

FORBO GROUP

COMPANY PRESENTATION – THE INTERFACE WITH DAILY LIFE

flooring. movement.

- About 5,050 employees worldwide
- International network of 25 production and distribution companies, 6 fabrication centers as well as 47 pure sales organizations
- In a total of 39 countries worldwide
- CHF 1,085.4 million net sales in 2025
- CHF 68.9 million profit in 2025
- Forbo Holding is listed on the SIX Swiss Exchange
- Stable shareholder base – Board of Directors' stake in Forbo of nearly 30%

MILESTONES

FROM 1928 TO THE PRESENT

1928

3 linoleum manufacturers – German, Swedish and Swiss – form Continentale Linoleum Union.

1929 – 1930

2 further manufacturing sites join the Continentale Linoleum Union – Sarlino in France and the nederlandse Linoleumfabriek in the Netherlands.

1950 – 1971

Diversification into related products such as carpets and vinyl flooring.

1973 – 1974

Adhesives activities hived off from linoleum business to be developed independently.

Continentale Linoleum Union is renamed Forbo to reflect the wider portfolio of activities.

1975 – 1994

Forbo evolves into a world-wide group operating on five continents: acquisition of the Scottish Nairn linoleum manufacturing site in Kirkcaldy in 1985; diversification into wall-coverings and high-pressure laminates.

1994 – 1998

Acquisition of Siegling, a global manufacturer, specializing in process and conveyor belt systems.

Divestment of wall-coverings and laminates activities.

MILESTONES

FROM 1928 TO THE PRESENT

2000 – 2001

New strategy focusing on four divisions: Linoleum, Vinyl, Belting and Adhesives. Divestment of industrial activities, including extruded profiles, decorative products and coated textiles.

Carpet business spun off in management buyout. A series of minor acquisitions to strengthen Adhesives business.

2002 – 2003

Adhesives gains world stature by acquiring Swift, operating world-wide from the USA, Europe and Asia. Belting business expands in Britain. Linoleum and Vinyl merged to create Forbo Flooring. Now three strategic businesses: Flooring, Adhesives and Belting.

2004 – 2006

Strategic focus on three core divisions reaffirmed. Restructuring and measures to raise profitability.

Acquisition of Chinese adhesives manufacturer specialized in hot-melt and water-based adhesives.

2007

New branding and growth strategy; three core divisions – flooring, adhesives and belting – renamed Flooring Systems, Bonding Systems and Movement Systems, operating under the Forbo brand with an integrated business strategy.

MILESTONES

FROM 1928 TO THE PRESENT

2008

Acquisition of the lightweight PVC conveyor belting business from Fenner Dunlop in North America as a further step to strengthen the Movement Systems division.

Acquisition of Bonar Floors, a major European flooring manufacturer in the contract flooring sector. With this, Flooring Systems strengthened its leading position as a systems provider of resilient flooring solutions in the commercial market segment.

2012

Focus on leading market positions through the sale of the industrial adhesives activity, including synthetic polymers, which belonged to the Bonding Systems division.

Continued development of building and construction adhesives activity by running it as an independent unit in the Flooring Systems division.

2012 – 2025

Some smaller local acquisitions in North America, Asia/Pacific and Europe.

Focused development and expansion of growth markets.

TWO DIVISIONS WITH LEADING MARKET POSITIONS

FORBO GROUP

FORBO IS A LEADING PRODUCER OF FLOOR COVERINGS, BUILDING AND CONSTRUCTION ADHESIVES, AS WELL AS BELTS FOR POWER TRANSMISSION AND LIGHTWEIGHT CONVEYOR TECHNOLOGY.

For our clients, we offer tailored, innovation-led solutions that stand out for their functionality, quality, design, and sustainability.

FLOORING SYSTEMS

forbo
FLOORING SYSTEMS

creating better environments

FLOORING SYSTEMS

A leading global player in linoleum, vinyl, flocked and textile floor coverings for commercial and residential applications. World leader in linoleum with a market share of about 70%.

- **Natural linoleum** in sheet and modular formats, climate-positive cradle-to-gate without offsetting.
- High-quality **heterogeneous and homogeneous project vinyl** in sheets, tiles and planks, with advanced functionalities such as acoustic, slip-resistant and conductive properties.
- **Flocked flooring** technology in sheet, tile and plank formats, extremely durable and easy to clean, with bespoke and customisation opportunities.
- **Entrance flooring systems** in textile and rigid formats, ensuring efficient removal of moisture and dirt.
- Tufted **carpet tiles** for office, leisure and hospitality segments, featuring on-trend designs and up to 60% recycled content.
- **Needlefelt**, uni and printed non-woven textiles for commercial applications.
- **Cushion vinyl** sheet and luxury vinyl tiles for residential applications.
- A complete range of professional products — including **levelling compounds and adhesives** for textile and resilient flooring, parquet, as well as ceramic floor and wall applications — sold under the Eurocol brand.

PRODUCT RANGE

BUILDING AND CONSTRUCTION ADHESIVES ACTIVITY

FLOORING ADHESIVES

- Very low VOC-emission
- Favorable spreading capacity
- High initial adhesion strength

SUSTAINABLE LINOLEUM ADHESIVES

- Partly biobased
- CO₂ emissions saving
- Fossil raw materials saving

CERAMIC TILE ADHESIVES AND GROUTS

- For in- and outdoor use
- Suitable for all type of surfaces
- Elastic and flexible

PARQUETRY ADHESIVES

- Heavy-duty
- Fast curing
- Shear resistant setting

LEVELLING COMPOUNDS

- Cement, gypsum and hybrid based
- Self-smoothing
- Low-tension

PRIMERS AND MOISTURE BARRIERS

- Very low VOC-emission
- Favorable spreading capacity
- Fast drying

SURFACE FINISHINGS

- High-quality
- Sustainable
- High-tech industrial appearance

PRODUCT RANGE

MOVEMENT SYSTEMS

siegling transilon

conveyor and processing belts

Multi-layered polyester or aramide fabric belts with special combination of coating materials and finishing. They ensure rational material flow and efficient process sequences in all areas of light conveyor technology.

siegling transtex

conveyor belts

Multi-layered fabric or non-woven based belts with an especially robust structure, making them the ideal belts for heavy-duty conveyor work. They are characterized by ruggedness, lateral stiffness, wear and puncture resistance.

siegling prolink

modular belts

Modules made from homogenous plastics, connected by hinges, enable conveyor and process functions to be optimally combined. They are an ideal complement to conventional conveyor belts - especially in food production - offering easy cleaning, long service life, and certified food safety.

PRODUCT RANGE

MOVEMENT SYSTEMS

siegling fullsan

homogenous belts

Made from durable polyurethane, these belts resist oil, grease, moisture, and bacterial contamination. They are exceptionally easy to clean and perfectly suited for hygiene-critical applications such as dairy, dough preparation, meat, poultry, and other food processing areas.

siegling extremultus

flat belts

Multi-layered flat belts with tension members made of highly oriented polyamide sheet or man-made fiber fabrics. As power transmission drive and conveyor elements, they optimize power transmission and many production processes.

siegling proposition

timing belts

Form-fit belts made from homogenous plastics with different tension members; in particular for demanding applications with accelerating, timing and positioning.

VALUE CREATION CHAIN – FROM FABRIC TO FITTED BELTS

PRODUCTION

- State-of-the-art mixing and multiple coating technologies
- Lean, clean and efficient roll manufacturing
- More than just a „chemical factory“ due to application and customer oriented R&D support: "Movement is our business."

FABRICATION

- Advanced workshop network for belt engineering
- Product and application specific know-how
- Customized belt fabrication

SERVICE

- Close to our customers
- Belting expertise
- Fast response time (24/7)
- Reliable on-site services
- Belting tools and training offerings for our customers

WHAT MAKES OUR CUSTOMERS TRUST

- Broad belting product range in **first-class quality** – from industry standards to customer specific developments
- Worldwide **24/7-hour service**
- **Local production, inventory and fabrication** on all continents (fast and market-oriented)
- Global project management, technical consultation and **on-site services** with local staff
- Outstanding **research and development capabilities** to drive trend-setting innovations
- Production options for conveyor belting up to a **width of 5 meters**
- Our **quality and environmental management systems** are certified according to ISO 9001, ISO 14001, ISO 45001, and ISO 50001

RESPONSIBILITY AND SUSTAINABILITY

FORBO GROUP – SUSTAINABLE PRODUCTS

We offer a growing portfolio of low-impact, certified products that help customers reduce CO₂ and advance circularity:

- **Climate-positive linoleum**, which is climate positive from cradle to gate and low-impact flooring solutions with high recycled content and circular-design features.
- **Flooring lifecycle assessments and Environmental Product Declarations (EPDs)** provide product transparency and support customers' CO₂ reduction goals.
- **Sustainable belting solutions**, such as certified Amp Miser™ 2.0 Energy Saving conveyor belts, reduce material impact and improve operational efficiency.
- **Integrating recycled and bio-based material inputs** in new belt developments to lower reliance on virgin materials.

MOVEMENT SYSTEMS

RESPONSIBILITY AND SUSTAINABILITY

FORBO GROUP – OUR APPROACH

Responsibility and sustainability are embedded in how we operate, innovate, and create long-term value across the Forbo Group.

We are committed to reducing our environmental footprint, supporting our people, and ensuring responsible, transparent governance throughout the value chain.

Our key ESG levers, from carbon footprint and circularity to people, culture, transparency and responsible conduct, guide our actions with a clear focus on our most material topics across:

ENVIRONMENT | SOCIAL | GOVERNANCE

Our key levers at a glance¹⁾

- 3 GOOD HEALTH AND WELL-BEING
- 5 GENDER EQUALITY
- 8 DECENT WORK AND ECONOMIC GROWTH
- 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE
- 10 REDUCED INEQUALITIES
- 11 SUSTAINABLE CITIES AND COMMUNITIES
- 12 RESPONSIBLE CONSUMPTION AND PRODUCTION
- 13 CLIMATE ACTION
- 15 LIFE ON LAND
- 16 PEACE, JUSTICE AND STRONG INSTITUTIONS
- 17 PARTNERSHIPS FOR THE GOALS

¹⁾ Numbers refer to the UN Sustainable Development Goals (SDGs). The SDGs shown reflect those most relevant to Forbo in the context of our business activities and value chain.

RESPONSIBILITY AND SUSTAINABILITY

FORBO GROUP – ENVIRONMENT

Our environmental strategy focuses on decarbonization, circular resource use, and responsible operations across the entire value chain:

- **We reduce our environmental footprint** through targeted CO₂ reductions, renewable energy, and circularity initiatives.
- **Our decarbonization pathway** leads to measurable progress across Scopes 1–3.
- **Continuous investments in R&D and technology** enhance the environmental performance of our products and processes.
- **Responsible product sourcing** wherever possible aligns our customers' quality expectations with environmental care.

2025

-26%

Scope 1 & 2 emissions*

95%

of purchased electricity is from renewable sources

-29.3%

reduction of CO₂ emissions per m² of product*

*in 2025, compared to baseline 2023

RESPONSIBILITY AND SUSTAINABILITY

FORBO GROUP – SOCIAL

People and culture are at the heart of our success, shaping a safe, inclusive, and development-driven workplace:

- **Unlocking people’s potential:** Growth is driven by empowering our people, strengthening collaboration, and building a leadership culture based on trust and initiative (improved LTIFR, zero fatalities and rising diversity).
- **Developing skills and connection:** Focused training, open dialogue, and cross-team collaboration enable employees to grow, contribute, and shape a strong, inclusive culture.
- **Embedding sustainability in daily work:** Employees actively support emission reduction, circularity, and responsible practices, creating long-term value for the business and society.

2025

senior roles filled internally

RESPONSIBILITY AND SUSTAINABILITY

FORBO GROUP – GOVERNANCE

Strong governance ensures compliant, efficient and responsible operations across our global manufacturing footprint:

- **ISO-certified management systems** across major sites ensuring compliant, efficient and future-ready operations.
- **Code of Conduct** defining ethical, social, environmental and anti-corruption standards.
- **Risk management** integrating climate-related and ESG risks across the value chain.
- **Regular audits** securing compliance with legal requirements and internal policies.
- **Forbo Integrity Line** enables stakeholders to anonymously report suspected misconduct.
- **Human rights and labor standards** are aligned with international standards.

2025

29

languages are provided by Forbo Integrity Line

81%

RESPONSIBILITY AND SUSTAINABILITY

FORBO GROUP

As a responsible manufacturer and employer, Forbo upholds high occupational health and safety standards to ensure a safe working environment for all employees.

We have often been the forerunners in our industries, setting standards and then going several steps beyond. As a result, our research and development is not just a reaction to evolving market requirements, but an integral driver of our business concept.

RESPONSIBILITY AND SUSTAINABILITY

FORBO GROUP

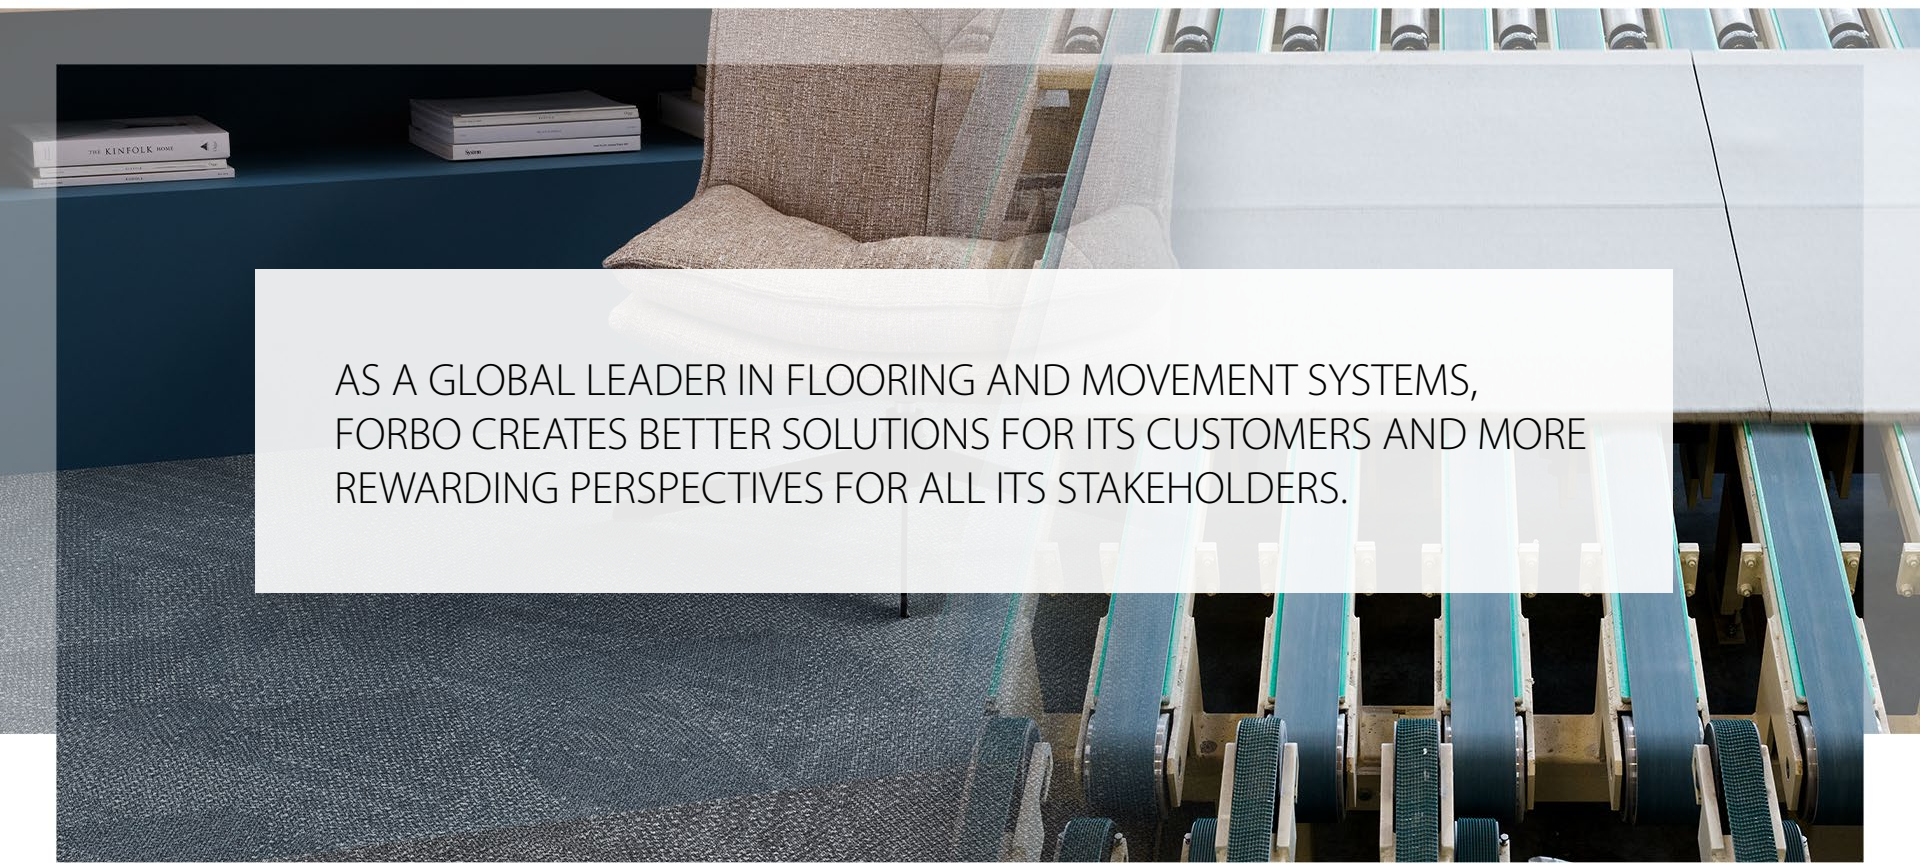

Growth does not just mean enlargement – it is also getting better. Better at deploying the potential of our employees, our resources and meeting the requirements of our fast-changing world.

Therefore, we need the talents of our employees. To enable excellence, we encourage self-reliance and initiative with the support of training and management approach. We connect people through dialogue.

FORBO GROUP
