

# TOOLS ACCESSORIES

## Forbo Overall

Particularly suitable for floorcovering applications : pockets for kneepads and various tool pockets. Various sizes available (with lead time depending on size). Forbo Flooring Systems embroidery on back.

Ref. : 230 + size

## Knee pads

Foam knee pads for Forbo overall.

Ref.: 145

## Long flat ruler

A 210 cm stainless steel ruler.

Ref. : 223

## Short flat ruler

A 60 cm stainless steel ruler.

Ref. : 261

## VID4 dampness meter

Ideal for preliminary carbide bomb testing. For non-destructive moisture detection in materials of all kinds. High-frequency electronic measurement.

Ref. : 289

## Spatula spreader (A1 - A2 - B1 - S1)

A1 / A2 / B1 : spatula 25 cm wooden handle

S1 : reversible spreader blades 25 cm

Allow to apply right adhesive quantity for each floorcovering.

## Box 10 spatula (A1 - A2 - B1) or 10 spreader blades (S1)

Ref. : 182 (A1) / 183 (A2) / 184 (B1) / 186 (S1)

## Knife with 5 blades

In aluminium with plastic sheath (with 5 straight blades or 5 hook blades).

Ref. : 202 straight blades

Ref. : 203 hood blades

## Forbo Trimmer

Allows easy, clean trimming of edges to produce perfect joints. It can also be used to cut decorative strips in widths of 5, 10, 20, 25 and 30 mm, thanks to the various shims supplied.

Ref. : 103

## Unrolling Rolly A4

For unrolling floorcovering spools. Easy to transport and use thanks to its small format (A4). 2 unwinders are recommended for perfect unwinding.

Ref. : 166

## CM bottle box

To determine the precise humidity percent in a concrete slab or floor (in accordance with the DTU 53.12 requirements).

Ref. : 228

# TOOLS ACCESSORIES

## Skirting trimmer

Easy and fast trimming of the skirting without marking.  
Ref. : 206

## Knife for siphon

Allows the floorcovering to be cut to the required diameter for integration into the PVC floor drain collar.  
Ref. : 200

## Short scriber

For tracing joints, step nosers and for connecting strips with preformed linoleum skirting. Essential for laying linoleum flooring. Supplied with 3 blades and 10 tips.  
Ref. : 102

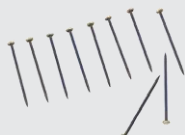

## Long scriber

For tracing around the periphery of a wall profile by simple transfer. Essential for laying linoleum flooring. Supplied with 3 blades and 10 tips.  
Ref. : 101

## Scriber spare tips (20 tips)

For short and long scriber.  
Ref. : 149

## Scriber blades (6 blades)

For short and long scriber.  
Ref. : 156

# TOOLS ACCESSORIES

## Cork bonding block

For bonding hammering without leaving any marks.

Dimensions : 300x120x25 mm.

Ref. : 205

## LVT pressure roller

For gluing or clipping LVT coverings. The 26 ball-bearings provide powerful pressure for effective edge and full troweling (width 130 mm).

Ref. : 188

## LVT pressure roller

The only tool to efficiently transfer adhesive to the back of the flooring. Width 50 cm.

Weight 50 kg.

Ref. : 212

## Bonding hammer

Permet le marouflage pendant la mise en œuvre des revêtements PVC, linoléum en dalles, aiguilletés compacts et des incrustations.

Ref. : 204

## Anti-bounce hammer for LVT

For assembling LVT click planks together. Shocks absorbed. Does not leave marks.

Ref. : 165

## Groover

Groove the joints for hot welding operations.

Ref. : 115

## Blades for groover (x10)

Spare blades with round 'U' end for groover. Hardened steel blade.

Ref. : 116

## Little groover for Floor & Wall

Small, practical and ergonomic grooving machine. Equipped with 2 adjustable 3.5 mm blades: the rear blade allows grooving right up to the skirting board. Ideal for chamfering PVC wall cladding.

Ref. : 167

**PVC fast welding nozzle**

For heat welding PVC coatings with 4 mm diameter weld bead.

Ref. : 119

**LINO fast welding nozzle**

For heat-welding linoleum coverings with 4 mm diameter weld bead.

Ref. : 121

**Triangular fast welding nozzle (wall)**

For heat-welding PVC coatings with 4 mm diameter weld bead.

Ref. : 207

**Nozzle brush**

To remove melted rod residues from fast welding nozzle.

Dimension : 30 cm long.

Ref. : 197

**Forked trimmer**

For trimming the weld bead while avoiding surface relief. Trimmer particularly suitable for shower system floors.

Ref. : 214

**Trimmer for difficult trimming**

For trimming hot weld in corners, skirting upstand and back of step.

Ref. : 120

**Blades for trimmer (x2)**

Ref. : 208 (6 mm) / 209 (12 mm) / 211 (pointed) / 210 (flat)

**MOZART trimmer**

For trimming hot weld in two steps with a single tool (perfect for compact and wall PVC).

Ref. : 190

**MOZART blades**

Blades for Mozart trimmer (x5).

Ref. : 191

**Quarter moon knife**

For trimming welding rods in 2 steps : 1st pass on hot weld with quarter-moon knife fitted with trimming guide, second pass on cooled weld with knife alone.

Ref. : 117

**Trimming guide**

Ref. : 118

# TOOLS ACCESSORIES

## Hot welding gun TRIAC ST

For making welds in flexible flooring.  
Power 1600 W.  
Weight 0,9 kg.  
Ref.: 217

### Resistance TRIAC ST

Replacement resistance essential for the operation of the device.  
Ref.: 217R

## Hot welding gun HOT JET S

For the implementation of hot welds. Ideal in hard to reach places.  
Power 460 W.  
Weight 0,6 kg.  
Ref.: 218

### Resistance HOT JET S

Replacement resistance essential for the operation of the device.  
Ref.: 218R

## Welding car

Professional tool to make an easier job with hand hot air tools. For short lanes as well as large areas. Due to front and back rollers, the system can lead stabilized in the grooved seam. Working angle adjustable.  
Ref.: 192

## KFU1000E groover

For clean grooving with chamfer height adjustment (from 0 to 4,5 mm). Supplied with a standard carbide cutter. Power 900W. Weight 4,9 kg. Safety system. Caster wheel and collection bag.  
Ref.: 125

## Mini Floor

Automatic welder for Triac welding gun (delivered without welding gun). Easy to use and to transport.  
Weight 5,3 kg.  
Ref.: 193

### LVT guillotine

For clean, careful cutting of LVT boards (up to 6 mm thick). Cutting width up to 330 mm – Cutting angle 0 – 45°.

Ref. : 178

### Mitre tool

For cutting decorative HDF and Cubu skirtings and forming corners.

Ref. : 153

### Floor layer's kit for laying PVC & LINO flooring

Tool bag containing the essential tools for proper installation of:

- PVC flooring : ref. 219
- LINO flooring : ref. 220

### PVC complete bag

The bag contains :

- 1 long flat ruler ref. 223
- 1 short flat ruler ref. 261
- 1 knife with 5 straight blades ref. 202
- 1 knife with 5 hood blades ref. 203
- 1 skirting trimmer ref. 206
- 1 bonding hammer ref. 204
- 1 cork bonding block ref. 205
- 1 groover ref. 115
- 10 blades for groover ref. 116
- 1 PVC fast welding nozzle ref. 119
- 1 triangular fast welding nozzle (wall) ref. 207
- 1 quarter moon knife ref. 117
- 1 trimming guide ref. 118
- 1 trimmer for difficult trimming ref. 120
- 8 blades for trimmer :
  - diam 6 mm (x2) ref. 208
  - diam 12 mm (x2) ref. 209
  - flat (x2) ref. 210
  - pointed (x2) ref. 211

Ref. : 219

### LINO complete bag

The bag contains :

- 1 long flat ruler ref. 223
- 1 short flat ruler ref. 261
- 1 knife with 5 straight blades ref. 202
- 1 knife with 5 hood blades ref. 203
- 1 long scribe with 3 blades and 10 tips ref. 101
- 1 short scribe with 3 blades and 10 tips ref. 102
- 1 cork bonding block ref. 205
- 1 groover ref. 115
- 10 blades for groover ref. 116
- 1 LINO fast welding nozzle ref. 121
- 1 quarter moon knife ref. 117
- 1 trimming guide ref. 118
- 1 trimmer for difficult trimming ref. 120
- 2 blades for trimmer diam 6mm ref. 208

Ref. : 220
