

Forbo Environmental Data Sheet

Product name	Tessera Barcode
Product description	Tessera Barcode is a low level loop pile carpet tile with a linear design. Barcode is manufactured with 100% solution dyed yarn for superior colour fastness. Barcode complies with all requirements of EN1307: Textile Floor Coverings – Classification of Pile Carpets.
Manufacturing location	Bamber Bridge, United Kingdom
Site accreditation	ISO14001, ISO 9001, OHSAS 18001, SA8000®

Our footprint – how it's made

Environmental data		Independent assessment and rating	
Total recycled content of product by weight	65%	ISO 9001 Quality Management System	ESO 9001 Quality Nonagement
		ISO 14001 Environmental Management System	ISO 16001 Endemential Hanagement
Post industrial recycled content	65%	OHSAS 18001 Occupational Health and Safety Management	CHSAS 18931
Post consumer recycled content	0%		Despectional Hearth and Sofery Monagement
Recycled content of yarn	15%	Barcode is made in an SA8000° certified facility	
% renewable electricity used	100%		

Carbon footprint

Estimated carbon footprint using Awaiting data data from Environmental product declaration according to ISO 14025

Your footsteps – how it performs

Health and well being		
Air quality CHPS 01350 AgBB/DiBt	Tessera products comply to 01350 Indoor Air Quality Standard Pass	
Impact sound reduction	22dB	
Installation		
Recommended adhesives	Carpet tiles must be adhered using an all over tackifier adhesive system: Forbo Eurocol 542 Eurofix Tack Plus, a solvent free release system, is recommended. Where periphery tiles are not constrained by fixtures e.g. walls, edge strips etc, it is recommended that such tiles are adhered using a permaner adhesive; Forbo Eurocol 540 Eurosafe Special, again a solvent free adhesive, is recommended.	
	Adhesives must be applied according to the manufacturer's instructions and it is essential that tackifier adhesives are allowed to dry to a tacky finish before laying the carpet tile. Failure to do so could result in a permanent nonrelease bond.	
	Where contribution to credits for BREEAM sections HEA2 and HEA9 are required then low emission adhesive Eurocol 542 Eurofix tack plus should be used. If a permanent bond is required, please use Eurocol 640 Eurostar special.	

creating better environments

Maintenance

	All Tessera products are suitable for cleaning using the Dry Fusion technique. Dry Fusion uses 95% less water than the normal system of cleaning, produces no waste product, uses non hazardous and biodegradable cleaning solutions and all packaging and materials within the Dry Fusion System can be recycled.		
End of life			
	Products suitable for reuse, recycling, downcycling and waste to energy.		
	Forbo Flooring Systems works with recycling companies to clean, reuse and recycle old carpet tiles in the UK.

Reuse Yarn ends are rewound and used in the production of new Tessera Carpet tiles. Cutting waste and imperfect tiles can be reprocessed and turned into backing at our Bamber Bridge plant - creating a closed loop process. All Tessera samples can be returned allowing them to be reused or recycled, reducing the need for virgin material. Recycle Yarns, fillers and compounds all contain recycled materials. All tufted Tessera carpet tiles made in the UK contain at least 50% recycled content by weight. Renew All Tessera carpet tiles manufactured at Bamber Bridge are made with 100% renewable electricity.
