

siegling proposition

timing belts

Mechanical cam fastener

Properties/advantages

- Use of product-specific cams, by fixing these to brass auf teeth, placed where the original teeth have been ground away.

Applications

- For standard timing belts T10/AT10/T20/AT20/XH
- Standard widths: 25 mm/32 mm/50 mm (other widths on request)
- Product-specific pusher dogs and cams can be fitted without extra tools
- Timing belts can be easily converted
