

creating better environments

**Forbo**  
FLOORING SYSTEMS

**Tranquillity is part of the evolve+ series**

**evolve+** product evolution  
for enhanced sustainability

By evolving our standard carpet tile construction, which already contains over 60% recycled content, our evolve+ series ranges have increased recycled content of over 75% and lower embodied carbon of less than 2kg\* CO<sub>2</sub>e/m<sup>2</sup> (A1-A3), all independently verified and without offsetting.

**Tessera evolve+ series achieve the following:**

**Less than 2 kg\*** CO<sub>2</sub>e/m<sup>2</sup> of embodied carbon (A1-A3)

**More than 75%** recycled content

**100%** renewable energy

**Tranquillity** is a serene sense of calm and reflection; a quiet haven in our otherwise busy world.

Inspired by the patterns created by the soothing ebb and flow of water or natural rock formations, **Tranquillity** is a refreshing take on organic design.

Available in 50cm x 50cm tile format in 6 neutral tones and 6 warm accent colours, **Tranquillity** offers serenity to office and education interior spaces.

**Tranquillity** complements other Tessera ranges and the wider Forbo portfolio through matching colours, tones and harmonising designs, giving greater creative options and opportunities to create coordinating schemes which work with your space.

Through meeting the requirements such as product EPDs, indoor air quality (Indoor Air Comfort Gold and GUT) and sustainability targets, **Tranquillity** also contributes to popular build schemes such as BREEAM, LEED and WELL.
