• To ensure full colour matching, Flotex sheets should be installed in the same direction. Make sure the arrows on the back of the sheet indicate the same direction.

• A2 and A4 references are different: do not turn around an A2 reference !

✅    ❌

• Because of the freedom in the designs it is important to indicate, when ordering, which parts of the design you want to combine.
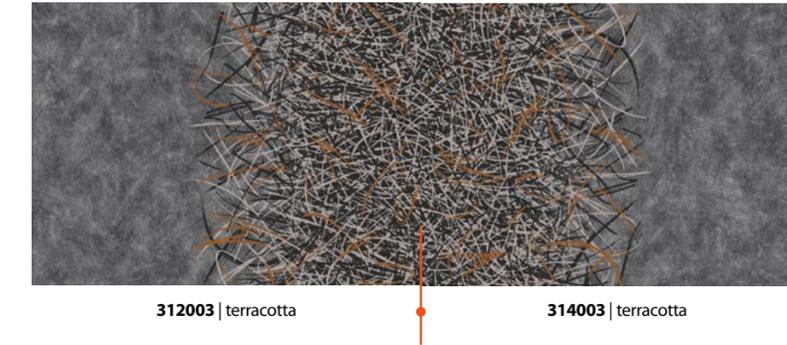

• For combined installations of a system in one room, all items need to be ordered at once to ensure full colour matching across all designs.
