

ADHESIVES

MANDATORY

609 Eurostar Tex

Ref. : 609

609 eurostar tex is an acrylic dispersion adhesive with high initial trapping power, solvent-free and very low VOC emissions (EMICODE EC1 Plus).

It is recommended for the new-build and renovation of needle-punched textile coverings.

Technical characteristics :

Waiting time : 5 to 20 minutes

Opening time : 30 minutes

Consumption : 450 to 490 g/m² (Spatula B1 recommended)

Bucket of 13 kg

542 Eurofix Tack Plus

Ref. : 542

542 eurofix tack plus is a very powerful, solvent-free fixative with very low VOC emissions (EMICODE EC1 Plus) and very low consumption. Resistant to plasticizers. It is recommended for new-build and renovation installation of removable, textile-backed lead tiles.

Technical characteristics :

Waiting time : 30 to 60 depending of the ambient temperature and subfloor porosity.

Consumption : 100 to 120 g/m² (foam roller)

Bucket of 10kg
