and floor covering design.

Description	Flocked flooring
Dimensions	Roll width 2m Roll length ≤ 30m
Total thickness	ISO 1765 4.3mm
Slip resistance	Pendulum test Wet – low slip risk
Collection size	6

Impact sound reduction	EN ISO 717-2 ΔLw = 20 dB
CE	EN 14041
Reaction to fire	EN 13501-1 B ₁ -s1
Slip resistance	EN 13893 DS: ≥0.30
Body voltage	EN ISO 10965 < 2 kV

Our recommended adhesive for Flotex Tibor is 540 Eurosafe Special or 640 Eurostar Special. Full technical specifications are available at www.forbo-flooring.com

“Organised chaos of the wind on the field”

Philippe Starck

Vortex is a system of elements that are designed to transform the way we look at space. It provides a flexible solution to enable planning across large and small areas with patterns that freely mix and interchange allowing a contrast between large scale design and semi-plain texture. The Vortex design is available in 6 distinctive highlight colourways.

“Nothing replaces the painter’s hand”

Philippe Starck

Artist is a concept based on the transition of two textures that can be used either individually or together with one colour fading into another. The different parts provide a way of designing and planning space in a subtle but visually engaging way, creating a flow of colour that allows areas to be differentiated whilst maintaining a distinctive look and feel in a building.

“Eternal fight of night and day”
Philippe Starck

Twilight is a play on lights, shadows and colours. A design with two strong powerful and complementary sides ; one jewel like, bright and light and the other as a shadow of deep dark rich shades. They come together in a transition element that creates energy and impact making a bold statement that can both divide and link space simultaneously. The different parts allowing a mix and match flexibility across any size of installation.

TIBOR

ORIGINAL SINCE 1946

Tibor Reich, the creator of Tibor Ltd, received many important commissions, including textiles for the young Queen Elizabeth II and the Festival of Britain, and later for Concorde and the QEII. Renowned for his Deep Texture weaves, which were widely adopted by leading furniture manufacturers, such as G-Plan and Ercol, Tibor also excelled at printed fabrics, notably the highly-acclaimed Fotexur range.

A multi faceted artist, he also designed carpets, wallpapers, ceramics, tiles and vinyl flooring, all in his distinctive co-ordinated style.

Through focusing on texture and line, Tibor's detailed photograph of straw inspired this famous pattern from the Fotexur range. The photograph was taken in the spring sunshine to give the image greater definition and the design deliberately highlights the tonal contrast between light and dark. Co-ordinating broad stripes are available in two colourways.

TIBOR AND THE ART OF FOTEXUR

Hungarian émigré Tibor Reich (1916-1996) was one of the most prominent figures in the British post-war textile industry. A gifted artist and dynamic entrepreneur, he moved to the UK in 1937 to study at Leeds University. Tibor Ltd, the company he founded in 1946, was established at Clifford mill near Stratford-upon-Avon in Warwickshire, England. It was a leading brand throughout the 1950's and 60's.

Texture was the defining feature of Tibor's textiles. As well as his celebrated Deep Texture weaves, he produced arresting screen-printed curtain fabrics, known as texture Prints.

Most of the designs selected by Forbo are from Tibor's ground-breaking Fotexur collection, launched in 1957, winner of the Council of Industrial Design's inaugural Design Centre Award. The 'Fo' refers to photography, while 'texur' evokes texture, both key aspects of these designs.

Close-up photographs of organic materials, such as straw and bark, provided the starting point for Tibor's intriguing Fotexur patterns. A keen photographer, he drew inspiration from the natural world. His eye was attracted to relief patterns and tonal contrasts in unusual places, such as fissures in a dried up river bed. Tibor also photographed his own weaves and used these images in his designs.

The Fotexur process began by screen-printing the photograph on paper, before isolating a section of the image and cutting it into squares or strips. Patterns were created by rotating and re-arranging these repeated motifs in different formations to create energetic and rhythmic compositions. Tibor's bold choice of colour variations provided the final ingredient to these stimulating and eye-catching designs.

Printed on Forbo Flotex in vibrant colours, Tibor's innovative Fotexur designs have a timeless feel, despite dating back 70 years.

flotex® tabor

mosaic

Tabor often incorporated richly-textured 'fancy yarns' into his weaves to create tactile effects. For this pattern Tabor photographed a sheer fabric made from slub yarn. The uniformity of the grid contrasts pleasingly with the randomness of the loops. Co-ordinating stripes available in two colourways.

flotex® tibor

onyx

Although this pattern resembles marble, it was actually inspired by a photograph of cracked mud in the riverbed next to Tibor's Clifford Mill. One of his most famous Fotexur designs, it was originally used for a woven carpet called Padua, so it is particularly apt that it is now being used for decorative flooring once again. The majority of colourways work in pairs as positive and negative variations.

flotex® tiber

arbor

Like all Tiber's Fotexur patterns, the starting point for this design was a crisp black and white photograph taken by the designer himself. The image, recording the rough striated bark of an oak tree, is ruggedly textural, providing the perfect foil for varied coloured overlays.

flotex® tibor

atomic

This design, derived from a photograph of an atomic structure, symbolises the period known as the Atomic Age. Part of the Colatomic range, launched in 1960, it reflects Tibor's dual interests in colour and texture. It also reflects the impact of Abstract Expressionism, which was very popular in the art world at the time.

flotex® sottsass

At the crossroads of art, design and architecture, the work of Ettore Sottsass represents the birth of non-conformist Italian design, somewhere between the industrial and the experimental. A prominent figure in Italian design since the 1950's, this ingenious free thinker sought to explore every creative avenue with a non-conformist attitude that was both assuming and audacious.

Whether designer, architect, sculptor, artist or photographer, Ettore Sottsass has left his mark and his commitment in his global view of the environment and space, through his sculptures, jewellery, artwork, furniture, and industrial objects. Today, many designers and architects emulate his spiritual heritage, radical in its stance against functionalism.

The exclusive design collaboration with Flotex was borne out of the desire to work with an innovative flooring technology and its precision HD printing brings to life the avant guard designs that clearly carry the Sottsass signature.

Sottsass 990701 | terrazzo

flotex® sottsass

bacteria

Bacteria is a development of one of Ettore Sottsass' signature designs, created in the late 1970's, a forerunner of the current modern age of nano technology and genetic engineering. Optically challenging, the design is open to wide interpretation, close up amoebic forms sway and shift yet from afar it appears as a constellation of distant stars. Bacteria is available in 20 colourways.

Pattern repeat 200cm x 150cm.

flotex® sottsass

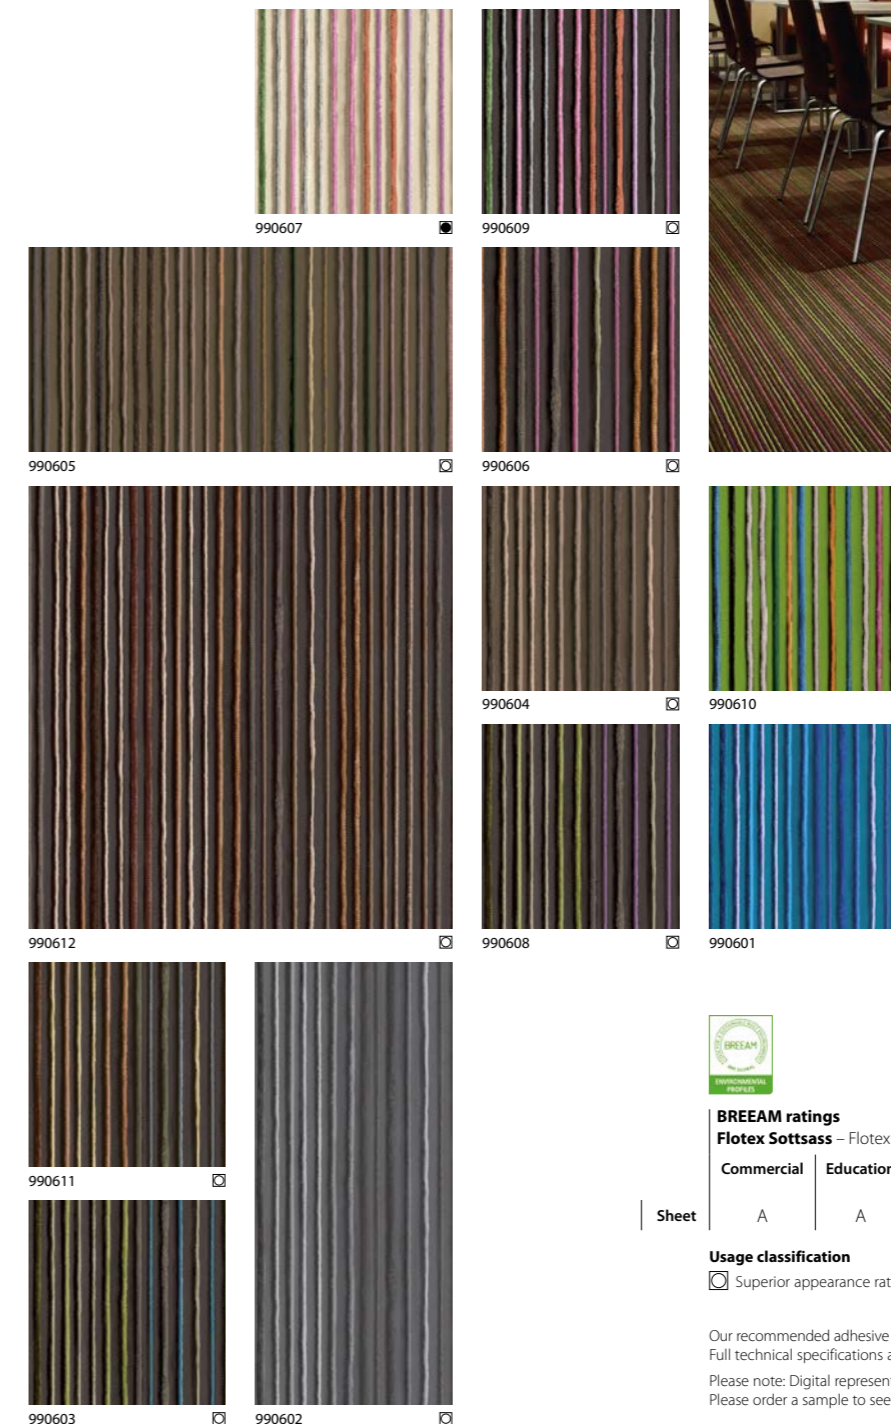

wool

The Wool design was conceived by Ettore Sottsass when he laid filaments of wool yarns, collected from various countries, onto a flat, coloured surface. It plays on the textures of the individual strands of the natural fibres to give a sense of depth and warmth to the floor along with a defined linear pattern that can dramatically shift the perspective of interior spaces. Wool is available in 12 colourways.

Pattern repeat 200cm x 150cm.

flotex® sottsass

terrazzo

Terrazzo by Sottsass is a witty “twist” on the concept of Italian Terrazzo (a traditional flooring created several hundred years ago when Venetian workers found a use for discarded marble remnants). Sottsass Association has developed this idea to give the impression of a beautifully laid Mediterranean terrazzo floor. However, on closer inspection, the “chips” in Terrazzo are revealed as pieces of torn paper – each holding its own story – a shredded love letter or a business document? It’s left to the individual to decide and to create their own narrative. Terrazzo is available in 13 colourways.

Pattern repeat 200cm x 150cm.

Flotex Sottsass Terrazzo 990701

© Forbo / José Medina Galeote

José Medina Galeote is an artist who uses painting and other techniques to reflect on the creative process. In his work he first establishes themes sometimes stimulating, sometimes provoking, in which the roles of artist and spectator are interchangeable. In his deep reflection on art in general and on painting in particular, José Medina Galeote undertakes an optical experimentation building a particular aesthetic which distinguishes it, both stylistically and in terms of the ideas it carries. Within his work there are clear references to the minimal and conceptual art of the sixties as he raises the question of the very concept of representation reality.

In 2011 The Contemporary Art Centre of Málaga organized an exhibition of his work and has also exhibited in many renowned exhibitions, notably at the Centre Pompidou in Málaga. The collaboration of José Médina Galeote and the design teams of Forbo Flooring Systems gave birth to an unique collection of flooring in which the artist' creations are given a new dimension through the medium of flooring. By bringing his works of art right under our feet, José Médina Galeote explores new perspectives on various textures, such as textile and vinyl flooring. Thanks to high definition printing techniques, Forbo Flooring Systems can bring the creations of José Médina Galeote to life on any floor.

The choice of which type of flooring is up to you :

- The warmth and comfort of Flotex flocced textile
- The extreme resistance of Eternal compact heterogeneous vinyl
- The acoustic comfort of Sarlon 15 dB and 19 dB
- The ease and speed of installation of Modul'up 19 dB

	FLOCKED FLOORING	ORDER ON DEMAND please contact your local sales for detailed information						
flotex®	Flotex Flocked Flooring is a unique, innovative flocked flooring that combines the hard wearing & durable characteristics of a resilient floor with the quality, warmth and comfort of a carpet. Discover the toughness and durability of Flotex which comes as a result of the 80 million nylon 6.6. fibres per m ² , while experiencing the quietness and comfort normally only associated with a carpet as a result of the impervious cushioned backing.	To order your floor as a flotex floor use the colour code from the flotex designs and add an « F ». So with 340004F you order design patchwork in the colour pastel in Flotex <table border="1"> <tr> <td>340004</td> <td>F</td> <td>= 340004F</td> </tr> <tr> <td>colour number</td> <td>product type</td> <td></td> </tr> </table> Minimum order quantity: as of 6m²	340004	F	= 340004F	colour number	product type	
340004	F	= 340004F						
colour number	product type							
sarlon®	Sarlon 15dB acoustic vinyl, the hybrid solution without compromise. Sarlon 15 dB is a unique flooring solution for areas with high acoustic and high load requirements. The Sarlon 19dB range is the perfect flooring solution for sound reduction. It offers the best possible acoustic properties along with a residual indentation that is best in class for acoustic flooring solutions.	To order your floor as a sarlon or modul'up floor use the colour code from the vinyl designs and add a suffix as indicated below: « T19 » for sarlon 19dB « T15 » for sarlon 15dB « UP19 » for modul'up 19dB « UPC » for modul'up compact So with 340004UP19 you order design patchwork in the colour pastel in Modul'up 19dB <table border="1"> <tr> <td>340004</td> <td>UP19</td> <td>= 340004UP19</td> </tr> <tr> <td>colour number</td> <td>product type</td> <td></td> </tr> </table> Minimum order quantity: as of 30m²	340004	UP19	= 340004UP19	colour number	product type	
340004	UP19	= 340004UP19						
colour number	product type							
modul'up®	Modul'up 19 dB loose lay vinyl is committed to the future. Modul'up is the best loose lay floor covering available for high traffic applications. It can be installed quickly without adhesives, and is even more time and cost efficient at time of replacement.							
eternal®	This vinyl sheet collection has been created to work across a wide variety of application areas. Create any desired atmosphere in every space. For every moment of the day Eternal offers the ideal solution: at work, school and in the gym.	To order your floor as eternal floor use the colour code from the vinyl designs and add an « E ». So with 340004E you order design patchwork in the colour pastel in Eternal <table border="1"> <tr> <td>340004</td> <td>E</td> <td>= 340004E</td> </tr> <tr> <td>colour number</td> <td>product type</td> <td></td> </tr> </table> Minimum order quantity: as of 30m²	340004	E	= 340004E	colour number	product type	
340004	E	= 340004E						
colour number	product type							

'As an architect, interior designer and designer of transmission forms, this collection is inspired by my experiences, observations and fascinations derived from a variety of design fields. These ideas have been visualised in partnership with Forbo Flooring through the medium of high resolution digital printing both on textile and vinyl substrates. Each one giving it's unique characteristics to my imagery.

I have based the collection on the idea of architectural modularity and the desire to organize the space around us in an architectural way. This is realised through the use of repetitive geometric forms, such as hexagons, trapezoids or braided structures which form the base of the collection.

My experience in Interior design has inspired me to combine those structures with the textures of classic interior materials such as wood, fabrics, metal and leather.

As a designer of industrial forms, I am fascinated by organic structures but also new technologies related to 3D printing. By combining these elements with the geometric shapes, the designs I have created achieve a quality of softness and three-dimensionality.

When designing, I like to experiment, I observe the beauty of nature and the physical phenomena that surround us. This often becomes the inspiration for new projects. A unique artistic interpretation.

Throughout the collection there is a recurrent theme based on the variable colours of adjacent modular forms. In nature this is associated with the refraction and absorption of light reflections. I have used it as a design tool, giving each pattern dimension and subtlety which, when combined with the traditional familiarity of modular patterning, creates an exciting fusion of classic form and 21st century technology.'

CHOOSE THE TYPE OF FLOORING THAT SUITS YOUR PROJECT. You can find all technical information about these product constructions on our website under www.forbo-flooring.com/macstopa

FLOWER

Geometric yet seemingly organic, Flower combines elements that both challenge and reassure us in a way that provokes thought and discussion blurring the space between nature and design.

Custom flooring

Can't find what you are looking for despite our wide product range? No worries, we have more. Within our Bespoke Design flooring you can design your own unique floor with our digital print techniques in Flotex, project vinyl and Coral entrance flooring and the refined Aquajet cutting technique for Marmoleum flooring.

Flotex vision

Forbo offers a unique Flotex collection of over 500 digitally printed designs in high level photographic resolutions. Flotex flocked flooring is a unique floor covering that combines the hard wearing and durable characteristics of a resilient floor with the comfort and warmth of a carpet.

Eternal bespoke

Our advanced digital printing technology enables striking floor visuals that cannot be achieved with conventional print techniques. It enables you to design your own unique floor in the high quality of our heterogeneous vinyl sheet flooring.

Designing with Marmoleum

Are you looking for something unique on your floor? That is also sustainable and durable? Our Designing with Marmoleum selection offers you just that. With our Aquajet technique we can create the most precise and detailed floor designs. From laser engraved Marmoleum tiles to exciting designs created by international designers. Explore your options below!

Coral logo entrance flooring

Great looks for a great welcome. Forbo offers a bespoke print and cut-out design service to create your own unique entrance mat. Forbo Coral Logo entrance flooring will retain its looks whilst keeping out dirt and moist for years to come

We have many options to customise your floor. This graph shows you the extensive possibilities, we invite you to visit our website and find out which solution fits you best or contact our local customer service department to help you out.

Flotex vision & Eternal bespoke

The **digital** world of **Flotex** and **vinyl**

High definition digital print

With a smooth, velour like surface that looks and feels like a carpet, Flotex is the perfect substrate for vibrant designs and true to life visuals which can be produced in high level photographic resolution. All desired colour shades and hues can be achieved.

Fantastic effects

Digital print offers an infinite number of design options ranging from abstracts with intricate colour spectrums to realistic images of natural materials like sand, grass and water. Create 3D depth or a "trompe d'oeil" effect on your floor. Or bring nature into your room by choosing a floor covering with autumn leaves or flowers.

Endless design options

Digital printing is also well suited for those collections that require visual detail and effects that cannot easily be reached through conventional print. Our Flotex custom flooring collection contains more than 500 individual items.

Colour your own

Do you like the design, but you cannot find the colours you want?

A large number of designs can be recoloured to perfectly match the colour selection you prefer!

Bespoke design

You can also create something bespoke for a truly individual solution. Whether it be photography, commercial branding or specific Pantone references, we can work to match your requirements. We offer a bespoke design service on request, please contact your local sales representative for more information.

Marmoleum Imagine

Did you know you can make the most refined floor designs with Marmoleum? For Marmoleum Imagine we asked 3 international designers to create a series of Marmoleum designs, made possible by our refined Aquajet cutting technique. The designs can be customized on request which allows for endless design possibilities. Get inspired by clicking through our digital magazine or read more below.

Marmoleum meets mendini

In close cooperation with the Italian architect and designer Alessandro Mendini we have created 3 unique Marmoleum designs that reflect his pointillist style: Proust, Harlekino and Plato. The 3 designs are available in a bright, contrasting variant and one of more subdued, greyish tones, both in the same geometric pattern. "The commission from Forbo Flooring gave me the opportunity to design a Proust floor in Marmoleum. The variations are keyed in such a way that they are easily recognisable and can be used one after the other."

Marmoleum Tailor Made

With Marmoleum flooring you can make the most refined floor designs. Our very precise Aquajet cutting technique offers a sophisticated detailing in designs, perfect to create your own identity on your floor; a logo, a text, a piece of art. Or choose tailor made laser engraving, with which your own design can be lasered on the linoleum. Explore your possibilities below.

Coral logo entrance flooring

Great looks for a great welcome. Forbo offers a bespoke print and cut-out design service to create your own unique entrance mat. Forbo Coral Logo entrance flooring will retain its looks whilst keeping out dirt and moist for years to come

Your entrance flooring system can be enhanced by using Forbo's Coral Logo to express your company logo or identity. For this we offer:

- Highest functional performance on the market
- Unlimited possibilities
- Hassle free order process
- A Coral entrance system is an investment not a cost as it reduces the time spent cleaning the interior floor coverings by up to 65%
- Available in standard and custom dimensions

Where other logo mats tend to fade and get dirty very quickly, a Coral logo mat will retain its looks and continue to impress for many years because it has all the qualities and performance characteristics of our standard Forbo Coral products. The secret of its success is in the construction. Unlike many other bespoke mats, Coral logo is produced with high quality matt yarns which prevent tracking and soiling.

To view all our bespoke designs go to: www.forbo-flooring.com/customflooring

Inset logo mat

Choose your product

Depending on the colours and designs required to suit your corporate identity, you can make a choice between a printed or an inset logo mat. Please contact your local customer service department to find out how easy it is to personalise your entrance or promotion area or email info.bespokedesign@forbo.com.

Our recommended adhesive for Coral Logo is 540 Eurosafe Special. Full technical specifications are available at www.forbo-flooring.com
Please note: Digital representations may vary from the actual product. Please order a sample to see the full effect.

Inset logo mat (image above)

- Ideal for extreme traffic conditions and maximum functional performance
- Choose from any colour from the standard Forbo Coral ranges for the base background and logo colours
- Excellent performance because of Coral quality entrance matting
- Easy to combine as inlay in larger Coral installations

For more information on how to order the Coral Logo mats please contact your local Customer Service department.

Monique Kooijmans

Printed logo mat

- Excellent visual quality and bright, attractive colours
- Perfect for complicated designs featuring multiple colours
- Choose from any of the colours shown above plus Pantone and RAL colour matching
- Stays flat on the floor, causing less trips, due to heavy vinyl backing
- Long lasting and high resistance to sun light.
- Excellent performance in removing dirt from your shoes.

The printed logo mat is available in 7 standard mat sizes (sizes with edges): 55x90, 105x155, 105x300, 155x205, 155x300, 205x205 & 205x300 (cm), and also in special sizes up to 192 cm wide (without edges).
