

GET BEAUTIFUL, HEALTHY,
HIGH PERFORMING RESULTS
WITH FORBO MCT. GUARANTEED.

MCT essentials | elementals ^{topshield™ PRO}

- **MCT Coordinates!** Our new collection features pops of bright color combined with a neutral base to create balance in a range of inspirational colors, ensuring efficiency and harmony of design. MCT's organic marbled texture provides a visual connection with nature bringing the outdoors in, while working well with primaries, secondary and tertiary colors. This new palette opens the door to creative and inspiring installations that define spaces, create paths and improve the environment.
- EZvations adhesive solutions are available for installations with no need for moisture testing.
- Clean and Go – immediate occupancy; no initial maintenance required
- Naturally healthy floor mitigates mold risk and is naturally free from phthalates, pesticides and chemical agents

mct-3631 | otter

mct-3251 | lemon zest 

mct-3260 | leaf 

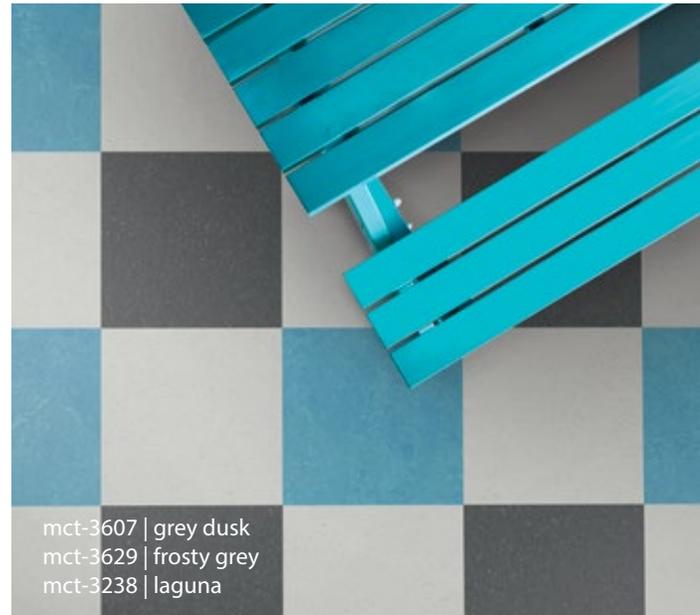

mct-3653 | sunflower

mct-3630 | angora

10 REASONS to choose Marmoleum Composition Tile (mct) over Vinyl Composition Tile (vct) and Luxury Vinyl Tile (lvt)

1. Guaranteed low initial installed cost using Forbo EZon100 adhesive system
2. Guaranteed Immediate occupancy adhesive system for MCT that eliminates moisture testing and long set up times and can eliminate the need for costly moisture mitigation
3. 30-year system service life
 - Double the system life of VCT/LVT
4. MCT with Topshield pro carries a ten (10) year no maintenance warranty
5. Clean and Go - no initial maintenance required with renewable Topshield pro occupancy ready factory finish providing a low cost of ownership.
 - Requiring no costly stripping and recoating over its life that VCT does.
6. Improved classroom acoustics when compared to VCT, LVT or Stained Concrete
7. Seams that won't shrink open over time like VCT or LVT
8. Naturally healthy floor
 - Mitigates mold risk
 - Naturally PVC and phthalate free
 - Naturally combats MRSA and other strains of bacteria, unlike the open seams of VCT that provide a breeding ground for bacteria/fungi to grow.
9. Dedicated Forbo project support and risk mitigation with "No Punch/Zero Failure" program**
10. Certified to the Triple Bottom Line:
 - Publicly available 3rd Party verified Environmental Product Declaration (EPD's)
 - Publicly available Health Product Declaration (HPD)
 - Declare Red list Free
 - Contributes to several LEED® v4 and WELL credits
 - USDA Certified 100% biobased
 - Meets the California CHPS 01350 for IEQ
 - Manufactured in an ISO 9001 and 14001 certified facility
 - No chlorine gas release during fire
 - Investing in the local economy with installation training
 - IEQ compliant adhesives
 - The most LCA based certifications of any resilient flooring product
