Toutes les entités de vente Forbo Flooring Systems sont certifiées ISO 9001 (management de la qualité).
Toutes les usines Forbo Flooring Systems sont certifiées ISO 14001 (management de l'environnement).
L'Analyse du Cycle de Vie (ACV) des produits Forbo Flooring Systems est disponible dans les Fiches de Déclarations Environnementales et Sanitaires. Celles-ci sont téléchargeables sur nos sites internet.

⁽¹⁾ Satisfait à la réglementation M3.

⁽²⁾ E1 sur support bois ou panneaux dérivés. Le classement C2 est attribué à l'ensemble des références (dessins et coloris) de la gamme. Il est néanmoins possible de conserver 20 % de coloris C1 dans la gamme, ne répondant pas aux critères de résistance aux taches C2.

⁽³⁾ Revêtements de sol textiles : <http://evaluation.cstb.fr>

⁽⁴⁾ En complément, selon NF EN 1307, Flotex est LC1 (classe de confort).

⁽⁵⁾ Les articles (produits) ne contiennent pas de substances de la liste candidate en vigueur publiée par l'ECHA (substances très préoccupantes) à déclarer dans le cadre du règlement REACH.

⁽⁶⁾ Certificat d'émissions envoyé sur demande au service technique tel +33(0)3.26.77.30.55

* TVOC : composés organiques volatils totaux : quantité émise dans l'air intérieur.

Systèmes de management de la qualité, de l'environnement et de la santé sécurité, de la société Forbo Sarlino, certifiés ISO 9001, ISO 14001 et ISO 45001 par LR.

Systèmes de management certifié responsabilité sociale.

GAMME FLOTEX VISION, L'IMPRESSION DIGITALE AU SERVICE DU DESIGN

EFFETS VISUELS **UNIQUES**

Composé de 80 millions de fibres par m², Flotex présente la construction idéale et unique pour obtenir une précision d'impression inégalée sur le marché. Cette structure unique permet d'imprimer des designs aux effets visuels époustouflants et des graphismes réalistes.

LARGE CHOIX DE DÉCORS POUR TOUS LES ESPACES

Avec plus de 600 motifs à votre disposition en lés aux effets visuels uniques, Forbo vous offre le choix pour répondre à toutes vos attentes. Vous pouvez également définir vos propres coloris sur une sélection de dessins. Cette base de données est continuellement enrichie de nouveaux dessins.

SERVICE flotex[®] lab LA PERSONNALISATION À L'INFINI

Pour faire de votre revêtement de sol un véritable moyen d'expression, Forbo Flooring Systems vous offre 4 degrés de personnalisation, grâce à son service **flotex[®] lab** :

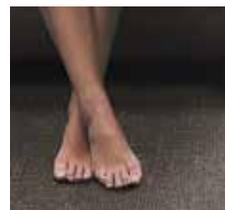

- **Color'Flotex** : Nous recolorons une sélection de décors de la gamme Flotex vision existants avec les couleurs de votre choix (RAL, Pantone ou NCS)**
- **Logo Flotex** : Nous imprimons un logo unique de 2 x 2 m maximum
- **Créa' Flotex** : Nous imprimons votre image répétable sur le lé à partir de votre fichier (150 dpi en taille réelle .tif, .jpg ou .pdf. Répétition de 2 x 4 m maximum)
- **Flotex panoramique** : Nous imprimons votre image sur plusieurs lés installés côte à côte (surface maximum de 6 lés de 6 ml x 2 m)

*sous conditions. N'hésitez pas à demander une étude de faisabilité à servicelab-france@forbo.com

**service accessible en ligne pour une sélection de dessins sur www.flotexvision.com

LES GAMMES FLOTEX

ET LEURS CARACTÉRISTIQUES TECHNIQUES

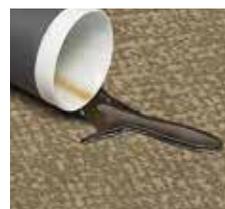

Robuste tout en étant confortable

Découvrez la robustesse et la durabilité de Flotex, résultat d'une structure unique de 80 millions de fibres en polyamide 6.6 par m² produite par flocage électrostatique et d'un envers PVC imperméable, permettant de créer une ambiance feutrée et un confort à la marche.

Absorbant le son tout en étant hygiénique

Les fibres en polyamide non seulement permettent un confort acoustique optimal mais elles piègent également les allergènes et les poussières fines dans l'air puis les libèrent sans effort lors du nettoyage dans des conditions sèches et humides. Flotex est le seul revêtement de sol textile approuvé par la BAF (British Allergy Foundation).

Chaleureux tout en étant lavable

Chaque jour l'aspirateur permet de retirer les salissures et les poussières piégées à la surface des fibres en polyamide grâce à sa structure très dense. Flotex peut également être lavé à l'eau pour les tâches les plus tenaces à l'aide d'un rotocleaner. Il apporte ainsi un confort acoustique tout en étant parfaitement hygiénique.

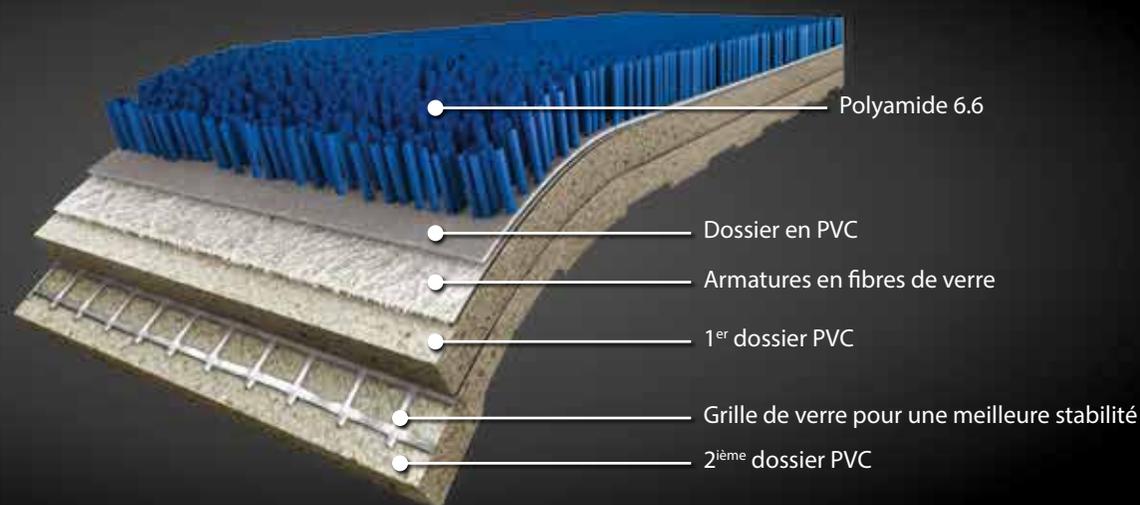

Antiglissant tout en étant acoustique

Flotex offre une absorption acoustique optimale ainsi qu'une efficacité acoustique élevée (21 dB pour les lés), ce qui permet de créer des ambiances feutrées dans chaque pièce et entre chaque étage d'un même bâtiment. Flotex présente un niveau d'antiglissance adapté à votre utilisation R13.

l'Art et la MATIÈRE

TOUJOURS IMPECCABLE, MÊME EN LUI FAISANT SUBIR LE PIRE !

Conçu pour résister à un fort trafic et à l'abrasion, Flotex® reste élégant et performant en toutes circonstances.

Elite parmi les textiles, Flotex® combine de multiples qualités : acoustique, détachable, lavable à l'eau, imputrescible... Plus besoin de choisir entre performance et élégance, Flotex® associe les deux !

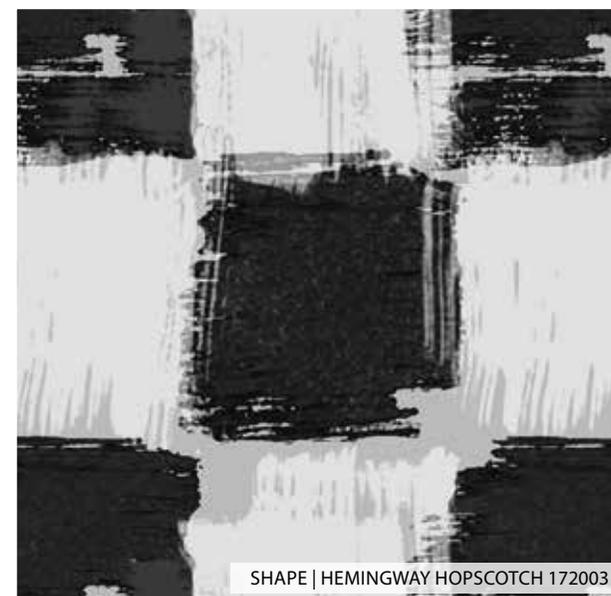

RESPIREZ, VOUS AVEZ CHOISI FLOTEX®.

Doté du prestigieux Allergy UK Seal of Approval™ qui identifie les produits diminuant les risques d'allergie, Flotex® contribue à une meilleure qualité de l'air intérieur.

Avec moins de 100 µg/m³ d'émissions de COV, Flotex® se situe au meilleur niveau avec un classement A+. Il fixe les allergènes au sol et se détache facilement, à l'eau sans ajout de chimie.

EN LIGNE FLOTEX VISION Visualisez vos espaces sur www.flotexvision.com

Avec plus de 600 motifs différents à votre disposition, vous pouvez choisir de créer votre propre coloris sur une sélection de dessins. Cette base de données est continuellement enrichie de nouveaux dessins. L'accès à cette base est très simple :

Uniquement 4 étapes pour trouver votre dessin...

1. Accédez à la page internet www.flotexvision.com
2. Choisissez votre thème de design dans la bibliothèque
3. Choisissez le dessin que vous souhaitez
4. Choisissez le coloris qui convient à votre concept et commandez un échantillon en ligne

Choisissez **votre coloris**

Le service que nous vous offrons en ligne vous permet de transformer certaines gammes Flotex vision en choisissant vos couleurs de fond et de dessin pour une harmonie parfaite avec votre concept. Il suffit de sélectionner vos couleurs en ligne sur la banque d'images et de commander l'échantillon personnalisé pour valider votre choix.

Mettez **les sols floqués Flotex en situation** dans de nombreux environnements grâce à notre outil **floorplanner** : hôtellerie et loisirs, bureaux, commerce, enseignement ...

DESIGNERS & ARTISTS | FLOTEX BY STARCK | VORTEX WHITE 312001

flotex[®] BY STARCK[®]

Les équipes de Forbo Flooring Systems ont collaboré avec le créateur visionnaire Philippe Starck pour la conception d'une collection de revêtement de sol unique et innovante : FLOTEX BY STARCK.

Grâce à l'utilisation combinée de l'impression digitale et de la densité des fibres des sols floqués Flotex, cette collection propose des systèmes de motifs inédits. En jouant sur les échelles et les transitions, chacun des trois systèmes défie habitudes et traditions en créant un nouveau langage, une nouvelle perception de l'espace et du revêtement de sol.

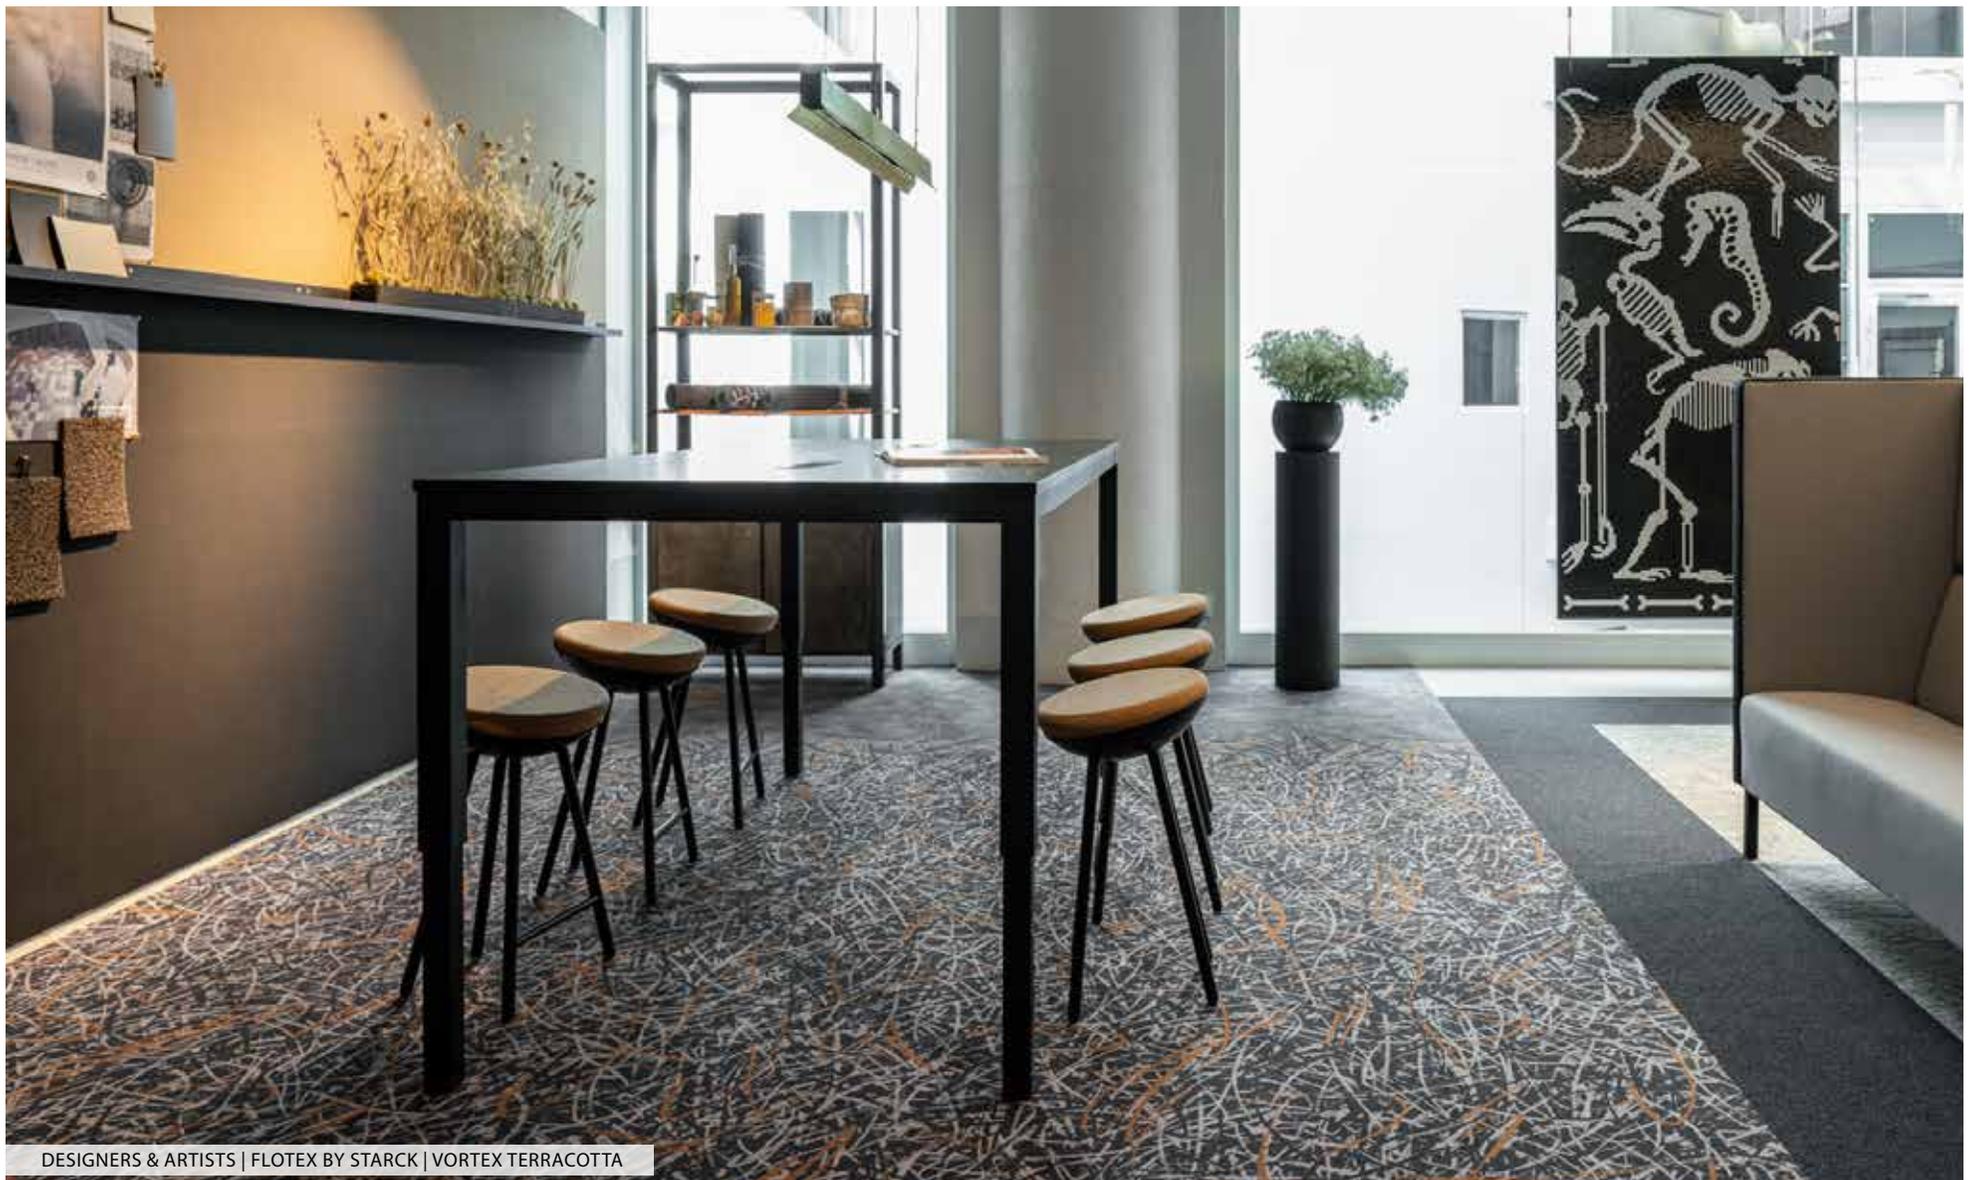

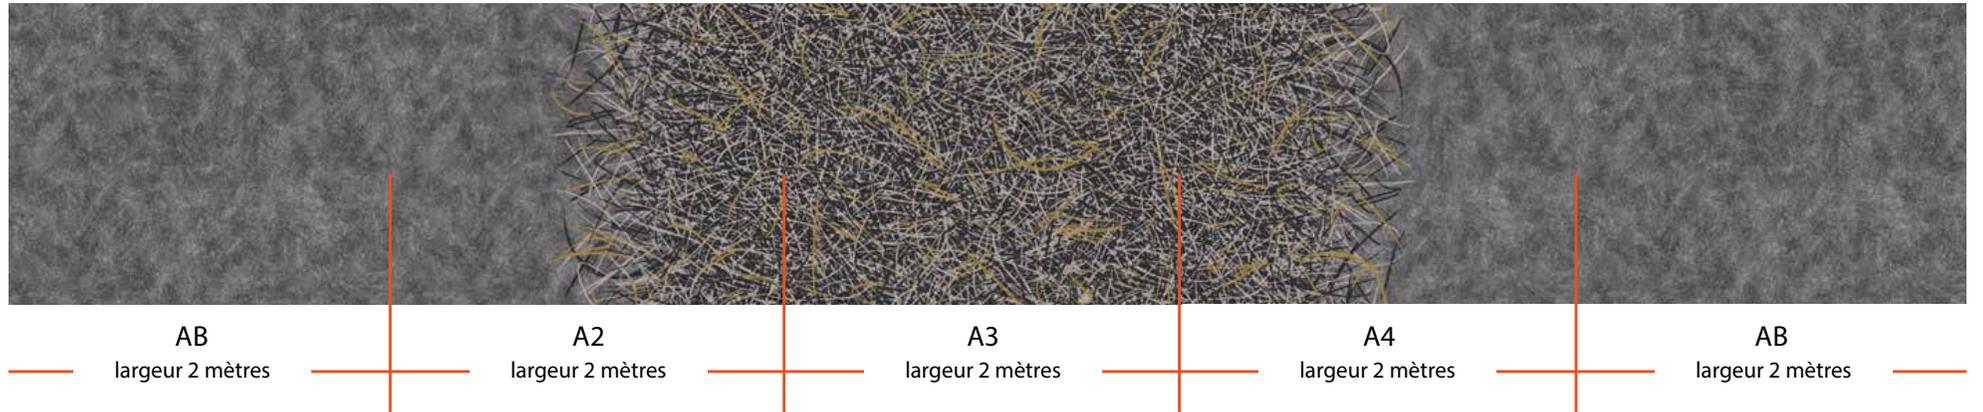

Les nombreux coloris disponibles et l'étendue des combinaisons offertes par les 3 systèmes qui composent la collection font de FLOTEX BY STARCK un revêtement de sol qui s'adapte idéalement à tous les lieux et à tous les projets.

- Afin de garantir un rendu couleur uniforme, le sens de pose du Flotex doit être respecté. Assurez-vous que les flèches au dos du Flotex indiquent toutes le même sens.
- Les références A2 et A4 sont différentes du fait de l'inclinaison des fibres Flotex : n'inversez pas la référence A2 !

- Pour combiner plusieurs motifs dans une même pièce et garantir le même bain, toutes les références doivent être commandées en même temps (une seule commande).
- Les possibilités de combinaisons étant presque infinies, il est important de nous indiquer quelles parties des dessins vous souhaitez combiner.

flotex® tibor

Tibor et l'Art du procédé Fotexur

Les designers Forbo Flooring Systems ont conçu, en étroite collaboration avec le studio de design anglais Tibor, une collection Flotex inspirée des travaux de Tibor Reich, pionnier du design textile des années 1950.

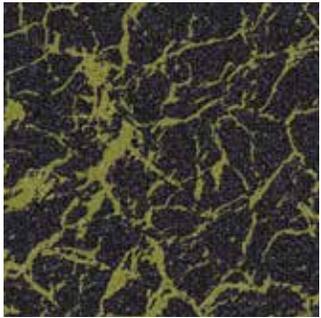

Designer anglo-hongrois (1916-1996) Tibor Reich est une figure incontournable du design textile dans l'Angleterre d'après-guerre.

La majorité des décors sélectionnés par Forbo Flooring Systems sont inspirés de sa collection Fotexur. Le terme Fotexur vient de l'association de 'Fo' pour 'Fotography' en anglais et de 'texur' pour évoquer la texture, élément qui était au coeur des travaux du designer.

Fotexur est un procédé révolutionnaire permettant d'obtenir un design grâce à l'assemblage de photographies d'éléments de la nature. Tibor Reich, en fervent passionné de photographie, tirait ses inspirations de la nature et de tout ce qui la composait.

Son oeil d'artiste était particulièrement attiré par la texture créée par des éléments naturels tels que la terre craquelée de fissures dans le lit d'une rivière asséchée, la texture créée par les contrastes d'ombres et de lumière d'un amas de brins de paille ou encore par la texture de l'écorce d'un arbre.

flotex® sottsass

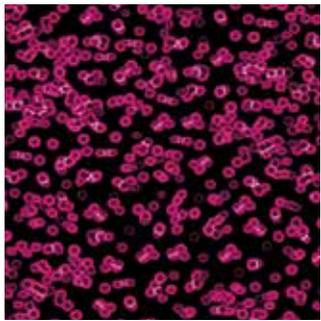

La marque **Sottsass Redfern** réunit les 2 designers Ettore Sottsass et Christopher Redfern de la société milanaise "Sottsass Associati". Créateur du "groupe de Memphis" dans les années 1980, Ettore Sottsass est connu au niveau international pour avoir été le designer le plus félicité de sa génération. Ettore et Christopher ont conçu pour Flotex une collection de dessins contemporains riches en détails graphiques et en couleurs vivifiantes. La concrétisation de cette collaboration a été rendue possible grâce à la mise en place d'une nouvelle technologie d'impression "Haute Définition" pour Flotex.

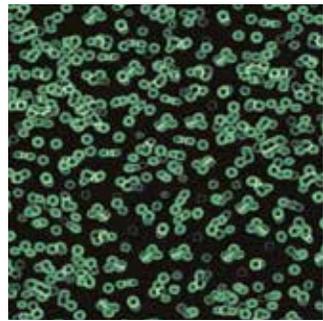

*"Nous avons été tout particulièrement intrigués par les propriétés uniques de Flotex et de son potentiel en terme de création et de design..."
"L'impression numérique appliquée à Flotex, nous a permis de naviguer à travers l'utilisation des couleurs, les textures et les concepts nous permettant ainsi de créer des dessins contemporains attrayants" Christopher Redfern.*
