

HPD UNIQUE IDENTIFIER: 27529829376

CLASSIFICATION: 09 65 33 Conductive Resilient Flooring

PRODUCT DESCRIPTION: Colorex Plus EC is a heavy duty loose lay tile with permanent electrostatic conductive properties. The conductivity is ensured via the connection between the tiles through the dovetail system and connected to earth with a copper grounding strap. Colorex plus EC performs regardless the humidity level of the area. The tiles ensure all the benefits associated with Colorex along with an unique dovetail system that remains hidden under the surface. Whether an ESD facility, cleanroom, pharmaceutical laboratory or production site needs to be renovated, Colorex Plus EC can offer the right solution. It is suitable when downtime, damp floors or poor subfloors are an issue. Range of Resistance - 2.5×10^4 to 1×10^6 ; Gauge - 10.5 mm (0.413"); Tile Size - 60.8 cm x 60.8 cm (23.94" x 23.94"); Square Feet (per carton) - 19.89; Quantity (per carton) - 5.

INVENTORY AND SCREENING NOTES:

Percentage (%) ranges for ingredients are used as a means of keeping the exact formulations proprietary.

*Form-Specific Hazard: This substance's GreenScreen Benchmark or List Translator score and the applicable hazards are related to particulate inhalation, which is expected to occur only during manufacture, installation, maintenance, or demolition, due to activities such as sawing, sanding, grinding, or intensive cleaning. For this reason, this score is intentionally omitted from the "Contents highest concern" line above. See HPDC's Special Conditions policy for more information.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard
