

## PRESS RELEASE

### Forbo Siegling expands with a new Service Facility in Lakeland, FL

Forbo Siegling LLC, a global belting manufacturer with U.S. Headquarters in Huntersville, NC, will be expanding their operation with a new 10,000 sq. ft. service facility located in Lakeland (Tampa area), Florida.

Providing a wide range of conveyor and processing belts, flat belts, plastic modular belting, homogeneous belts plus associated products for a variety of industries and applications; Forbo is a one-stop shop for your belting requirements.

Forbo Movement Systems has an international network of branches and service partners with warehouses and workshops in over 80 countries. With 300 service points close to its customers, Forbo offers reliable and economical assembly and repairs – wherever you're located. Our experienced sales and service team can provide advice and solutions to your application locally.

Daniel Gygax, Forbo Siegling, LLC president, said, "We have enjoyed a long-term growth strategy and look forward to continued expansion in North America with many more successful years ahead."

Huntersville March 13, 2024
