	3106	fruitsalad	14	x	
3107/3107PL	bubblegum	6	x		
<b>Perspective</b>	3900	sensory	9	n/a	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway.
	3901	esprit	14	n/a	
	3902	fantasy	2	n/a	Rated 2 due to prominent criss-cross pattern created with contrasting lighter tone on dark background. Note: Use with caution due to low LRV which can be perceived as a hole or something to be avoided by some people with dementia. This can cause hesitation which can result in trips & falls. Furthermore, it can be challenging to work with very low LRVs to ensure abutting floor finishes are within 10 LRV. For example, bedroom to ensuite transition or corridor to communal toilet transition.
	3903	illusion	5	n/a	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway. Note: Use with caution due to low LRV
	3904	mirage	15	n/a	Rated 2 due to criss cross pattern as contrast is noticeable in this colourway.
	3905	ethereal	16	n/a	
	3906	lyrical	8	n/a	
	3907	melodious	11	n/a	
	3908	vivacious	6	n/a	Rated unsuitable due to contrasting colour against dark background resulting in a very strong criss-cross pattern which could potentially be visually overstimulating for some people with dementia.

## Tessera collection

### LRV & DSDC product accreditation

Design	Colour number	Colour name	LRV Y (BS8493)	DSDC Rating*	DSDC Comments*
<b>Struktur 2 Linear</b>					<b>NOTE:</b> Entire range would be rated unsuitable if laid in quarter turn, brick repeat or half drop formats due to the checker-board and block effects created which could cause visual perception issues for some people with dementia.
	4400	grå + måne	17	2	Rated 2 due to stripes. Stripes are normally rated unsuitable due to their directional nature but the stripes were relatively close tonally when viewed in mono camera setting and created an effect similar to natural linear pattern found in straight-cut timber planks. <b>*NOTE:</b> This is only rated 2 when laid in monolithic installation format and would be rated unsuitable if laid in quarter tile, brick repeat or half drop formats.
	4401	järn + grå	8	n/a	Rated unsuitable due to stripes which were more contrasting tonally in this colourway and as such more apparent to the naked eye and in mono camera setting.
	4402	svart + järn	5	n/a	Rated unsuitable due to low LRV which can be perceived as a hole or something to be avoided by some people with dementia. This can cause hesitation which can result in trips & falls. Furthermore, it can be challenging to work with very low LRVs to ensure abutting floor finishes are within 10 LRV. For example, bedroom to ensuite transition or corridor to communal toilet transition.
	4403	kaffe + korn	25	2	Rated 2 due to stripes. Stripes are normally rated unsuitable due to their directional nature but the stripes were relatively close tonally when viewed in mono camera setting and created an effect similar to natural linear pattern found in straight-cut timber planks. <b>*NOTE:</b> This is only rated 2 when laid in monolithic installation format and would be rated unsuitable if laid in quarter tile, brick repeat or half drop formats.
	4404	malm + kaffe	17	2	
	4405	järn + malm	9	n/a	Rated unsuitable due to stripes which were more contrasting tonally in this colourway and as such more apparent to the naked eye and in mono camera setting.

	<b>2016-074 FORBO FLOORING</b>	
	<b>DSDC RATING KEY</b>	
	<b>NOV-16</b>	
<b>*RATING</b>	<b>*RATING DESCRIPTION</b>	
<b>Class 1a</b>	<p>Flooring within this rating is plain and can be used indiscriminately. That said, bear in mind the need to contrast flooring and walls, skirtings, doors/frames, furniture and sanitary ware.</p> <p>Contrast is the key word.</p> <p>We recommend a minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above.</p>	
<b>Class 1b</b>	<p>Flooring within this rating is semi-plain (minimal texture or fleck/pattern, wood effect with no knots) and in general, can be used throughout.</p> <p>Natural patterns such as timber and stone may be used in most areas due to their familiarity but with a degree of caution.</p> <p>Bear in mind minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above.</p>	
<b>Class 2</b>	<p>Flooring within this rating has some pattern and needs to be used with caution. The natural patterns such as timber and stone in this range are more figured/patinated and although still familiar they need to be used with more caution than the above range.</p> <p>Bear in mind minimum contrast of 30 units LRV (Light Reflectance Value) between the critical surfaces mentioned above.</p>	

For an environment to be considered 'dementia-inclusive' or 'dementia-friendly', careful consideration must be given to the entire specification, not just the flooring.

As with many design features, individual needs and preferences should also be considered. What is fine for one person, may not be the case for another.

For more information and to download our 'Designing for dementia care' brochure visit [www.forbo-flooring.co.uk/care](http://www.forbo-flooring.co.uk/care)
