

TOOLS ACCESSORIES DATA SHEET

Forbo Overall

Ref. : 230 + size

Particularly suitable for floorcovering applications : pockets for kneepads and various tool pockets. Various sizes available (with lead time depending on size). Forbo Flooring Systems embroidery on back.

Knee pads

Ref. : 145

Foam knee pads for Forbo overall.

CM bottle box

Ref. : 228

To determine the precise humidity percent in a concrete slab or floor. (in accordance with the DTU 53.12 requirements).

VID4 dampness meter

Ref. : 289

Ideal for preliminary carbide bomb testing. For non-destructive moisture detection in materials of all kinds. High-frequency electronic measurement.

Spatula spreader (A1 - A2 - B1 - S1)

Ref. : 182 (A1) / 183 (A2) / 184 (B1) / 186 (S1)

A1 / A2 / B1 : spatula 25 cm wooden handle

S1 : reversible spreader blades 25cm. Allow to apply right adhesive quantity for each floorcovering.

Box 10 spatula (A1 - A2 - B1) or 10 spreader blades (S1)

Unrolling Rolly A4

Ref. : 166

For unrolling floorcovering spools. Easy to transport and use thanks to its small format (A4). 2 unwinders are recommended for perfect unwinding.

Long flat ruler

Ref. : 223

One ruler of 210 cm long in stainless steel.

Short flat ruler

Ref. : 261

One ruler of 60 cm long in stainless steel.

Forbo Trimmer

Ref. : 103

Allows easy, clean trimming of edges to produce perfect joints. It can also be used to cut decorative strips in widths of 5, 10, 20, 25 and 30 mm, thanks to the various shims supplied.

Skirting trimmer

Ref. : 206

Easy and fast trimming of the skirting without marking.

Knife for siphon

Ref. : 200

Allows the floorcovering to be cut to the required diameter for integration into the PVC floor drain collar

Long scriber

Ref. : 101

For tracing around the periphery of a wall profile by simple transfer. Essential for laying linoleum flooring. Supplied with 3 blades and 10 tips.

Short scriber

Ref. : 102

For tracing joints, step nosers and for connecting strips with preformed linoleum skirting. Essential for laying linoleum flooring. Supplied with 3 blades and 10 tips.

Scriber spare tips (100 tips)

Ref. : 149

For short and long scriber.

Scriber blades (6 blades)

Ref. : 156

For short and long scriber

Bonding hammer

Ref. : 204

Bonding of PVC and Linoleum tile products and also embedded and flat tufted pieces. Essential for laying flexible flooring.

Cork bonding block

Ref. : 205

For bonding hammering without leaving any marks. Dimensions : 300 x 120 x 25mm. Made of cork. Essential for laying flexible flooring.

LVT pressure roller

Ref. : 188

For gluing or clipping LVT coverings. The 26 ball-bearings provide powerful pressure for effective edge and full troweling (width 130 mm).

Forbo roller

Ref. : 212

The only tool to efficiently transfer adhesive to the back of the flooring. Width 50cm. Weight 50kg.

Anti-bounce hammer for LVT

Ref. : 165

For assembling LVT click planks together. Shocks absorbed. Does not leave marks.

Groover

Ref. : 115

Groove the joints for hot welding operations.

Blades for groover (x10)

Ref. : 116

Spare blades with round 'U' end for groover. Hardened steel blade.

Little groover for Floor & Wall

Ref. : 167

Small, practical and ergonomic grooving machine. Equipped with 2 adjustable 3.5 mm blades: the rear blade allows grooving right up to the skirting board. Ideal for chamfering PVC wall cladding.

PVC fast welding nozzle

Ref. : 119

For heat welding PVC coatings with 4 mm diameter weld bead

LINO fast welding nozzle

Ref. : 121

For heat-welding linoleum coverings with 4 mm diameter weld bead.

Nozzle brush

Ref. : 197

To remove melted rod residues from fast welding nozzle.
Dimension : 30 cm long

Triangular fast welding nozzle (wall)

Ref. : 207

For heat-welding PVC coatings with 4 mm diameter weld bead.

Quarter moon knife

Ref. : 117

For trimming welding rods in 2 steps :
1st pass on hot weld with quarter-moon knife fitted with trimming guide, second pass on cooled weld with knife alone.

Trimming guide

Ref. : 118

For trimming welding rods in 2 steps : 1st pass on hot weld with quarter-moon knife fitted with trimming guide, second pass on cooled weld with knife alone.

Forked trimmer

Ref. : 214

For trimming the weld bead while avoiding surface relief. Trimmer particularly suitable for shower system floors.

MOZART trimmer

Ref. : 190

For trimming hot weld in two steps with a single tool. (perfect for compact and wall PVC).

MOZART blades

Ref. : 191

Blades for Mozart trimmer (x5).

TOOLS ACCESSORIES DATA SHEET

Trimmer for difficult trimming

Ref. : 120

For trimming hot weld in corners, skirting upstand and back of step.

Blades for trimmer (x2)

Ref. : 208 (6 mm) / 209 (12 mm) / 211 (pointed) / 210 (flat)

Blades for difficult trimming.

Welding car

Ref. : 192

Professional tool to make an easier job with hand hot air tools.

For short lanes as well as large areas. Due to front and back rollers the system can lead stabilised in the grooved seam. Working angle adjustable.

Mitre tool

Ref. : 153

For cutting decorative HDF & Cubu skirtings and forming corners.

LVT guillotine

Ref. : 178

For clean, careful cutting of LVT boards (up to 6 mm thick). Cutting width up to 330 mm - Cutting angle 0-45°.

Knife with 5 blades

Ref. : 202 straight blades

Ref. : 203 hood blades

In aluminum with plastic sheath (with 5 straight blades or 5 hook blades).

Hot welding gun TRIAC ST

Ref. : 217

For making welds in flexible flooring.

Power 1600 W.

Weight 0.9 kg.

Resistance for TRIAC ST

Ref. : 217R

Replacement resistance essential for the operation of the device.

TOOLS ACCESSORIES DATA SHEET

Hot welding gun HOT JET S

Ref. : 218

For the implementation of hot welds. Ideal in hard to reach places.

Power 460W.

Weight 0.6kg.

Resistance for HOT JET S

Ref. : 218

Replacement resistance essential for the operation of the device.

KFU1000E groover

Ref. : 125

For clean grooving with adjustment of the cutting height (0 to 4.5mm)

Power 900W.

Weight 4.9kg.

Safety system.

Guid disc and recovery bag.

Mini Floor

Ref. : 193

Automatic welder for Triac welding gun. Easy to use and to transport (5.3kg).

Delivered without welding gun.

PVC complete bag

Ref. : 219

Tool bag including the necessary tools for the proper implementation of PVC coatings.

The bag contains:

- 1 short flat ruler ref. 261
- 1 long flat ruler ref. 223
- 1 knife with 5 straight blades ref. 202
- 1 knife with 5 hood blades ref. 203
- 1 skirting trimmer ref. 206
- 1 bonding hammer ref. 204
- 1 cork bonding block ref. 205
- 1 groover ref. 115
- 10 blades for groover ref. 116
- 1 PVC fast welding nozzle ref. 119
- 1 triangular fast welding nozzle (wall) ref. 207
- 1 quarter moon knife ref. 117
- 1 trimming guide ref. 118
- 1 trimming for difficult trimming ref. 120
- 8 blades for trimmer:
 - 6 mm diam. (x2) ref. 208
 - 12 mm diam. (x2) ref. 209
 - plates (x2) ref. 210
 - pointed (x2) ref. 211

LINO complete bag

Ref. : 220

Tool bag including the necessary tools for the proper installation of Linoleum floorcovering.

The bag contains:

- 1 short flat ruler ref. 261
- 1 long flat ruler ref. 223
- 1 knife with 5 straight blades ref. 202
- 1 knife with 5 hood blades ref. 203
- 1 long scribe with 3 blades and 10 tips ref. 101
- 1 short scribe with 3 blades and 10 tips ref. 102
- 1 cork bonding block ref. 205
- 1 groover ref. 115
- 10 blades for groover ref. 116
- 1 LINO fast welding nozzle ref. 121
- 1 quarter moon knife ref. 117
- 1 trimming guide ref. 118
- 1 trimmer for difficult trimming ref. 120
- 2 blades for trimmer diam 6mm ref. 208
