

## Caring for Forbo Bulletin Board

### Care Recommendations For

- Forbo Bulletin Board

Always refer to and follow the recommendations in **Forbo's General Floor Care Guidelines** prior to starting any cleaning processes. If any special or unusual circumstances arise, contact Forbo's Product Support & Education Services before proceeding with cleaning.

Newly installed material must be protected from construction soil and damage.

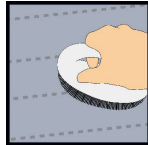

**IMPORTANT:** Residual adhesive from installation **MUST** be removed with damp, clean cloth and warm, soapy water before the adhesive has dried followed by rinsing with a clean cloth using clean, cool water. Removing dried adhesive residue can damage the surface of the Forbo Bulletin Board. Contact Forbo's Product Support & Education Services for additional information.

### Routine Cleaning

1. Remove all surface soil, debris by dusting with a microfiber cloth.

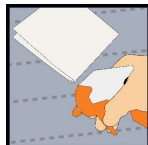

2. Mix a cleaning solution by diluting a neutral pH cleaner according to the label directions. The pH of the cleaning solution must be between 6.0 – 8.0.

3. Apply the solution with a clean microfiber cloth or sponge. A soft- bristled nylon brush can be used for more heavily soiled areas.

4. Gently scrub in a circular motion to loosen and remove any soil off the surface of the material.

**NOTE:** Scrubbing Forbo Bulletin Board too harshly or with abrasives will damage the surface of the material, removing some of the color.

5. Rinse the entire surface with a clean cloth using clean, cool water.

6. Dry the surface thoroughly with an absorbent cloth.

7. Allow the surface to dry thoroughly before use.

**CAUTION:** Forbo Bulletin Board can be damaged by scrubbing too harshly, by using an aggressive scrubber or by abrasive or caustic chemicals. If the above recommendations are followed, no additional chemicals of procedures will be required.
