Box-cross

With one design you can transform a space. With Box-cross every plank is unique containing a pattern that subtly changes from cross to box fading one into the other along the length whilst a diagonal texture plays across the width blending the planks together.

Seagrass

The ultimate playground when it comes to floordesigns. The Seagrass is happy when it is laid as herringbone or even double herringbone but also as brick or weave these designs completely come to live. The colours are easy to combine but having just one colour is more than sophisticated.

139001 | cloud 139002 | thunder 139003 | smoke

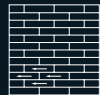

Concrete

A concrete look like never before. Highly detailed, warm and tactile but with a durability to rival a real concrete floor. Experiment with its four colourways to create sophisticated combinations with a timeless look.

Wood

A wood pattern on a textile floor? You will be amazed how good it looks and also how it feels and performs. A nice warm underfoot, no noise of ticking shoes and no wear. The ideal floor in offices, hotelrooms or elderly care locations. It is a mindset change. Get the looks of real wood with the advantages of a textile floor. All installation patterns are possible, use your imagination.
