

Forbo's FESSI network

(Forbo Entrance System Specialist Installer)

FESSI contractors (Forbo Entrance System Specialist Installer) are independent companies, hand picked by Forbo on the basis of their experience in this important area of the flooring market and their commitment to deliver consistently high quality installations.

Each FESSI contractor has undertaken intensive training on the installation of entrance flooring systems, and under the guidance of experienced CITB approved Forbo Flooring trainers, has learnt how to specify and install the optimal Nuway scheme for every type of project. In order to gain approved FESSI contractor status they have had to demonstrate their ability to deliver demanding Nuway installations incorporating complex shaping and breakouts.

There are two levels of training, FESSI Technician and FESSI Master Fitter. All participants must have completed the CITB approved training course in order to achieve FESSI Technician status and be authorised to carry a FESSI ID card. Master Fitters must undertake a further days specialist training.

We recommend that Nuway rigid engineered matting systems are fitted by FESSI contractors as they offer free site surveys and provide detailed 'supply and fit' quotations for every project. They will also carry out the entire installation to the highest standards, including preparation of the subfloor.

On the next pages you will find details of the contractors who are members of the FESSI network.

Humber and Yorkshire, Midlands, North East

Commercial Entrance Matting (CEM) is a division of Contract Flooring Interiors, the largest flooring contractor in Hull and the East Riding. We are the only Category One flooring contractor for BAM Construction in the North East. The company has grown due to consistently delivering a high standard of work at a competitive price to our clients. CFI has the Health and Safety accreditations CHAS, Safecontractor, Constructionline and all our fitters are CSCS registered.

We are constantly trying to improve the level of service at CFI and are accredited ISO 9001, which is an audited quality management system. We are also accredited to ISO 14001, a framework by which our business addresses the issues surrounding its environmental impact.

Hillside Contracts Limited
