Twine is part of the evolve+ series

evolve+ product evolution
for enhanced sustainability

By evolving our standard carpet tile construction, which already contains over 60% recycled content, our evolve+ series ranges have increased recycled content of over 75% and lower embodied carbon of less than 2kg* CO₂e/m² (A1-A3), all independently verified and without offsetting.

Tessera evolve+ series achieve the following:

-  **Less than 2 kg*** CO₂e/m² of embodied carbon (A1-A3)
-  **More than 75%** recycled content
-  **100%** renewable energy

**see website for individual range details*

Twine celebrates our bond with nature, symbolising the threads that tie us together and the connections we weave within the environment in which we live.

A softly striated loop, inspired by the natural organic elements of bark and leaves, **Twine** is a beautifully balanced pattern with a naturally influenced colour palette.

Available in 50cm x 50cm tile format in 8 neutral tones and 4 muted accent colours, **Twine** creates a soft organic linear flow to work in office and education spaces.

Twine complements other Tessera ranges and the wider Forbo portfolio through matching colours, tones and harmonising designs, giving greater creative options and opportunities to create coordinating schemes which work with your space.

Through meeting the requirements such as product EPDs, indoor air quality (Indoor Air Comfort Gold and GUT) and sustainability targets, **Twine** also contributes to popular build schemes such as BREEAM, LEED and WELL.
