| Consistency | Liquid.                                       |

- Ready for use-Completely biodegradable
- Free of ammonia
- User friendly
- Rinse no longer necessary
- Leaves no residue

### PROPERTIES

|              |                                                                                                                                                                                                           |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Consumption  | Approx. 100 g/m <sup>2</sup> .<br><br>Due to the large variety of possible subfloors and porosity of the subfloor that is to be treated, the exact spreading capacity is to be determined on the project. |
| Flammability | Non-flammable.                                                                                                                                                                                            |

### APPLICATION

For degreasing:

- ceramic tiles
- marble
- terrazzo and wooden floors
- linoleum
- swimming pools
- concrete enamel etc.

As a rapid cleaner for removing dirt, grease, oil, diesel-oil, ink and nicotine-residues.

### PROCESSING

|         |                                                           |
|---------|-----------------------------------------------------------|
| Storage | Store free from frost. Protect against high temperatures. |
|---------|-----------------------------------------------------------|

014 EUROCLEAN

|                         |                                   |
|-------------------------|-----------------------------------|
| Shelf Life              | 12 months, in unopened packaging. |
| Application temperature | > 0 °C.                           |

*\* The stated values are laboratory values which, given the large variation in climatological conditions, subfloor compositions and layer thicknesses, are only guideline values.*

#### Instruction manual:

- Make the subfloor dust free with a broom, brush or vacuum cleaner.
- Apply 014 Euroclean undiluted on the subfloor and allow a short period to soak. Scrub any tough dirt and grease with a stiff brush (brushmachine).
- Thereafter remove the pollution by means of a water vacuum cleaner or with a cotton cloth. The cotton cloth should be rinsed and wrung out after each exposure.
- In the case of stubborn contamination, the above actions must be repeated to ensure good adhesion to the substrate.

## ENVIRONMENT AND HEALTH

|                        |                                                                                                                                                           |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hazard Class           | None.                                                                                                                                                     |
