Training adapted of your needed and request

• 7 training session with short duration of 2 to 5 days.
• short theoretical part and a long practical part.
• 2 levels: standard installation or technical installation
• Please find below the list of the different training sessions offered:
  - PVC training (standard or technical)
  - Linoleum (standard or technical)
  - Wetroom system (floor and wall)
  - Looselay system
  - Conductive & dissipative installation
  - Cleaning & Maintenance training of all resilient floorcovering
  - Sales reps

Forbo has 2 training center to welcome you:
Reims - Montpellier

PVC training
Standard Installation
This training introduces you to the conditions, preparations and installations of welding (cold & hot) of PVC floorcovering. A presentation of manual & mechanical cleaning and maintenance methods will allow you to advise your clients. PVC family which will be presented are: Sarlon habitat - Primeo modal.

Technical Installation
This training improves you to the conditions, preparations and hot welding realization of PVC floorcovering including coved skirting. A presentation of manual & mechanical cleaning and maintenance methods will allow you to advise your clients. PVC family which will be presented are: Sarlon trafic - Sarlon Tech - Sarlon complete step.

Linoleum training
Standard Installation
This training aim to train professionals in the technical installation of Marmoleum in its different type by using appropriate tools. A presentation of manual & mechanical cleaning and maintenance methods will allow you to advise your clients. Linoleum product which will be presented are: Marmoleum 2.5 mm in sheet - Marmoleum modular.

Technical Installation
This training aim to improve confirmed professionals in linoleum installation or professionals who participated at the first training. This training will initiate trainee to the tips of technical details and specific inlay.

To get more information about training sessions, please contact your sales reps.
PRODUCTS APPS

3 APPS TO HELP YOU TO PREPARE YOUR INSTALLATION WITH SERENITY: FIND EASILY ADHESIVE, WELDING ROD AND SKIRTING ASSOCIATED TO YOUR FLOORCOVERING.

**Adhesives**

An installation in Sarlon Trafic, Marmoleum, Flotex… ? Know the Forbo adhesive recommended and its quantity for a safely installation. Fill the surface and the calculation tools will indicate you the adhesive and the number of bucket to order.

**Welding rod**

A lonely welding rod? Or a sheet of floorcovering must be installed but no welding rod? Find the reference of welding rod there is on the box/coil (e.g: VW147) and see with which floor(s) the welding is associated.

**Skirtings**

**Flash-me !**

[QR Code for Adhesives](#)

[QR Code for Welding rod](#)

[QR Code for Skirtings](#)
Forbo overall
Ref.: 230 + size
With extendable back. Particularly suitable for laying flexible flooring: knee pad holder, pencil holder, various pockets. Different sizes are available (some sizes on demand).

Knee pads
Ref.: 145
Foam knee pads for overalls.

Ball dampness meter compact B
Ref.: 175
Perfect for pre-test before calcium carbide test. Fast and non-destructive indication of moisture. Can be used on all subfloor. High frequency measurement.

Dampness meter pointes
Ref.: 229
To assess whether or not there is any moisture in the support and determine its percentage.

Forbo carryset
Ref.: 134
Destiné au transport et au déroulement (grâce à son pied dépliable) des rouleaux de revêtements de sol. Se compose de 2 parties (une gauche et une droite composées chacune d’un étrier de transport, d’un pied dépliable et d’un tube à 2 plaques octogonales).

Notched spreader (A1 - A2 - B1)
25 cm wooden handle (box of 10 notched spreader)
Ref.: 182 (A1) / 183 (A2) / 184 (B1)
Allow to apply right adhesive quantity for each floorcovering.

CM bottle box
Ref.: 228
To determine the precise humidity percent in a concrete slab or floor. (in accordance with the DTU53.2 requirements).

Stainless steel convex ruler set
Ref.: 201
Set of 1x0.60m, 1x2.10m in one box h.8cm/diam.20cm.

Knife with 5 blades
Ref.: 202 straight blades
Ref.: 203 hook blades
In aluminium with plastic sheath (with 5 straight blades or 5 hook blades).

Unrolling Rolly A4
Ref.: 166
Mini unrolling fixed trolley. For floor covering unrolling. Rustproof steel structure. A4 dimension. 2 roly are recommended for a perfect unrolling.

Forbo trimmer
Ref.: 103
Makes a clean edge to strips so that clean joints can be made. It also cuts 5, 10, 15, 20, 25 and 30 mm wide decorative strips (using the different block provided).

</table>
Groover
Ref.: 115
Groove the joints for hot welding operation.

Blades for groover (x10)
Ref.: 116
Spare blades with round U-end for groover. Hardened steel blade.

Forbo - Groover
Ref.: 133
for easy grooving operation of joint before hot welding. Can fit on a thermal heater.

Little groover for Floor&Wall
Ref.: 167
Ergonomic groover with 2 adjustable blades (3.5mm blades). Easy to use. Grooved up to skirting. Perfect to groove PVC wall covering.

Thermogroover
Ref.: 105
For grooving with straight or curved embedding, edge of skirting... It fits on the fast welding nozzle and makes grooving easier by heating. Uses blades for groover.

LINO fast welding nozzle
Ref.: 121
For hot welding with diameter of 4mm.

PVC fast welding nozzle
Ref.: 119
For hot welding with diameter of 4mm.

Triangular fast welding nozzle (wall)
Ref.: 207
Particularly suitable for wall coverings and also lacquered PVC flooring.

Welding car
Ref.: 192
Professional tool to make an easier job with hand hot air tools. For short lanes as well as large areas. Due to front and back rollers the system can lead stabilised in the grooved seam. Working angle adjustable.

Nozzle brush
Ref.: 197
To remove melted rod residues from nozzle.

Quarter moon knife
Ref.: 117
For trimming hot weld in two steps (with trimming guide)

Trimming guide
Ref.: 118
For trimming hot weld in two steps (with quarter moon).

Sherpening stone
Ref.: 174
To sharpen quarter moon knife.

MOZART trimmer
Ref.: 190
For trimming hot weld in two steps with a single tool. (perfect for compact and wall PVC).
Forked trimmer
Ref. : 214
For trimming the weld bead while avoiding surface relief. Trimmer particularly suitable for shower system floors.

Blades for trimmer (x2)
Ref. : 208 (6mm) / 209 (12mm) / 210 (flat) / 211 (pointed)
Blades for difficult trimming.

MOZART Blades
Ref. : 191
Blades for Mozart trimmer (x5).

Trimmer for difficult trimming
Ref. : 120
For trimming hot weld in corners, skirting upstand and back of step.

Forked trimmer
Ref. : 214
For trimming the weld bead while avoiding surface relief. Trimmer particularly suitable for shower system floors.

Blades for difficult trimming.
Ref. : 120
For trimming hot weld in corners, skirting upstand and back of step.
Tools

Hot air Electron
Ref. : 216
To heat profile in PVC and floor in PVC and Linoleum for an easier installation.

Resistance for Electron
Ref. : 216R

Hot welding gun TRIAC ST
Ref. : 217
For making welds in flexible flooring.
Power 1600W.
Weight 1.4kg.

Resistance for TRIAC ST
Ref. : 217R

Hot welding gun HOT JET S
Ref. : 218
Particularly suitable for welding wall covering.
Power 460W.
Weight 0.6kg.

Resistance for HOT JET S
Ref. : 218R

KFU1000E groover
Ref. : 125
For clean grooving with adjustment of the cutting height (0 to 4.5mm)
Power 900W.
Weight 4.9kg.
Safety system.
Guid disc and recovery bag.

MINI FLOOR
Ref. : 193
Automatic welder for Triac welding gun. Easy to use and to transport (3.5kg).
Delivered without welding gun.
Mitre shear  
Ref.: 158  
Mitre shear for cutting skirting and profiles.

Hot-melt adhesive gun  
Ref.: 148  
To install skirting easily with a clean, perfect and strong adhesion.

Adhesive sticks for hot-melt adhesive gun 5kg/68 sticks  
Ref.: 152  
68 sticks in a plastic bucket (5kg) to glue 340 to 410 m of skirting.

Skirting mitre tool  
Ref.: 153  
For notching of decorative skirtings.

Complete PVC laying case  
Ref.: 219  
Case containing the essential tools to install PVC floorcovering.

Complete linoleum laying case  
Ref.: 220  
Case containing the essential tools to install linoleum floorcovering.

- 1 cork block & 1 hammer for bonding  
- 2 knives (5 straight & 5 hooked blades)  
- 1 ruler + box  
- 1 skirting trimmer  
- 2 fast nozzle (PVC & triangular)  
- 1 groover + 10 blades  
- 1 quarter moon + trimming guide  
- 1 trimmer for difficult trimming  
- blades for difficult trimming  
  - diam 6 (x2)  
  - diam 12 (x2)  
  - flat (x2)  
  - pointed (x2)  
- 1 long and 1 short scribe (with blades and spare tips)  
- 1 cork bonding block  
- 2 knives (5 straight & 5 hooked blades)  
- 1 ruler + box  
- 1 thermogroover  
- 1 linoleum fast nozzle  
- 1 quarter moon + trimming guide  
- 1 trimmer for difficult trimming  
- blades for difficult trimming  
  - diam 6 (x2)

The essential of adhesive for Marmoleum®

Resin free wet bonding adhesive  
**Ref.:** MarmoGL  
Gumming time from 0 to 5mn. Open time from 15 to 20mn.  
Consumption: 350 to 400 g/sqm.  
It is recommended that a regularly replaced and recut type TKB/B1 notched spatula should be used.  
The minimum working temperature is +10°C (recommended + 15°C).  
The adhesive can be kept for 12 months in an ambient room.  
The maximum relative humidity of the air shall be 70% (recommended < 65%).  
Bucket of 14kg.

Resin free wet bonding adhesive, solvent free and low VOC  
**Ref.:** MarmoGL green  
Gumming time from 0 to 5mn. Open time from 15 to 20mn.  
Consumption: 300 to 350 g/sqm.  
It is recommended that a regularly replaced and recut type TKB/B1 notched spatula should be used.  
The minimum working temperature is +10°C (recommended + 15°C).  
The adhesive can be kept for 12 months in an ambient room.  
The maximum relative humidity of the air shall be 70% (recommended < 65%).  
Bucket of 11kg.

Acrylic adhesive in solvent-free aqueous dispersion  
**Ref.:** V40 green  
Gumming time from 5 to 20mn. Open time from 50 to 60mn.  
Consumption: 250 to 300 g/sqm for Marmoleum decibel.  
Consumption: 350 g/sqm for Marmoleum modular.  
It is recommended that a regularly replaced and recut type TKB/A2(decibel) and B1 (modular) notched spatula should be used.  
The minimum working temperature is +15°C to 25°C.  
The adhesive can be kept for 15 months in an ambient room.  
The maximum relative humidity of the air shall be 70% (recommended < 65%).  
Bucket of 13kg.

Kit LINO Doctor  
**Ref.:** 3159  
Repair adhesive for bumps and bubbles of installed marmoleum floorcovering with jute backing.  
**Repair set:** 1 bottle (500ml) + 2 injection syringe.
Preformed Marmoleum® skirting and corners

All of the Marmoleum skirtings/strips are available on demand (please see the terms for special page 41 or contact your customer service).

Marmoform skirting 2,5 mm
Ref.: skirting + floor reference
Box of 13 skirtings of L:2,4m x l:5cm x h:10cm (31,2m per box).

Marmoform inner skirting 2,5 mm
Ref.: inner corner + floor reference
Box of 7 corners L:14x14cm x l:5cm x h:10cm.

Marmoform outer skirting 2,5 mm
Ref.: outer corner + floor reference
Box of 7 corners L:10x10cm x l:5cm x h:10cm.

Marmoform skirting 2 & 3,2 mm
Ref.: skirting + floor reference
Box of 13 skirtings of 2,4m (31,2m per box).

Marmoform inner skirting 2 & 3,2 mm
Ref.: inner corner + floor reference
Box of 7 corners L:14x14cm x l:5cm x h:10cm.

Marmoform outer skirting 2 & 3,2 mm
Ref.: outer corner + floor reference
Box of 7 corners L:10x10cm x l:5cm x h:10cm.

Decibel Marmoform skirting
Ref.: skirting + floor reference
Box of 13 skirtings of L:2m x l:5cm x h:10cm (26m per box).

Allow a fast and easy installation to ensure a perfect junction when a coving up to the wall is requested.

N.B.: a difference of batch is possible between the floor and the skirting.

Marmoleum® strips
Ref.: Marmostrip W + floor reference
Per unit. Length of 2,40m, height of 5,5cm including 2,5mm of uni marmoweld.

Linoleum strips enable a stylish and functional junction between the wall and the floor.
Forbo’s Marmostrip W provides hygienic, practical and elegant flooring.
MarmoGL or MarmoGL green adhesives is used for gluing.

Marmoweld
Ref. uni: LD + floor reference
Ref. multicolour: MC + floor reference (on some references)
Coil of 50m.

Welding allow the junction between strip edges.
A groove is formed and the weld is then applied using a hot air gun fitted with a fast welding nozzle.

Marmoleum® Click MF skirting of 55mm in height is a range of MDF skirting with Marmoleum facing. Installation is done with skirting glue gun or a laying adhesive.
The essential of installation for LVT

Knife with 5 blades
Ref. : 202 straight blades
Ref. : 203 hook blades
In aluminum with plastic sheath (with 5 straight blades or 5 hook blades).

Pressure roller
Ref. : 188
With 26 ball bearing for comfortable and firm pressing the seam when laying LVT flooring. Through the patented design an optimized force distribution is reached, the seam can be pressed bubble-free up into the edge area. Working width 130mm.

Anti-bounce hammer for LVT
Ref. : 165
For assembling LVT click planks together. Shocks absorbed. Does not leave marks.

LVT guillotine
Ref. : 178
For cutting LVT floorings up to 6mm. Max cutting width 210mm. Cutting angle 0-45°.
The essential of adhesive for LVT

Colle acrylique en dispersion aqueuse sans solvant
Ref.: V40 green
Gumming time from 5 to 20mn. Open time from 50 to 60mn.
Consumption: 250 to 300 g/sqm
It is recommended that a regularly replaced and recut type TKB/A2 (notched spatula should be used).
The minimum working temperature is +15°C to 25°C.
The adhesive can be kept for 15 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%).
Fût de 13 kg.

Tackifier for looselay tile with PVC backing with very low VOC emission
Ref.: V42 green
Gumming time is approx 20-40 mn until transparency.
Consumption: 100 to 120 g/m². Micro-fiber roller is recommended.
The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%).
Bucket of 10 kg.
Profile

Adapting profile
Adapting profile for LVT floors from 3.5 to 6.5mm.
Box of 10 lengths of 1m (10m/box).
Ref.: s576 brushed aluminum

Connecting profile
Connecting profile for LVT floors from 3.5 to 6.5mm allowing splitting when it is necessary.
Box of 10 lengths of 1m (10m/box).
Ref.: s578 brushed aluminum

Border profile
Border profile for LVT floors from 3.5 to 6.5mm allowing to hide the gap requested from click product.
Box of 10 lengths of 1m (10m/box).
Ref.: s577 brushed aluminum
Matching skirting & ending caps

Matching skirting
100% PVC skirting height 60mm coordinated with all reference of Allura combine collection (collection which include allura dry back, allura flex and allura click). High definition printing mass tinted.

Box of 10 lengths of 2,50 m (25m/box)

Ending caps
Allow to realize a perfect finishing. Bags of 50 ending caps (25 left & 25 right)
The essential of installation for glued PVC

Stainless steel convex ruler set
Ref. : 201
Set of 1x0.60m, 1x2.10m in one box h.8cm/diam.20cm.

Quarter moon knife
Ref. : 117
For trimming hot weld in two steps (with trimming guide)

Knife with 5 blades
Ref. : 202 straight blades
Ref. : 203 hook blades
In aluminum with plastic sheath (with 5 straight blades or 5 hook blades).

Trimming guide
Ref. : 118
For trimming hot weld in two steps (with quarter moon).

Forbo trimmer
Ref. : 103
Makes a clean edge to strips so that clean joints can be made. It also cuts 5, 10, 15, 20, 25 and 30 mm wide decorative strips (using the different block provided).

Cork bonding block
Ref. : 205
For bonding hammering without leaving any marks. Dimensions : 300 x 120 x 25mm. Made of cork. Essential for laying flexible flooring.

Groover
Ref. : 115
Groove the joints for hot welding operation.

Hot welding gun TRIAC ST
Ref. : 217
For making welds in flexible flooring. Power 1600W. Weight 1.4kg.

PVC fast welding nozzle
Ref. : 119
For hot welding with diameter of 4mm.

Skirting trimmer
Ref. : 206
Easy and fast trimming of the skirting without marking.

MOZART trimmer
Ref. : 190
For trimming hot weld in two steps with a single tool. (perfect for compact and wall PVC).
The essential of adhesive for PVC glued

Acrylic adhesive in solvent-free aqueous dispersion
Ref.: V22
Gumming time from 10 to 15 mn. Open time 60 mn.
Consumption: 250 to 300 g/m².
It is recommended that a regularly replace type A2 notched spreader should be used.
The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%).
Bucket of 13 kg.

Acrylic adhesive in solvent-free aqueous dispersion and very low VOC
Ref.: V22 green
Gumming time from 10 to 15 mn. Open time 60 mn.
Consumption: 250 to 300 g/m².
It is recommended that a regularly replace type A2 notched spreader should be used.
The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%).
Bucket of 13 kg.

Contact glue, very powerful, waterbased and very low VOC
Ref.: ContactGL green
Consumption: 150 g/m² per pass
A very finely notched regularly replaced or recut A1 trowel or brush is recommended.
The minimum working temperature is +10°C.
The adhesive can be kept for 12 months in an ambient room.
Bucket of 7,5 L

PVC welding rod
Ref.: flooring reference
Welding rod for the junction between strip edges
Coil of 50 (sarlon - surestep - eternal - novilux - onyx - sphera)
Coil of 100 m (colorex)

Coldwelding type A
Ref.: 869301
This treatment is recommended for floorings.
Consumption: 1 tube for 20 linear meter.
Box of 30 tubes of 44g
Technical profile

Single overlap finish profile
Ref.: 3112 grey
This profile is placed at the top of the skirting upstand. It covers the top edge of the skirting upstand and is perfectly watertight. Suitable for painted wall.
Box of 50 lengths of 2m (100m/box)

Double overlap finish profile
Ref.: 3111 grey
This profile is placed at the top of the skirting upstand. It covers the top edge of the skirting upstand and is perfectly watertight. Suitable in association with protection wall.
Box of 50 lengths of 2m (100m/box)

Shock resistant finish profile
Ref.: 3128 grey
This profile is used as a finish element for the top of a skirting upstand for PVC or Linoleum flooring. It can also absorb shocks from rolling objects or single-disk machines.
Box of 50 lengths of 2m (100m/box)

Ceramic tile / PVC skirting junction
Ref.: 3137 black / 3138 grey / 3139 white / 3140 brown
This profile is placed before the first row of ceramic wall tiles and before the skirting upstand. It provides a waterproof joint between ceramic tiles and the flexible flooring in wetrooms.
Box of 50 lengths of 2.5m (125m/box)
Technical skirtings

Ventilated skirting for damp support
This profile is used as skirting on a system combining Sarlibase TE + flooring or modulp'up TE floorcovering. It ventilated the damp support. It is applied after the flooring using screws or a laying mastic. Box of 20 lengths of 2m (40m/box).

Hot weldable skirting
Réf.: 3141 black / 3142 grey / 3143 white / 3144 brown
This profile is placed at the bottom of a wall to provide a waterproof skirting upstand. It can be hot welded to the flooring to get optimal waterproof system. Box of 20 lengths of 2m (40m/box).

Complete skirting for new support
Réf.: 3185 white / 3186 grey
Profilé de finition rigide assurant la fonction de forme d'appui pour angle et de finition. Adapté au support neuf. Box of 40 lengths of 2.50 (100m/box).

Complete skirting for old support
Réf.: 3151 grey / 3152 white / 3153 beige
Profilé de finition souple assurant la fonction de forme d'appui pour angle et de finition. Adapté au support ancien. Box of 10 lengths of 3m (30m/box).
Decorative skirtings

Decorative skirtings in 60, 80 and 100 mm
Semi rigid PVC skirting available in 7 colors in following height: 60, 80 and 100 mm.
Box of 20 lengths of 2.5m (50m/box)

Please indicate, during your order, the height requested with the reference.
E.g: 1940 - 80 (white color in 80mm)
Tactile tiles and strips

Tactile tiles
In accordance with NF P98-351. Tactile tiles are a tactile warning surface for the visually impaired to recognize a change in level.
- Slip resistance surface
- Scratch and tearing resistance
- Cigarette resistance
- Fire class M2.
Box of 4 tiles of 425x1360mm.

Tactile strips
Tactile strips help improve circulation by allowing users to navigate with their white cane through vast spaces and find their way to reception or the exits.
Box of 15 strips of 150x600mm.

Riser adhesive strips
Coloured adhesive strips to create a visual contrast between the first and last risers. A quick and easy-to-fit solution in accordance with accessibility regulations.
- Self-adhesive
- UV resistance
- Detergent resistance
- Compliant with regulation
- No drying time
Box of 1 roll of 100mm x 10m.
The essential of installation for looselay PVC

Stainless steel convex ruler set  
**Ref. : 201**  
Set of 1x0.60m, 1x2.10m in one box h.8cm/diam.20cm.

Skirting trimmer  
**Ref. : 206**  
Easy and fast trimming of the skirting without marking.

Knife with 5 blades  
**Ref. : 202 straight blades**  
**Ref. : 203 hook blades**  
In aluminum with plastic sheath (with 5 straight blades or 5 hook blades).

Coldwelding type A  
**Ref. : 869301**  
This treatment is recommended for floorings.  
Consumption: 1 tube for 20 linear meter.  
Box of 30 tubes of 44g

Forbo trimmer  
**Ref. : 103**  
Makes a clean edge to strips so that clean joints can be made. It also cuts 5, 10, 15, 20, 25 and 30 mm wide decorative strips (using the different block provided).

Modul’up adhesive  
**Ref. : 792**  
Must be used to install Modul’up flooring on an old support (e.g. asbestos). Refer to the installation instruction for the application of the adhesive.  
Roll of 50m x 100mm in individual box.
Skirtings

Modul’up complete skirting
PVC skirting to ensure a complete seaming between the wall and the floor when the floorcovering covered the complete skirting.
Ask the product data sheet to get all installation instruction of this skirting.
Box of 10 lengths of 2.5m (25m/box).

Forbo Dry Tape 50 & 85
50 : réf 793
85 : réf 794
Forbo Dry Tape has been developed for Modul’up floorcovering and specifically in association with modul’up complete skirting
-Suitable for: Forbo Modul’up Complete skirting, Flexible PVC skirting & PVC floorcovering coving
-Suitable for use on: Plaster, Brickwork, Metal (untreated), Painted surfaces, Plastics, Wood, Concrete, Ceramics, Gypsum (primed), Wallpaper, Smoothing compound (primed).

Recover skirting 100% PVC
PVC skirting allowing a current skirting in place in wood or ceramics.
Specifically developed to adapt of skirting
- up to 14mm of thickness
- up to 100mm of height
Box of 20 lengths of 2.5m (50m/box).
The essential of installation & adhesive for Flotex

Stainless steel convex ruler set
Ref.: 201
Set of 1x0.60m, 1x2.10m in one box h.8cm/diam.20cm.

Knife with 5 blades
Ref.: 202 straight blades
Ref.: 203 hook blades
In aluminum with plastic sheath (with 5 straight blades or 5 hook blades).

Skirting trimmer
Ref.: 206
Easy and fast trimming of the skirting without marking.

Adhesives

Acrylic adhesive in solvent-free aqueous dispersion
Ref.: V22
Gumming time from 10 to 15 mn. Open time 60 mn.
Consumption: 250 to 300 g/m².
It is recommended that a regularly replace type A2 notched spreader should be used. The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambiant room.
The maximum relative humidity of the air shall be 70% (recommended < 65%).
Bucket of 13 kg.

Acrylic adhesive in solvent-free aqueous dispersion and very low VOC
Ref.: V22 green
Gumming time from 10 to 15 mn. Open time 60 mn.
Consumption: 250 to 300 g/m².
It is recommended that a regularly replace type A2 notched spreader should be used. The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambiant room.
The maximum relative humidity of the air shall be 70% (recommended < 65%).
Bucket of 13 kg.

Tackifier for textile and vinyl tiles with PVC backing with very low VOC emission
Ref.: V42 green
Gumming time is approx 20-40 mn until transparency.
Consumption: 100 to 120 g/m². Micro-fiber roller is recommended.
The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambiant room.
The maximum relative humidity of the air shall be 70% (recommended < 65%).
Bucket of 10kg.
Flotex® Borders

Flotex® decorative strips
This strip is designed to make a skirting or a joint between different patterns.
This decorative strip matches perfectly with all patterns in the Flotex Colour collection but it can also be used with other collection.
Box of 15m. Height available: 11 cm (211xxx) or 22 cm (232xxx).
The essential of installation & adhesive for textile

Stainless steel convex ruler set
Ref. : 201
Set of 1x0.60m, 1x2.10m in one box
h.8cm/diam.20cm.

Skirting trimmer
Ref. : 206
Easy and fast trimming of the skirting without marking.

Knife with 5 blades
Ref. : 202 straight blades
Ref. : 203 hook blades
In aluminum with plastic sheath (with 5 straight blades or 5 hook blades).

Cork bonding block
Ref. : 205
For bonding hammering without leaving any marks. Dimensions : 300 x 120 x 25mm. Made of cork. Essential for laying flexible flooring.

Adhesives

Acrylic adhesive in solvent-free aqueous dispersion and very low VOC
Réf. : V22 green
Gumming time from 10 to 15 mn. Open time 60 mn.
Consumption : 250 to 300 g/m².
It is recommended that a regularly replace type A2 notched spreader should be used.
The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%). Bucket of 13 kg.

Resin free wet bonding adhesive, solvent free and low VOC
Réf. : MarmoGL green
Gumming time from 0 to 5mn. Open time from 15 to 20mn.
Consumption: 300 to 350 g/sqm.
It is recommended that a regularly replaced and recut type TKB/B1 notched spatula should be used.
The minimum working temperature is +10°C (recommended + 15°C).
The adhesive can be kept for 12 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%). Bucket of 11kg.

Tackifier for textile and vinyl tiles with very low VOC emission
Réf. : V41 green
Gumming time is approx 1 to 4 hours depending on the ambient temperature and the porosity of the support.
Consumption: 100 to 150 g/m². Micro-fiber roller is recommended.
The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%). Bucket of 10kg.
Coral® profile

Coral® transition profile
Ref. : C600004 black / C600005 black
Profiles used for edging of Coral entrance mats.
Gluing is done in using a tube of Typ C colwelding (see page 34).

Coral® junction strip
Ref. : C600006 black
Makes a junction between two Coral entrance mats by straddling the two mats.
Gluing is done in using a tube of Typ C colwelding (see page 34).
Roll of 50m.

Showtime nuance skirting

We provide in association with Needlfelt Showtime nuance collection 20 references of skirting made in showtime nuance (uni colors) which can be matched with nuance and experience floorcovering collection.
Packaging: roll of 40m

On stock 20 references of skirting without needle finishing of 9.5 cm in the height
Skirting references on stock are indicated under tabletops with the article code of Showtime nuance + N letter

On demande and under condition needle finishing on 1cm in the height
Please ask your customer for this special or find some explanation page 39.
The essential of installation & adhesive for Wetroom system

Stainless steel convex ruler set
Ref. : 201
Set of 1x0.60m, 1x2.10m in one box h.8cm/diam.20cm.

Knife with 5 blades
Ref. : 202 straight blades  
Ref. : 203 hook blades
In aluminum with plastic sheath (with 5 straight blades or 5 hook blades).

Cork bonding block
Ref. : 205
For bonding hammering without leaving any marks. Dimensions : 300 x 120 x 25mm. Made of cork. Essential for laying flexible flooring.

PVC fast welding nozzle
Ref. : 119
For hot welding with diameter of 4mm.

MOZART trimmer
Ref. : 190
For trimming hot weld in two steps with a single tool. (perfect for compact and wall PVC).

Little groover for Floor&Wall
Ref. : 167
Ergonomic groover with 2 adjustable blades (3.5mm blades). Easy to use. Grooved up to skirting. Perfect to groove PVC wall covering.

Triangular fast welding nozzle (wall)
Ref. : 207
Particularly suitable for wall coverings and also lacquered PVC flooring

Knife for siphon
Ref. : 200
To cut flooring so that it will fit into the collar of the PVC floor trap.

Hot welding gun HOT JET S
Ref. : 218
Particularly suitable for welding wall covering. Power 460W. Weight 0.6kg.

Adhesives

Acrylic adhesive in solvent-free aqueous dispersion and very low VOC
Ref. : V22 green
Gumming time from 10 to 15 mn. Open time 60 mn.
Consumption : 250 to 300 g/m².
It is recommended that a regularly replace type A2 notched spreader should be used.
The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%). Bucket of 13 kg.

Acrylic adhesive in solvent-free aqueous dispersion
Ref. : V22
Gumming time from 10 to 15 mn. Open time 60 mn.
Consumption : 250 to 300 g/m².
It is recommended that a regularly replace type A2 notched spreader should be used.
The minimum working temperature is +10°C.
The adhesive can be kept for 15 months in an ambient room.
The maximum relative humidity of the air shall be 70% (recommended < 65%). Bucket of 13 kg.

Coldwelding type C
Ref. : 869501
A type C coldwelding is recommended for wall covering (bottom of the Onyx in the wetroom system) thus making the covering waterproof.
Consumption: 1 tube for 15m.
Box of 30 tubes of 44g.
Profile

Cover former
Ref.: 3009 white / 3109 black / 3209 black
- 3009 = 15 x 15: this form is used vertically in inner corner so that the wall covering matches corners perfectly.
- 3109 = 20 x 20: this form is used at the bottom of partitions. Provides backing for the flooring to rise with a rounded profile, thus making corners last longer and improving aesthetics, while preventing perforation.
- 3209 = 25 x 25: same function as the 20 x 20 profile but appropriate for more rigid flooring.
Box of 20 lengths of 2,5m (50m/box)

Reducer profile
Ref.: 3801 white
This reducer is adapted to the shower system and is placed above the skirting upstand. It compensates for the thickness of the flooring for installation of the wall covering.
Box of 40 lengths of 2,5m (100m/box)

Siphons

Extra low trap with ø 50 mm horizontal outlet
Ref.: 6321 Freja
Typical slab thickness. Shower system. Low point of the shower point, drains waste water. Installed by the plumber.
Box of 1 siphon.

Extra low trap with ø 50 mm vertical outlet
Ref.: 6347 duschbrunn
Typical slab thickness. Shower system. Low point of the shower point, drains waste water. Installed by the plumber.
Box of 1 siphon.

Special renovation trap ø 50 mm vertical outlet
Ref.: 6330 brage
High slab thickness. Shower system. Low point of the shower point, drains waste water. Installed by the plumber.
Box of 1 siphon.

Steel floor trap
Ref.: 6348 / 6348V
Vertical outlet. Suitable for wetroom, shower system. Very robust equipment guaranteed for life and designed for heavy duty use. Recommended for hospitals and retirement homes. Also available in version with tamper-proof grill. Installed by the plumber.
Box of 1 siphon.

PVC visible waterproofing threshold
Used in wetroom and with shower system, as a door rabbet. It makes the junction and waterproofing, and prevents water from passing from the wetroom to the bedroom. Gluing is done directly on the screed before flooring is installed.
Box of 10 lengths of 2m (20/box).

Visible threshold colored 40 mm
Visible threshold colored 70 mm
Visible bellows threshold colored with 70 mm

Ref.: 3108x
Ref.: 3114x
Ref.: 3194x
# The essential of installation & adhesive for Colorex

## 041 neodis EL
**Ref.: 041**
Conductive primer must be used for dissipative/conductive installation before the copper tape and the conductive adhesive. Consumption: 150g/m². Bucket of 15L.

## V23 ESD green
**Ref.: V23ESD green**
Solvent-free conductive adhesive with very low emission of VOC. Consumption: 300 g/m². Bucket of 12kg.

## Stainless steel convex ruler set
**Ref.: 201**
Set of 1x0.60m, 1x2.10m in one box h.8cm/diam.20cm.

## Knife with 5 blades
**Ref.: 202 straight blades**
**Ref.: 203 hook blades**
In aluminum with plastic sheath (with 5 straight blades or 5 hook blades).

## PVC fast welding nozzle
**Ref.: 119**
For hot welding with diameter of 4mm.

## MINI FLOOR
**Ref.: 193**
Automatic welder for Triac welding gun. Easy to use and to transport (3.5kg). Delivered without welding gun.

## Welding car
**Ref.: 192**
Professional tool to make an easier job with hand hot air tools. For short lanes as well as large areas. Due to front and back rollers the system can lead stabilised in the grooved seam. Working angle adjustable.

## MOZART trimmer
**Ref.: 190**
For trimming hot weld in two steps with a single tool. (perfect for compact and wall PVC).

## Hot air Electron
**Ref.: 216**
To heat profile in PVC and floor in PVC and Linoleum for an easier installation.

## Hot welding gun TRIAC ST
**Ref.: 217**
For making welds in flexible flooring. Power 1600W. Weight 1.4Kg.

## Forbo - Groover
**Ref.: 133**
for easy grooving operation of joint before hot welding. Can fit on a thermal heater.

## Forbo roller
**Ref.: 212**
The only tool to efficiently transfer adhesive to the back of the flooring. Width 50cm. Weight 50Kg. Essential for laying flexible flooring.
Profiles

Colorex SD/EC/plus skirting
Ref. : 1600 + last 2 numbers of the flooring ref
For forming skirting with strips for tile flooring. Glued using and acrylic or conductive adhesive according to specifications.
Dimensions: strip height 15cm (10cm on the wall and 5cm on the floor).
Box of 2 rolls of 12.30m each (24.6m)

Colorex plus ventilated skirting
Ref. : 84340 light grey / 84396 dark grey
Plinthe ventilée avec cœur en MDF.
Dimensions : Hauteur 68 mm environ / largeur 22 mm environ.
Box of 10 lengths of 2.5m (25m/box).

Connection profile
Ref. : 84398 light grey / 84399 dark grey
Makes the junction between two lengths of ventilated skirting for a perfect finish.
Box of 10 pieces.

Colorex plus aluminum access ramp
Ref. : R260
For finishing borders by filling in the difference in level between tiles and support.
Easy access for rolling heavy load
Box of 10 lengths of 2.7m (27m/box).

Inner & outer corner Colorex SD/EC/plus
Ref. : Inner corner : 1700 + last 2 numbers of the flooring ref
Outer corner : 1800 + last 2 numbers of the flooring ref
For making inner and outer corner for colorex installation.
Glued using an acrylic or conductive adhesive according to specification.
Dimension: height 10cm (wall) / width 5cm (floor).
Per unit

Colorex plus inner and outer corner for ventilated skirting
Ref. : inner 84400 light grey / inner 84401 dark grey
outer 84402 light grey / outer 84403 dark grey
Makes the junction between ventilated skirting in inner and outer corners for a perfect finish.
Box of 10 pieces.

Colorex plus cove former
Ref. : 280250 black
This profile is placed at the bottom of the wall. It provides backing for the flooring to rise with a specific cove former.
Per unit length of 1.25m.

Colorex plus access ramp
Ref. : 171500 grise / 171504 montblanc / 171505 adula / 171507 quartz / 171513 sahara / 171522 niagara / 171531 sole / 171533 fuego
For finishing borders by filling in the difference in level between tiles and support.
Easy access for rolling heavy load
Per unit length of 1.22m.

Copper tape
Ref. : 39510
For rooms in which a conductive or dissipative floor is necessary. It is used under conductive or dissipative tiles and transfers electrostatic charges to the earth. It is glued using a conductive adhesive.
Rolls of 50m.
Sarlibase

**TE Sarlibase**
Supply of a rotproof and waterproof flexible underlayer,
Made of synthetic resin impregnated glass mat, grey colour, validated by Agreement Certificate no. 12/09-1567, such as SARLIBASE T.E.
The surface on the substrate side is made of a pattern of foamed bars in opposite direction, allowing the free circulation of an air gap between the substrate and the associated coverings, Vinyl Asbestos Tiles covering solution.
SARLIBASE T.E. system is suitable for all compact reinforced PVC, needlefelt textile floor coverings.
Length 35m - Width 2m - Thickness 1.50mm
Ref. : TE13

**Smooth Sarlibase**
Rotproof and waterproof flexible under-layer.
Supply of a rotproof and waterproof flexible underlayer, in rolls 2 metres wide, made of synthetic resin impregnated glass mat, Vinyl Asbestos Tiles covering solution, such as SARLIBASE Smooth.
SARLIBASE Smooth system is suitable for all compact reinforced PVC, Flotex and needlefelt textile floor coverings.
Length 35m - Width 2m - Thickness 1.10mm
Ref. : TELIS

**Acoustic Sarlibase**
Supply of a soundproof under-layer, specially designed for SARLIBAIN shower system Comfort version, in order to improve sound reduction: impact sound reduction $\Delta L_{w} \geq 18$ dB, such as SARLIBASE Acoustic.
SARLIBAIN system Comfort version combining slip-resistant floor covering (Forbo SURESTEP) with SARLIBASE Acoustic has Agreement Certificate no. 12/12-1612.
SARLIBASE Acoustic system can be associated with other compact floor coverings, for instance: ALLURA, ETERNAL, MARMOLEUM(1).
Length 35m - Width 2m - Thickness 2.00mm
Ref. : TEAC

(1) Contact Forbo Flooring Technical Service department in all cases.
Other underlayers

Allura click 15 dB underlayer
Ref.: U54002
The Underlay Allura click 15 dB was designed specifically to be laid floating under Allura Click Compact flooring. As a high-quality system for reducing impact sound and walking noise, this underlay was developed to protect interlocking devices of different flooring systems and is supplied in rolls for convenience. It can be installed on the old subfloor.
Length 10m - Width 1m - Thickness 1.50mm.

Extruded closed cell polyolefin foam underlay with anti-slip surface
Ref.: SC19
The Underlay Allura click 15 dB was designed specifically to be laid floating under Allura Click Compact flooring. As a high-quality system for reducing impact sound and walking noise, this underlay was developed to protect interlocking devices of different flooring systems and is supplied in rolls for convenience. It can be installed on the old subfloor.
Length 10m - Width 1m - Thickness 1.50mm.

Forbo Foam
Ref.: 6666
Polypropylene foam for use with Quickfit panels laminated with metallised foil. The foil top layer incorporates a self-adhesive overlap of 20 cm for secure seams.
Permeability of water vapor less than to 0.46 g/m²/24h.
Can be associated with Quickfit and Marmoleum click.
Length 25m - Width 1m - Thickness 4.5mm

Quick Fit
Ref.: 4444
The Forbo Quickfit system comprises self-adhesive MDF panels and moisture resistant, sound insulating Forbo foam.
1 pack = 3.6m² of panels in dimensions 120x60cm - Thickness 7mm (3+4).
