FLOORING SYSTEMS

showtime

To meet the needs of the hotel and leisure segment, our designers have created an exclusive collection that combines performance, originality and ease of maintenance. Our showtime needlefelt floor coverings combined with our Flotex flocked flooring gives an unique signature to hotels, aparthotels, tourist residences, student residences and to leisure locations like cinemas and theaters. All these places have one thing in common and that is the need for a very durable floor covering to cope with many people that walk over it.

showtime nuance

This uni coloured needlefelt range consists of 20 colour options. These colours go very well with both the Showtime experience needlefelt range and the specially designed Flotex Vision designs.

flotex® vision

To be able to fulfill all needs within the leisure and hospitality industry we complement the range with 4 Flotex vision designs.

showtime experience

There are 16 designs in 4 categories which surely match your design needs. Each design is available in several colours. One colour per range is available from stock, would you like one of the other colours then we can produce it for you as of 400m². The basecolour of experience matches with a base colour of the nuance range (indicated next to the sample).

showtime experience

The Showtime experience and Flotex vision ranges are divided into 4 categories:

Between tradition and modernity, a homage to timeless designs.
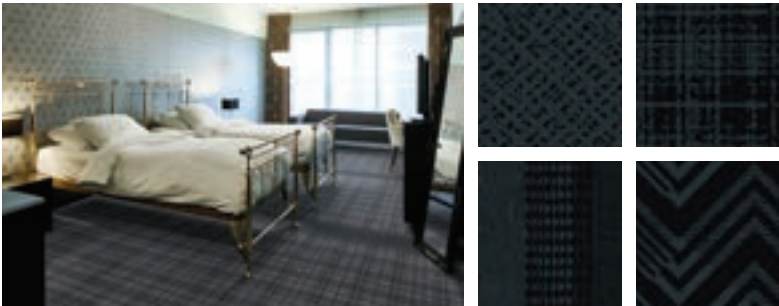

ECOSYSTEMS
