

Data Sheet

Cutting Device for 60° and 90°

Cutting device to precise cutting-to-length belt material.

The belt ends are positioned on the table at the belt edge stop and cut by a steel blade actuated by a hand lever.

The belt edge stop is adjustable for 60° and 90° cuts.

Low force required due to a good lever transmission.

Also suitable for assembling on site.

Cutting device for 60° and 90°
