

A modern interior space with large arched windows, lush green plants, a yellow and green armchair, and a wooden side table. The room is bright and airy, with a focus on natural light and greenery. The text "Inspiration & SUSTAINABILITY" is centered on the wall.

Inspiration &
SUSTAINABILITY

creating better environments

Forbo
FLOORING SYSTEMS

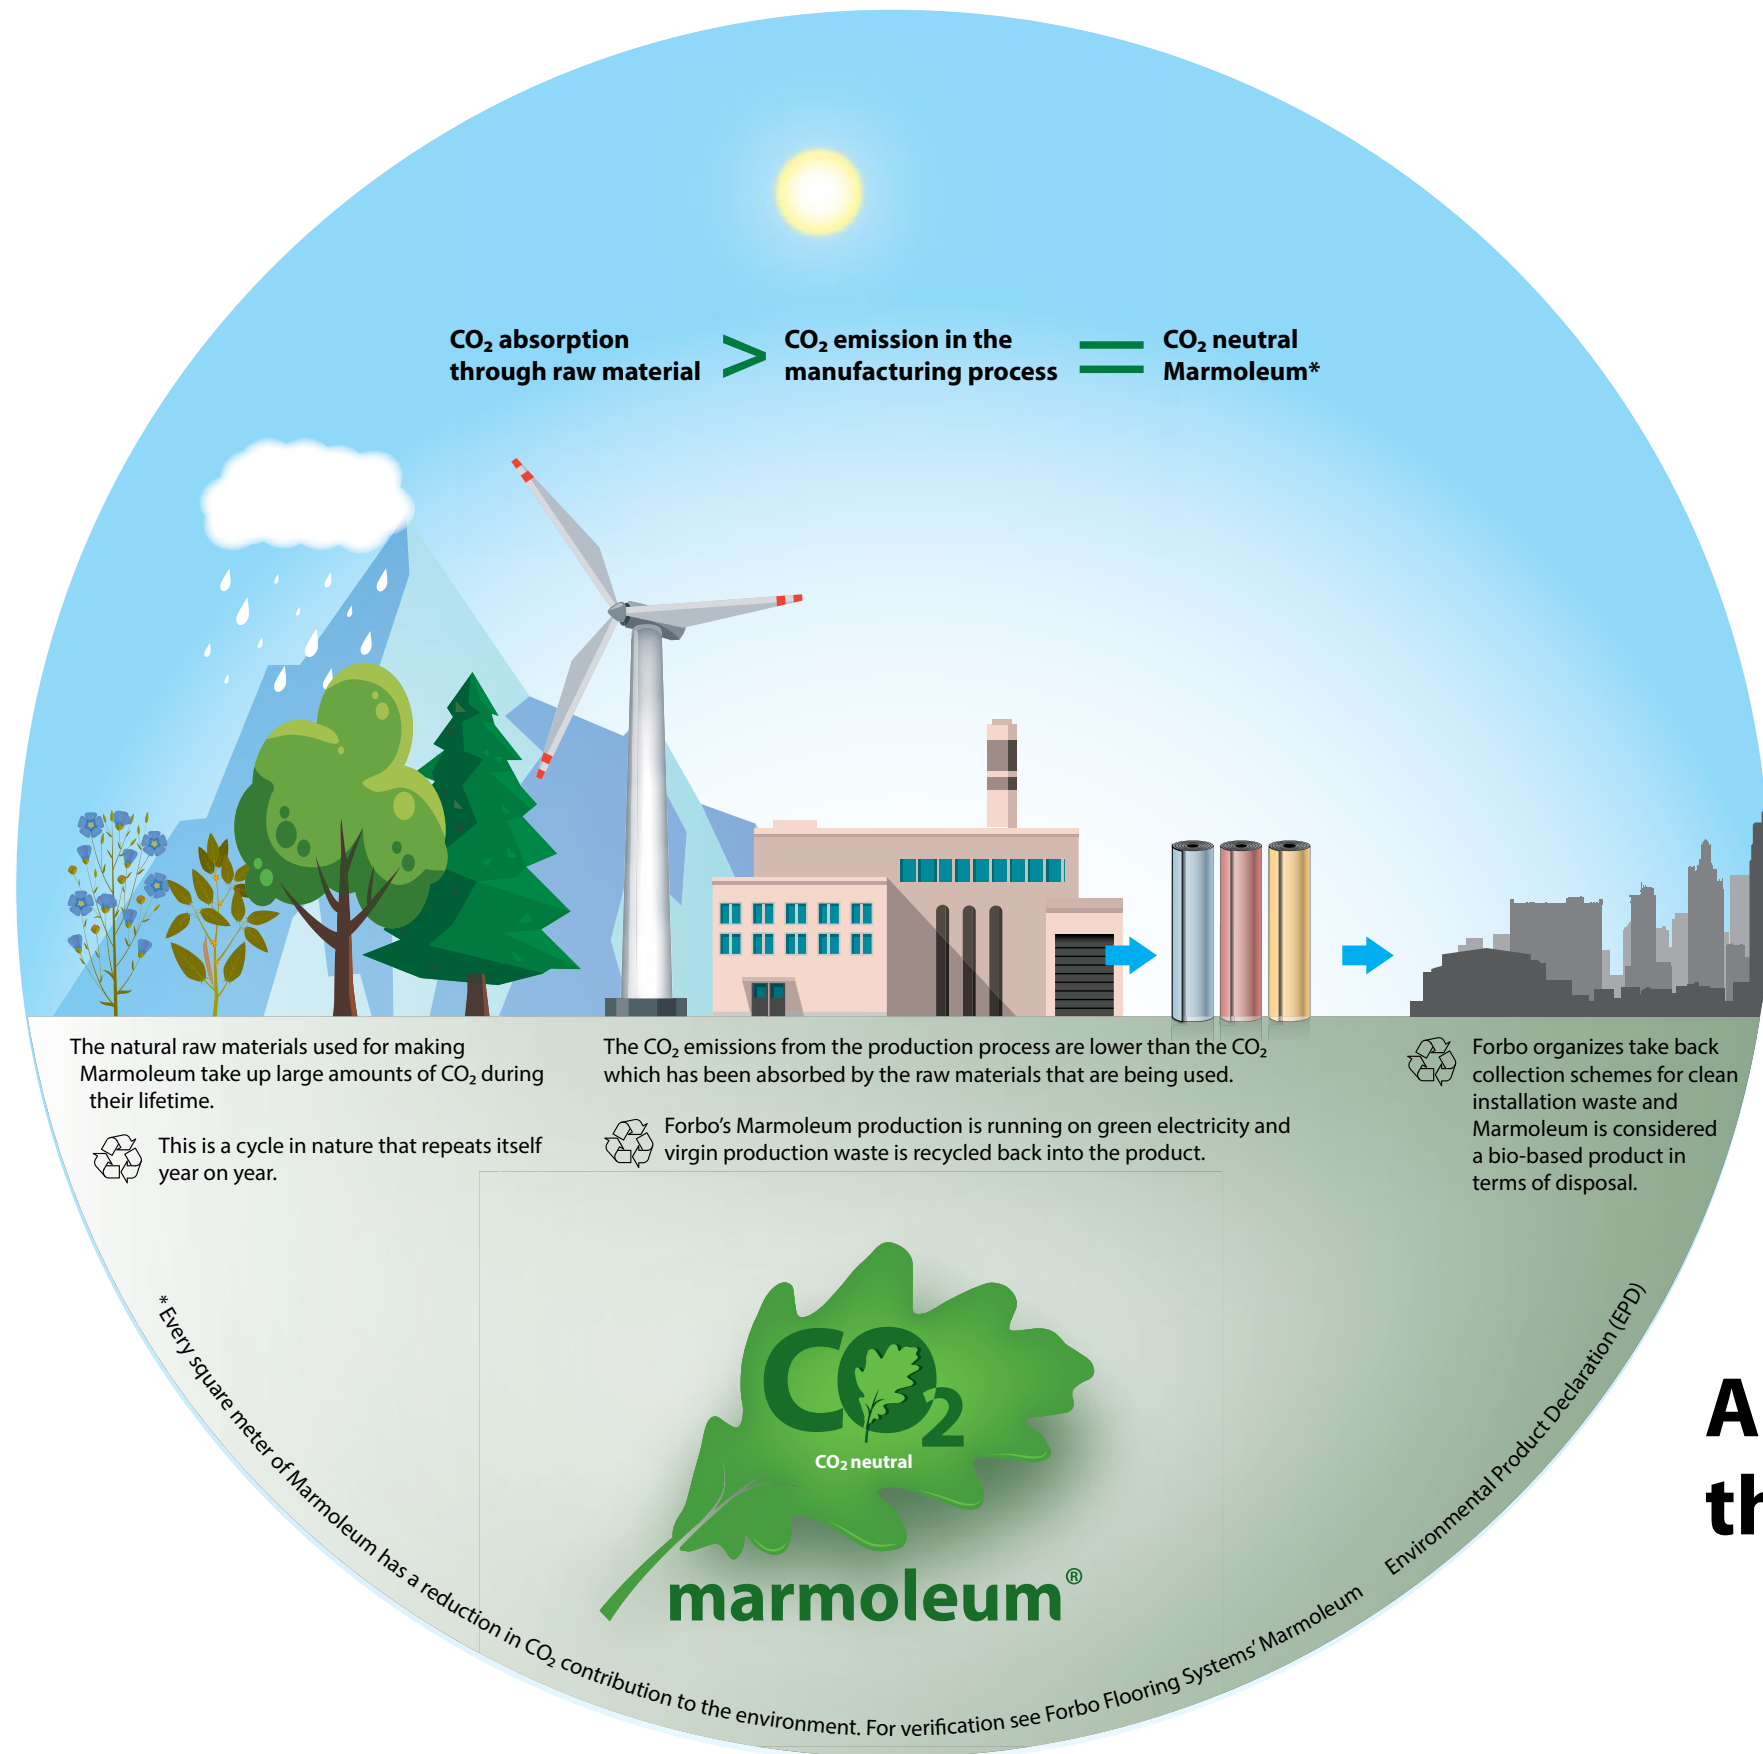

Just imagine a floor covering that is made from natural material, from plants and trees that grow and renew, often in a period of just 12 months' time... With Marmoleum, this is exactly the case.

Linseed oil from the seeds of the flax plant, fibres from jute stems, rosin from pine trees and upcycled wood residues from controlled sustainable forestry as

Marmoleum, made by nature

well as limestone and pigments, are the key materials from which Marmoleum is created. Resulting in a natural floor covering and thus creating a perfect sustainable circle. Together they provide us the basis for a strong, durable and sustainable floor covering that forms a unique product category in the world of resilient floor covering.

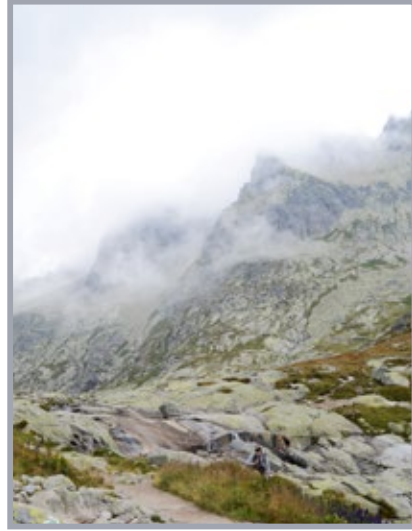

In addition to being a natural product, the Marmoleum product range is also CO₂ neutral (from cradle to gate). The living plants from which the raw material for making Marmoleum is taken, absorb a considerable amount of CO₂ from the atmosphere during their lifetime. Marmoleum is CO₂ neutral!

Our claim can be verified in the Marmoleum (2.0 and 2.5 mm sheet) Environmental Product Declarations (EPD's) which are third party verified. Marmoleum does not add any CO₂ to the planet when leaving the factory and also scores very well when evaluating the complete lifecycle and as such is really creating a better environment. At Forbo we care about creating better environments. Our aim is to deliver products that are good for your health and good for people in all respects.

A special bonus for the environment

We create safe, hygienic and beautiful floors that complement the quality and comfort of your indoor environment.

This Marmoleum Marbled sample book represents a walk through nature. Each page reflects a range of color blends and textures present in our natural environment. They evoke moods that can be described in words and images combined with the colors and structures of Marmoleum.

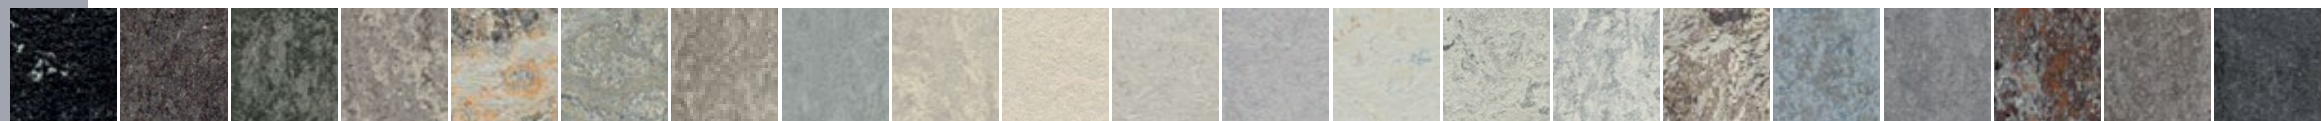

CROSS RIVERS AND CLIMB MOUNTAINS...

Inspired by the great outdoors in autumn. Rich natural hues with exciting combinations.

FOLLOW A ROCKY SHORE LINE...

Cool, calming blues and intriguing grey's, influenced by the sea in all its forms.

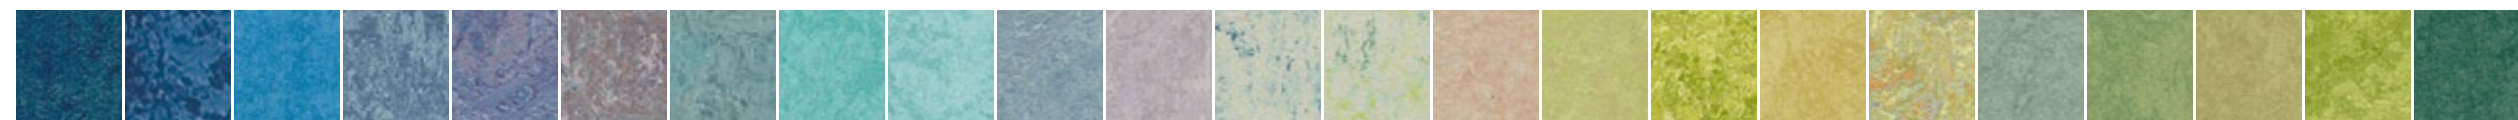

*RUN THROUGH
A DENSE FOREST...*

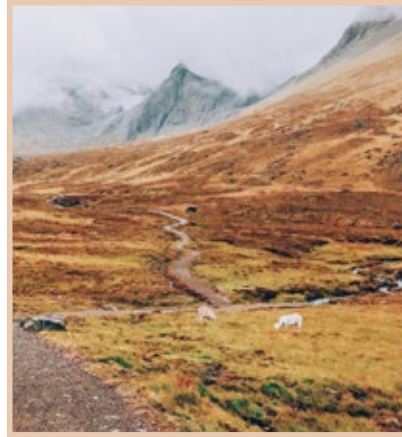

In touch with nature, beautifully fresh, lush and full of life.

*WANDER THROUGH WARM
SCENTED FIELDS...*

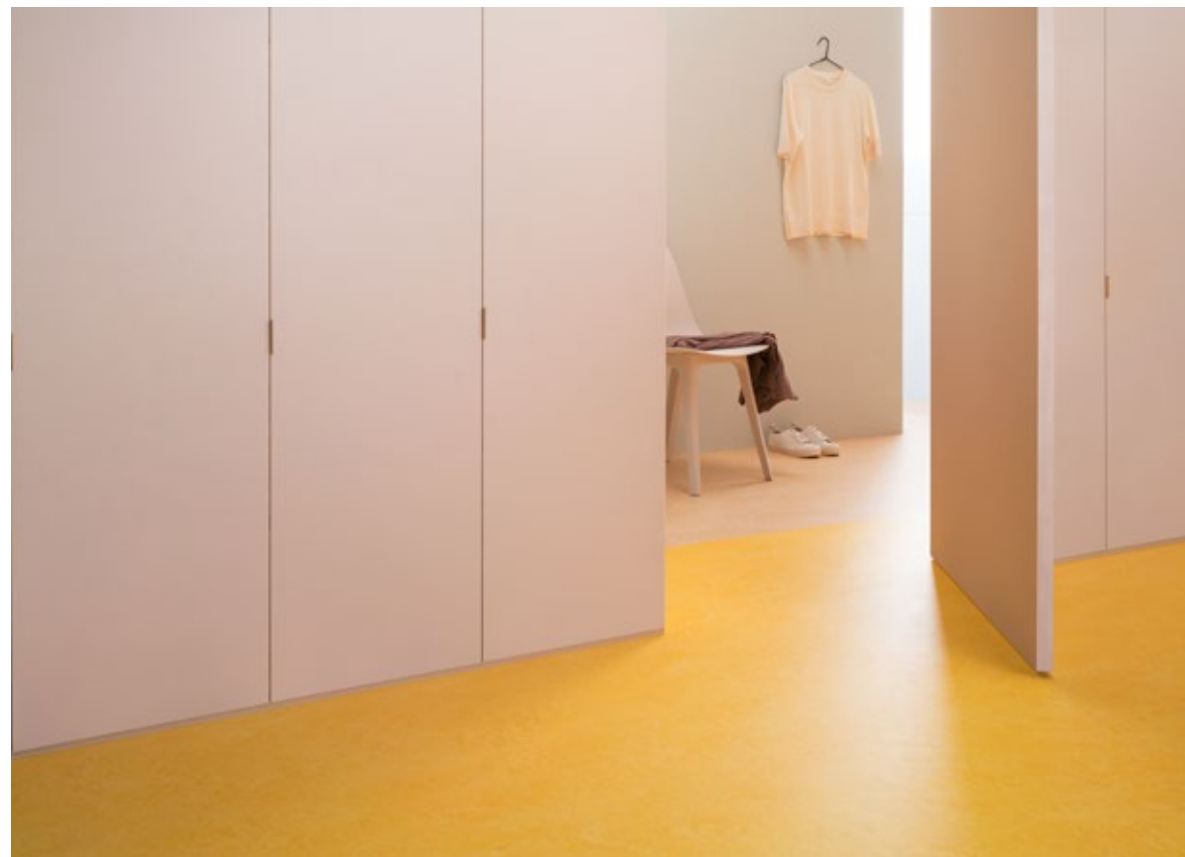

*Take time out and find peace with these rich,
warm and relaxed tones.*

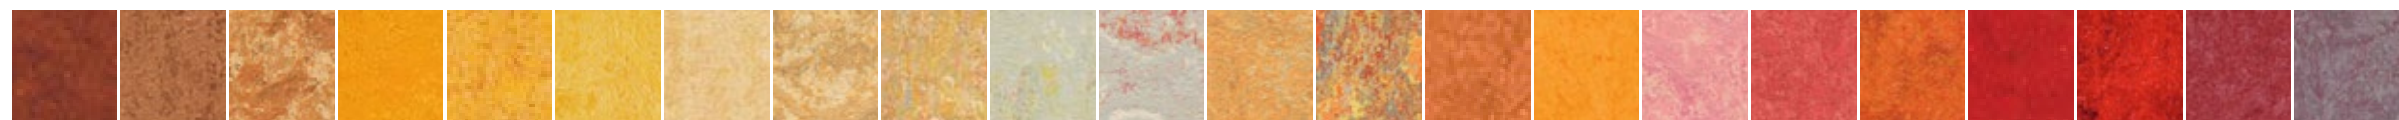

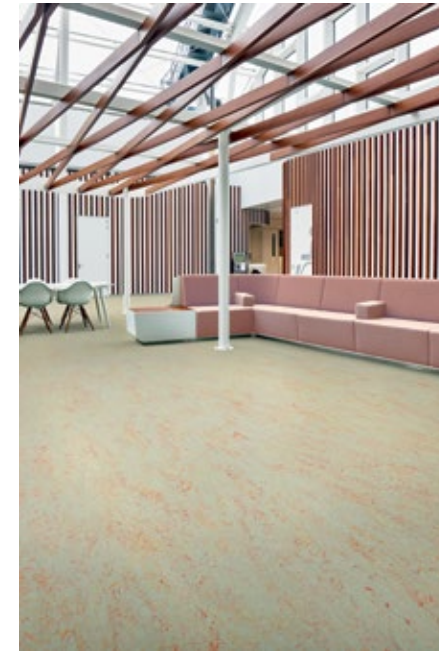

DRIFT ACROSS A SUN DRENCHED VALLEY...

Colors to excite you, transporting you to a rich landscape of warmth and texture.

SEARCH FOR WILD SUMMER FRUITS...

Sumptuous and ripe, colors that are just asking to be picked.

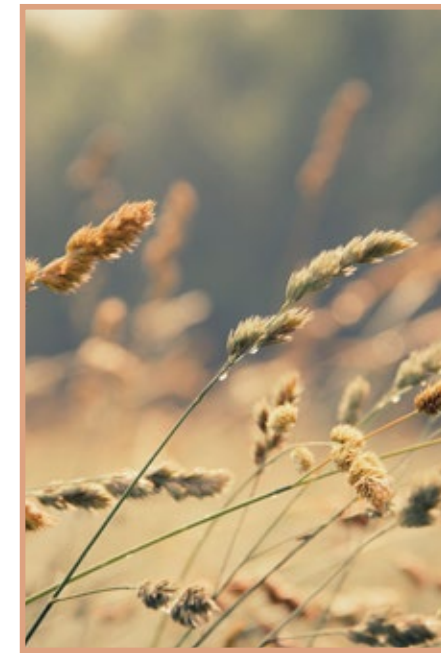

Feel-good colors that bring light and softness, like a breath of fresh air.

PICNIC IN A *FIELD* *OF WHEAT*...

SCRAMBLE UP *A RUGGED* *HILLSIDE*...

Rugged earthen tones, designed to bring out your spirit of adventure.

Defining Pure Spaces

The spirit and strength of Marmoleum Solid lies in its subtle nuances of color. We created a modern range of almost uni flooring designs with twists and traces of color in various designs. The Solid collection offers 4 different structures that provide the foundation for creating pure, distinctive modern spaces.

Check our website for full details: www.forboflooring.com

Cocoa

The Reddot and iF Design Award winning Marmoleum Cocoa collection embraces our ethos of sustainable design and is a truly environment-friendly addition to the Solid collection. By adding upcycled cocoa shell material to the traditional Marmoleum ingredients, we have created an innovation in texture, aesthetics and circular design. The result is a new and exciting surface texture that is both natural looking and contemporary in feel.

marmoleum® solid

marmoleum® linear

Linear

Our Marmoleum Linear sheet range presents exciting linear floor designs in both warm neutrals and outspoken bright colors. The organic linear structure gives your floor a natural, cozy feel. Check our website for full details: www.forboflooring.com

marmoleum® modular

Modular

Create your own floor! Our Marmoleum Modular collection presents sustainable linoleum tiles in various sizes and designs that allow you to create stunning floors according to your taste and space. Our Marmoleum Modular tiles and planks combine modern design with outstanding functionality. A distinctively contemporary flooring solution - even for high traffic areas. As with sheet Marmoleum, these tiles and planks offer a healthy indoor climate and a responsible use of the planet's natural resources.

The colors are available in structures of wood, concrete, stone and marble. They incorporate three vibrant embossed designs that change subtly when viewed from different angles. For more details, check www.forboflooring.com

furniture linoleum

Furniture linoleum

Furniture Linoleum is a unique surfacing material for furniture such as desks, stools, cabinets, doors and displays. It is renowned for its elegance and durability and, being made of natural ingredients, it is a sustainable surface choice.

The unique aesthetic and tactile properties ensure that every object develops its own character. The combination of a matte surface and a warm, soft texture guarantees interior furniture with a truly distinctive, individual look & feel. For more details, check www.forboflooring.com/furniture

marmoleum® cinch loc seal

Cinch Loc SEAL

Marmoleum Cinch Loc Seal presents a range of easy to install Marmoleum panels and squares. They are made of professional High Density Fibre board, with a sound absorbing cork backing and 2.5 mm Marmoleum on top. This natural floor covering is easy to install and gives you endless design possibilities. Marmoleum Cinch LOC Seal is available in two sizes and many colors ranging from soothing neutrals to vibrant bolds. For more details, check www.forboflooring.com

bulletin board®

Pin board linoleum

Our Bulletin Board linoleum offers a practical, simple solution for collecting and exchanging thoughts and ideas - wherever people plan, create and meet. Bulletin Board is an all-natural material that can be applied in framed or mounted pin boards or directly to the wall. Its surface is tactile and colorful, creating a decorative element in your space. For more details, check www.forboflooring.com/furniture

Designing with marmoleum

Water-jet & laser-engraving

Are you looking for something unique on your floor? Our Water-jet technique allows us to cut the most detailed and beautiful design inlays into your floor. Standard designs are available, however, you can have your own branding or any other design, created specially for your floor.

From laser-engraved Marmoleum tiles to exciting designs created by international designers: explore the wide range of possibilities on our website at www.forboflooring.com

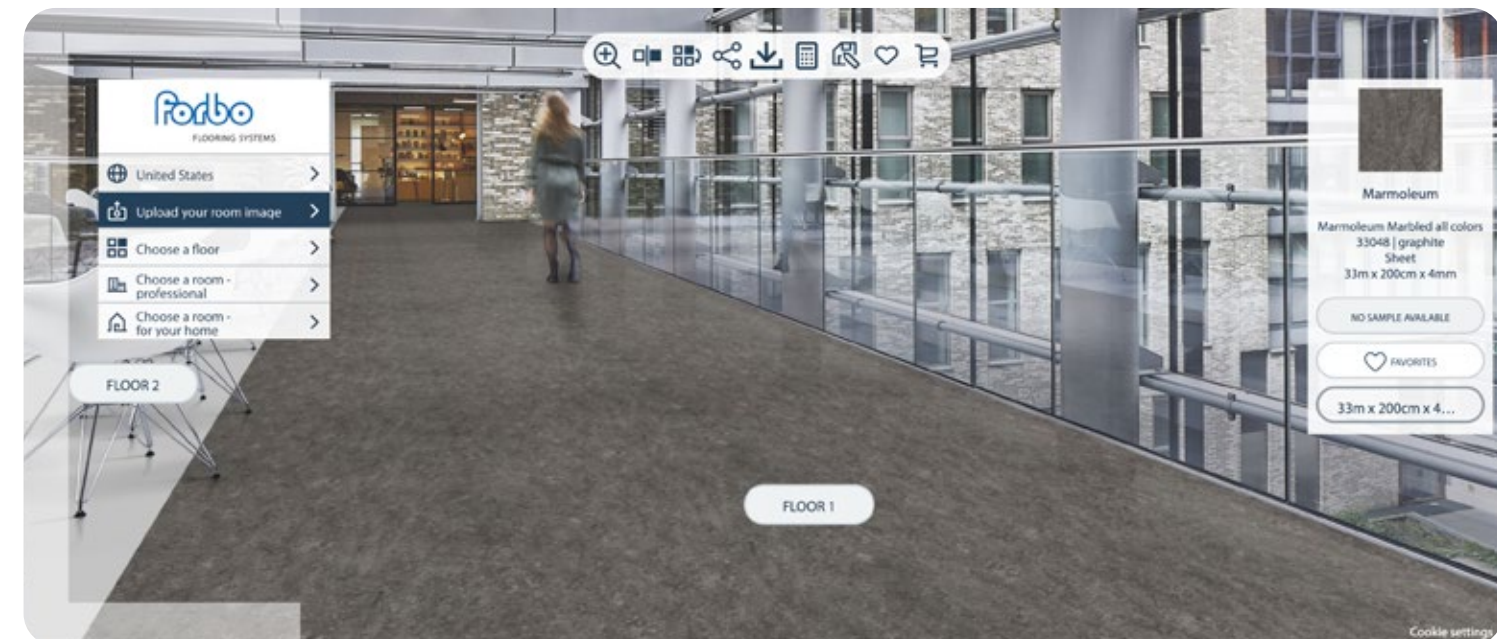

Signs & Symbols

Decorative flooring can be functional as well as beautiful. Think of routing signs at floor level in hospitals or museums. Or zoning to identify different areas of a building. Signs and Symbols help people to find their way around or recognize the purpose of the space they are in. We have created a standard set of signs and symbols for our Marmoleum floors, but feel free to ask us for custom designs.

Forbo FloorVisualizer

On our website you can find our Forbo FloorVisualizer. With the FloorVisualizer you can see how your desired floor will look in the environment of your choice, for example your office, store or home. Mix and match different floor colors in different interiors to get an idea of how your floor will look like in place.

- There are matching welding rods available for every Marmoleum design. The best matching welding rod has been selected in either uni (UNI) or multi coloured (MC) structure.
- Matching wall skirting or coving solutions are available for all Marmoleum colors.
- A 2.0 mm natural Corkment underlay can be used with regular 2.5 mm Marmoleum to reduce impact sound by 14 dB.
- All marmoleum colors are available in 18dB 3.5mm Decibel construction. They are made on request and minimum order quantities and lead times apply.
- Pre-cuts sized 61 x 61 cm of all Marmoleum colors can be made for raised floor manufacturers. These are available on request and minimum order quantities and lead times apply. Please contact your local sales manager for more information.

**FROM THE INDOOR ENVIRONMENT TO THE
NATURAL ENVIRONMENT, MARMOLEUM®
HELPS CREATE BETTER ENVIRONMENTS.**

Made from natural, renewable ingredients, Marmoleum shee tand tile products are USDA Certified 100% biobased and features naturally inherent antimicrobial and antistatic properties.

Marmoleum's sustainable, water-based Topshield pro finish provides occupancy-ready installation and exceptional performance against real world flooring damage, including soiling, staining, scratching and scuffing. While non-renewable floor coverings may be permanently damaged, Marmoleum can easily and cost-eff ectively be renewed, bringing the floor covering back to its original beauty, even after years of heavy use. In fact, Marmoleum has a system service life of 30 years.
