EXPERIENCE **ETERNAL**
SHEET VINYL FLOORING,
ALL DAY, EVERY DAY.

EXPERTISE AND HERITAGE IN DESIGN VINYL SHEET FLOORING

Eternal stands for HERITAGE and EXPERTISE.

We have been producing heterogeneous vinyl sheet for commercial applications since the '90s. We focus on producing the highest quality of product with no compromise. Ever.

Expertise and heritage in design vinyl sheet flooring

Experience the unparalleled quality of wood and material design flooring, crafted to look as good as or even better than their natural counterparts. Our enduring designs add a timeless appeal to any interior, whilst the proven surface finish ensures durability and exceptional protection against scuffs and scratches, keeping your

space looking great for years to come. Choose Eternal Design Vinyl for outstanding quality and thoughtful design, elevating any space with unmatched beauty and durability.

Innovation is present in the addition of a new Fast Flooring solution: Eternal NEXT. A true loose lay solution for commercial applications, ready for re-use or recycling at the end of its first life. Created with the expertise of the development team responsible for millions of worry free installed square meters of Modul'up, our acoustic loose lay vinyl floor.

EXPERTISE IN DESIGN

- Crafted to offer timeless, stylish aesthetics for any project.
- State of the art designs, including extensive possibilities to make combinations within the collection.
- Realistic wood and stone designs, expertly designed to rival the beauty of their natural counterparts.
- Co-ordinated design offer with Modul'up loose lay, Step safety flooring and other Forbo Flooring ranges.
- Multiple finishes tailored for varied effects, all delivering exceptional performance:
 - PUR Pearl: A consistent, natural look with easiest cleaning properties.
 - PUR Satin: An extra matte finish.
 - PUR Wood: An authentic wood-like appearance.

EXPERTISE IN PERFORMANCE

- The ultimate worry-free flooring solution, delivering high quality performance for decades.
- Market-leading minimal residual indentation, thanks to balanced product construction.
- Exceptional protection against scuffs and scratches with Forbo's advanced PUR Pearl lacquering and embossing techniques.
- Easy to handle during installation and remains stable and flat, thanks to Eternal's proven high tech product construction.
- Introducing the innovative Eternal Next construction, leveraging Forbo's expertise in adhesive free solutions for quick and easy installation, reuse, and recycling.

EXPERTISE IN SUSTAINABILITY

- Contains at least 20% recycled content, with all production waste repurposed.
- 100% phthalate-free and designed with the lowest possible emission levels.
- Produced using 100% renewable green electricity, meeting all relevant quality and environmental standards.
- Micro-embossing technology minimises the need for chemical cleaning, extending the floor's lifespan.
- Pairing Eternal with Coral and Nuway entrance systems, the lifetime of the floor will increase substantially.

DESIGN EXPERTISE

Our Forbo Flooring collections are crafted with meticulous care and an unwavering attention to detail. The stylish, sophisticated and high-quality **Eternal** collection has a heritage of delivering the best in design for multiple segments and applications, blending style and functionality for years to come.

The **most beautiful wood designs** are showcased in the Eternal collection, ranging from realistic interpretations to intriguing blends of wood patterns and materials, maximizing the impact of good design on the floor. Whether you opt for understated elegance or bold statements, these designs spark quality and offer refined choices for any interior.

Drawing on global colour and material trends, the design team has created a collection full of possibilities, offering seamless integration both within the Eternal range and across Forbo's diverse vinyl assortments. Expertise that shows in every image and design story.

Whether you're seeking a natural ambiance, a soft and inviting atmosphere, or a bold, daring design, **Eternal** strikes the perfect balance between form and style.

PUR Pearl, PUR Satin & PUR Wood Pearl

Multiple embossing structures on a matt lacquer are tailored for varied effects. All delivering exceptional performance on cleaning properties.

PUR Pearl: a consistent, natural look with easiest cleaning properties.

PUR Satin: an extra matte finish, a little more rustic.

PUR Wood Pearl: an authentic wood-like appearance.

The Eternal collection offers a broad choice in commercial vinyl flooring, including realistic wood effects, stone and abstract designs, a broad palette of colours and some imaginative digitally printed visuals created to inspire.

Eternal design vinyl sheet meets all the functional and practical requirements demanded in a variety of application areas in Health and Aged Care, Education, Office, Retail and Leisure & Hospitality environments.

Colour and Material stories are at the heart of the Eternal collection, including some of the most realistic concrete and stone designs and playful interpretations as well. The range also features a palette of soft, warm tones—from soothing hues inspired by nature to rich, deeper shades. These colours and designs are thoughtfully designed to be versatile, enabling spaces that are serene and calm or vibrant and stylish.

eternal® wood

The Eternal Wood collection contains a large variety of realistic wood designs and plank sizes, including some multi-width plank designs.

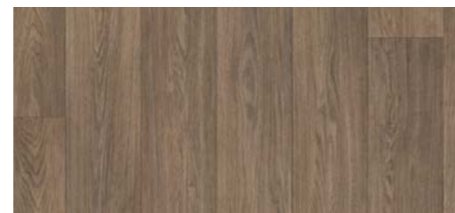

Iconic designs such as elegant oak and whitewashed oak are complemented by new contemporary woods such as the soft and calm smooth oak, linear infinite oak and geometric woodprism pattern.

eternal® colour

Eternal Colour offers a calm design and a more daring design with holographic accents. They all have a high colour intensity and optimum light fastness due to the coloured wearlayer. The earthy tones combine beautifully with each other and with Eternal Wood and Stone designs.

eternal® NEXT

ETERNAL LOOSE LAY SHEET SOLUTION

Eternal loose lay sheet solution Eternal NEXT is an innovative floor covering designed for adhesive free installation, dramatically reducing installation time and minimising disruption. Making no compromise on the known quality of Eternal.

Supporting circularity, Eternal NEXT can be easily lifted for reuse or recycling at the end of its useful life. Its adhesive free nature ensures that no damage is left on the subfloor.

All designs on this page are available in our Eternal NEXT construction.

FAST FLOORING

Quick, easy and economical. Fast Flooring is Forbo's overarching name for genuinely adhesive free floor coverings including entrance flooring and interior flooring ranges in sheet, tile and plank format for maximum flexibility. Our Eternal NEXT is one of our first ranges that completely complies to this category and stands at the forefront of Forbo Fast Flooring.

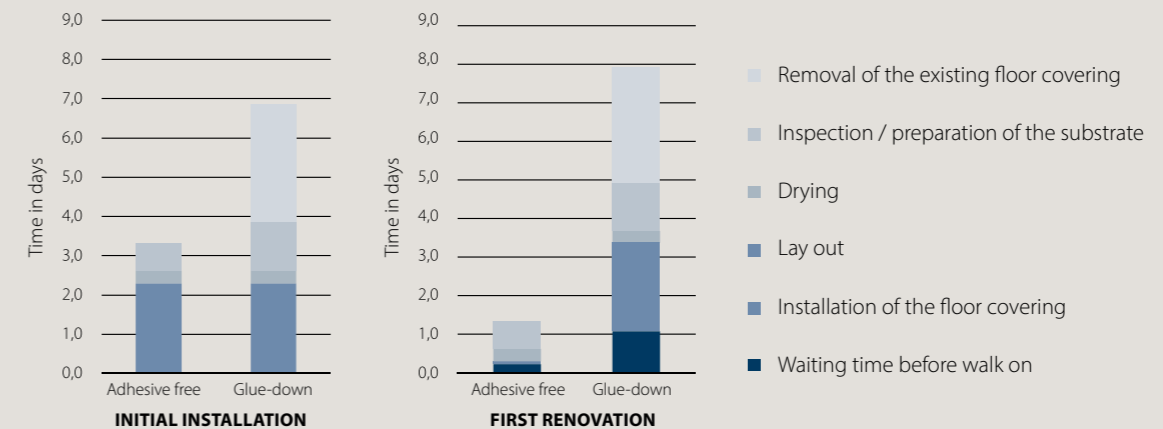

THE ADVANTAGES OF FAST FLOORING AT A GLANCE:

Quick: can be fitted over different types of existing flooring and as there is no drying time required for adhesive, installation time can be reduced by up to 50%.

Easy: no adhesive required and really easy to install. There are no adhesive odours, less disruption and dust, and floors can be walked on immediately after installation.

Economical: a reduction in downtime will mean substantial savings for the user of the building including a potential saving on installation costs. The supplied & fitted price of Eternal Next is similar to a glue down floor covering, whilst maintenance and service cost in the future will be reduced.

Renovation: it is possible to install on top of existing clean and smooth subfloors, including existing compact floors. The savings in terms of cost and time are even greater when an existing Fast Flooring product is replaced with another Fast Flooring product like Eternal NEXT. The existing product comes off the floor quickly and easily with no damage to the subfloor and is ready for circular use.

ETERNAL NEXT ADHESIVE FREE FLOORS, THE ADVANTAGES

NEW BUILD

- Available in popular wood and stone designs
- Quick installation, immediate use, saving money and time
- Lay flat, stay flat technology. No movement of floor.
- Superior performance

Loose Lay Flooring

RENOVATION

- Available in popular wood and stone designs
- In most cases no subfloor preparation necessary
- Quick installation and no downtime, saving money and time
- Future replacement like for like, more time saving and circular opportunities

Loose Lay Flooring

CIRCULAR

THE PILLARS OF OUR AMBITION

At Forbo Flooring Systems it is action that is important, not just promises. We want to be a trusted partner who provides full transparency, for example when it comes to circular flooring solutions. It is about the things we do, not just about the things we promise. We do this based on 3 pillars:

Transparency, circularity and renewability

To meet the challenges of today's and tomorrow's requirements we develop and perform on 5 themes

Product development and design

- Eternal NEXT is an easy to install and remove sheet product, enabling a smooth compact process for re-use or recycling.
- Fully transparent choices by using the EPD's which are 3rd party verified, using only 100% safe and traceable REACH compliant materials.

Sourcing and raw materials

- Maximized use of recycled content in all products. Eternal contains 30,5% and Eternal NEXT 24% recycled content on average. Improving this further is a continuous process.
- Controlled supply chain certification, ISO 14001 and ISO 9001 standards and SA8000 for ethical supply chain.
- All our raw materials meet the strictest health requirements. Eternal is 100% phthalate free.

Production and distribution

- Eternal production is dedicated to the concept of zero waste. 100% of production waste is reused inside Forbo Flooring.
- Eternal is produced in a production facility where substantial reductions of CO₂ emissions have been achieved and additional improvements are expected short term.

Long lasting & easy to maintain

- Loose lay installation of Eternal NEXT saves time, installation waste, money and the environment.
- Forbo Flooring offers compatible Coral entrance flooring to keep Eternal cleaner for longer and reduce cleaning cost by up to 65%.
- Thanks to its hard-wearing properties and durability, strengthened even further with our exclusive PUR Pearl or Satin surface finish lacquer, Eternal flooring has a product lifetime that surpasses that of ordinary vinyl flooring.

Recycling and end-of-life

- In an increasing number of countries installation waste of Eternal and Eternal NEXT can be recycled via the Back to the Floor scheme to close the materials loop.
- The loose lay Eternal NEXT flooring can be reused or recycled in its entirety and is 100% circular ready.

THE DYNAMICS OF A BUILDING

There is an increase in demand for transitional environments; spaces need to be able to evolve and adapt to new functions. These constantly changing spaces require walls and floors that can perform as a chameleon, with timeless colours and basic materials. The trends and changing mindsets inspired the Forbo Design team to analyse the different dynamics taking place within a building.

Five themes were identified; **receiving, moving, connecting, concentrating and recharging**, with each one referring to the different identities a space can have. They express a certain state of a person or an activity taking place within the building.

Receiving

The theme 'receiving' describes the scenario of a person entering a building; making a transition from the outdoors to the indoors. A space where one should feel welcome and is accessible and transparent as first impressions are key. This is the area of the building that should clearly represent the 'feel' of the brand and meet the expectations of the client to make them feel comfortable and at home.

Moving

'Moving' represents the action towards the destination and the purpose of why someone is in a building. Orientation is priority, so these areas need to be clear to read and offer guidance even when one is stressed. The space needs to be legible and aid with wayfinding

Connecting

The dynamics of a 'connecting' space signifies areas where you will connect with other people within a building, such as open public spaces for spontaneous interactions or semi open spaces for dialogues or brainstorm. These areas allow for an extrovert energy boost or to give the brain time out.

Concentrating

For 'concentrating', the attention is on the individual and avoiding unwelcome distractions. These are secluded spaces for privacy and focus, and while concentrating, people need a muted ambiance. Therefore, colour palettes in this area of a building should be subtle and quiet.

Recharging

'Recharging' is connected to mindfulness and describes relaxed environments where people can let down their guard and be themselves. This area of the building should reflect a home-like setting, to allow people to refresh and recharge. Light and fresh shades should be used here, encouraging people to take a break, breathe and escape.

CONNECTION BETWEEN COLLECTIONS

Although our collections, markets and segments evolve, our colour trends are often inspired by common sources. Unique themes such as geometric shapes and terrazzo, as well as our iconic patterns such as infinite oak and travertin, create consistency across our ranges.

The Forbo Flooring Global Colour Card, updated every two years, illustrates the collective work of our in-house designers. Using these trends as inspiration, they shape a harmonious and innovative vision for our flooring. This consistent approach is reflected in all our collections.

INSTALLATION AND COMPLEMENTARY PRODUCTS

Tape for Eternal NEXT seams

Use of Modul'up tape is recommended to connect the seam of two Eternal NEXT sheets. This allows a completely adhesive free installation, whilst providing the strength to withstand heavy traffic.

Welding

Matching welding rods have been developed for all items in this collection. With certain designs and in certain projects an invisible weld gives the best visual effect, we offer the alternative use of our coldweld for these occasions.

Step Safety Vinyl

Our Step safety flooring collection provides a complete range of products designed to meet safety demands across a wide range of applications, from general areas to more extreme areas such as commercial kitchens, wetroom (barefoot) areas and industrial applications.

Modul'up | Sarlon Acoustic Vinyl

Forbo Flooring is a specialist in acoustic vinyl flooring. Options with a sound reduction of 15dB or 19dB are available alongside the true acoustic loose lay solution Modul'up 19dB.

HOW CAN WE HELP YOU?

Read the full Eternal and Eternal NEXT story on our website. www.forbo-flooring.com/eternal

Floor visualizer

Would you like to visualize the floor you have in mind in a specific room or even your own project? Please go to our floor visualizer and play around with designs and images. www.forbo-flooring.com/floorvisualizer

Sample service

Would you like to receive a sample, please go to our website or contact our local customer service.

Installation, cleaning & maintenance

On our website you will find videos, PDF downloads and more to help you find the best way to install Eternal and Eternal NEXT or to learn how you clean and maintain your floor. Our technical teams are just a phonecall away should you still have questions. www.forbo-flooring.com/eternaldownloads

Inspiration & references

Would you like to see how others apply Eternal, then please have a look at the 'Inspiration & references' part of our website. www.forbo-flooring.com/references

BIM files

Should you want to integrate the floors in your own technical drawings we have BIM data for all floors for you available. www.forbo-flooring.com/BIM

Protect your floor

Entrance flooring is fundamental to modern building design. A well designed entrance flooring system will prevent dirt and moisture from being tracked in and thereby prolongs the life of interior flooring, reduces cleaning & maintenance costs and the potential for slip injuries. With both textile (Coral) and rigid (Nuway) Entrance Systems in our portfolio, we can offer an entrance solution for every situation.. www.forbo-flooring.com/entranceflooring
