Marmoleum surface with Topshield pro

## topshield<sup>™</sup> PRO

**Better wear performance** - Our thicker surface finish makes Marmoleum even more resistant to wear, ensuring a great design appearance for longer.

**Better stain resistance** - The new and improved surface finish technology makes Marmoleum even more resistant to stains, to evolve with the changing requirements like the use of hand disinfectants in many places.

**Better cleaning & maintenance** - The innovative application and the improved smooth surface of Marmoleum with Topshield pro secure a uniform and consistent protection for your floor. As a consequence the surface has less dirt build-up and is easier to clean.
